Full product description

The QuWireless QuSpot A955S is an advanced LTE, Wi-Fi and GPS antenna designed specifically for Teltonika RUT956 and RUT955 routers!

With this antenna, users can enjoy a fast and stable Internet connection, regardless of location. The QuSpot A955S features exceptional durability and weather resistance, making it ideal for outdoor use.

High LTE performance

The QuWireless QuSpot A955S offers an impressive energy gain of 2 to 7 dBi, which provides excellent LTE performance in various frequency bands. Users can enjoy high-speed Internet even in hard-to-reach areas. With this LTE antenna, **you gain a stable and fast connection** at all times.

Versatility and integration

The QuSpot A955S antenna integrates **LTE, Wi-Fi and GPS** functions , making it a single device for multiple applications. With this antenna, you can simultaneously use the Internet, GPS location and wireless network access. This saves space and simplifies installation, providing full functionality in one product.

Durability and resilience

The QuWireless QuSpot A955S product is made of high-quality materials such as ABS, aluminum and PTFE. It has an IP67 rating, which means it is **completely resistant to dust and water**. This makes the antenna work reliably in extreme weather conditions, making it ideal for outdoor applications.
