Full product description

QuWireless QuSpot AX11S - a comprehensive solution for mobile networks

Meet the versatile LTE, Wi-Fi, GPS and Bluetooth antenna that provides reliable connections for Teltonika's RUTX11 router. This advanced omnidirectional antenna is designed to withstand the most demanding conditions and deliver stable, high-speed connections in any situation. Ideal for mobile applications, the QuSpot AX11S combines functionality and performance.

Exceptional connection performance

The QuWireless QuSpot AX11S offers an impressive energy gain of up to 7 dBi for Wi-Fi and LTE. Thanks to its **omnidirectional** antenna, you can enjoy **a strong and stable signal in all directions**. Ideal for those who need a reliable connection in any situation.

Versatility and functionality

The QuSpot AX11S combines LTE, Wi-Fi, GPS and Bluetooth functions to offer a complete solution for your network. Thanks to its advanced technology, the antenna can operate on multiple frequencies for optimal connectivity. It's a versatile product that will work well in both residential and commercial applications.

Resistance to harsh conditions

The QuWireless QuSpot AX11S antenna is designed to withstand **the harshest weather conditions**. Made of durable materials such as ABS, aluminum and PTFE, and with an IP67 rating, it is dust and water resistant. So you can rest assured that your connection will remain stable, regardless of the conditions.
