Full product description

QuWireless QuMax A360M - reliability and performance in your network

Meet the QuWireless QuMax A360M, an LTE and Wi-Fi antenna designed specifically for the Teltonika RUT360 router. This innovative product offers exceptional performance and reliability, providing fast and stable connections in all conditions. With the QuWireless QuMax A360M, your network will perform at the highest level, regardless of your location.

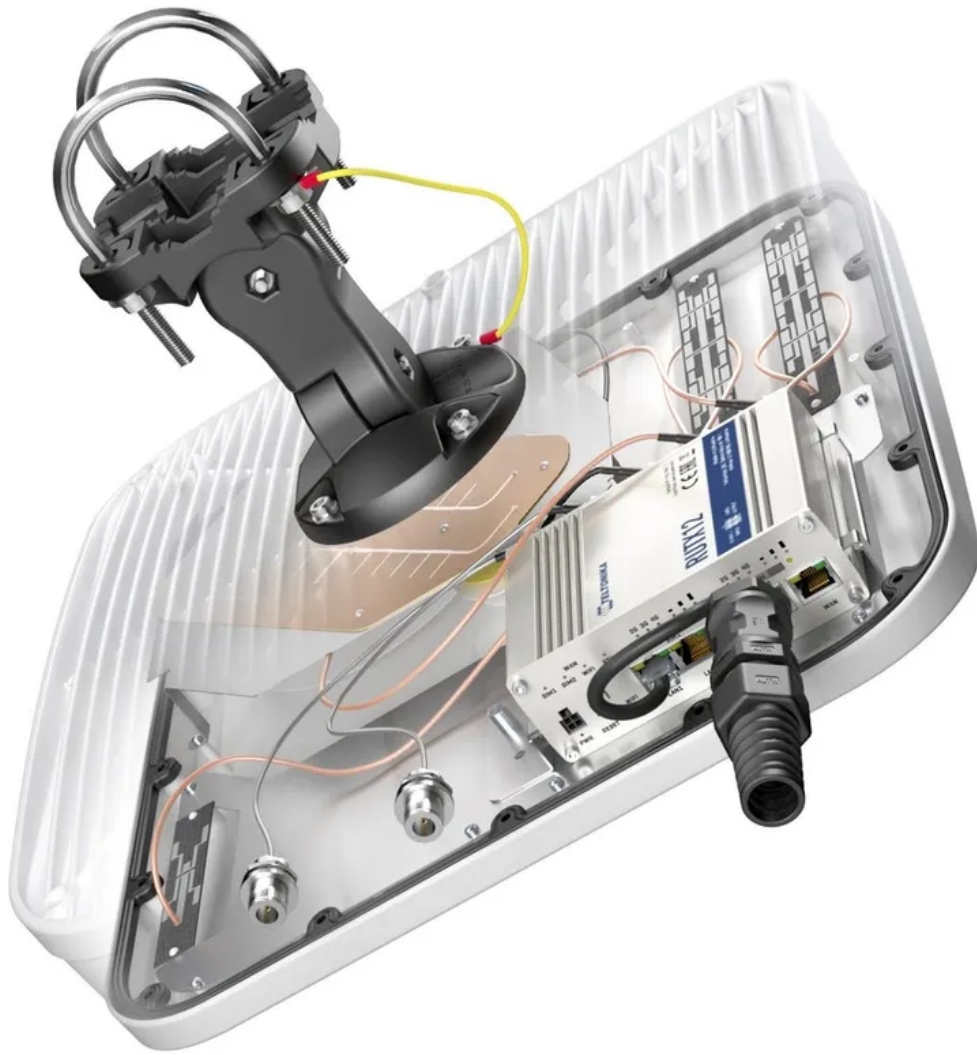

Exceptional connection performance

The QuWireless QuMax A360M provides an impressive energy gain of up to 6 dBi for LTE and Wi-Fi, ensuring **strong and stable connections**. Thanks to its advanced LTE antenna technology, you can enjoy fast and reliable internet regardless of conditions. It's the ideal solution for users who require superior network services.

Resistance to harsh conditions

The QuMax A360M antenna is designed to operate in the harshest weather conditions. Made of durable materials such as ABS, aluminum and fiberglass, and with an IP67 rating, it is resistant to dust and water. So you can rest assured that your connection will remain stable, regardless of the weather.

Easy installation and versatility

The QuWireless QuMax A360M is easy to install with PoE technology, eliminating the need to run additional power cables. The antenna is fully compatible with the Teltonika RUT360 router for **seamless integration**.
