Full product description

QuWireless QuSpot A950S - a modern solution that combines reliability and performance.

The LTE and Wi-Fi antenna is specially designed for Teltonika's RUT951, RUT950 and RUT900 routers to ensure maximum signal strength and connection stability. With its advanced QuWireless technology, the QuSpot A950S is an ideal choice for anyone who needs a reliable and efficient connection.

Unparalleled performance

The QuWireless QuSpot A950S is an antenna that delivers exceptional performance with an antenna gain level of up to 7 dBi. With a wide range of frequency bands, this LTE antenna offers **reliable connections in a variety of conditions**. Whether you use it in the city or in the countryside, you can always count on maximum signal.

Robust construction

The product is made of durable materials such as ABS, aluminum and PTFE, which **guarantees its longevity**. The QuSpot A950S is IP67-rated, which means it can withstand harsh weather conditions. Regardless of the weather, this antenna ensures a stable connection.

Versatility and compatibility

The QuWireless QuSpot A950S is compatible with Teltonika's RUT951, RUT950 and RUT900 routers, making it a versatile solution for a variety of network needs. **Powering the antenna is easy**, and installation **is** quick and hassle-free. The product is ideal for applications where a strong and stable connection is needed.
