Full product description

Discover reliability and modernity with Extralink Selene - a fiber optic box created to meet the highest standards.

This product is designed for professionals who need durable and efficient solutions. See why Extralink Selene is the best choice for your fiber optic infrastructure.

Unparalleled durability

The Extralink Selene fiber optic box is **made of the highest quality materials**, which guarantees longevity and resistance to extreme conditions. Thanks to its robust construction, this product can withstand a variety of external factors, ensuring the protection of your fiber optic installations. It is a reliable solution that is sure to meet your expectations.

Versatility and functionality

The Extralink Selene supports up to 16 splices, making it an ideal choice for a variety of applications. The fiber optic box offers mounting flexibility, including pole-mounting capabilities for **easy installation in a variety of locations**. Thanks to its thoughtful design, the product is easy to use and maintain.

Aesthetic design

The black Extralink Selene not only meets functional requirements, but also **looks sleek and modern**. The stylish appearance makes this product fit perfectly into any environment, from professional server rooms to home installations. The combination of aesthetics and high quality workmanship is a guarantee of user satisfaction.
