Price: **70.60 zł** gross / 57.40 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGLOOFRMMLH

Product features

Maximum data transfer rate	1.25 Gb/s
Brand compatibility	HP/Aruba
Maximum transfer distance	20 km

Full product description

Extralink SFP 1.25G 2-Pack: Highest quality data transmission

The **Extralink SFP 1.25G 1310NM Fiber Optic Module** is a single-mode SFP insert designed to transmit data at speeds **up to 1.25 Gbps**, providing a transmission range of **up to 20 km**. Ideal for demanding networks **that need reliability and performance**.

Port speed:
1.25GB

Transmission
distance:
20km

Wavelength:
1310NM

Fiber type:
SINGLE-MODE

Reliability and compliance

The **single-mode SFP module** is compatible with **SONET OC-24-LR-1** and complies with the **EU RoHS** directive, which guarantees compliance with the latest standards and regulations. It has an **LC** output connector, which is commonly used in modern **fiber optic networks**.

Wide compatibility

MSA compliant, suitable for switches, routers and fiber optic infrastructure without drivers

Versatility of applications

The **1.25G SFP** insert can be used in various applications such as **Gigabit Ethernet**, fiber channels, switch-to-switch interfaces, switched backplanes, router/server interfaces and other optical transmission systems. This makes it a versatile solution for many types of network infrastructure.

Brand: **Extralink**

Port speed: **1.25GB**

Transmission distance: **20 KM**

Wavelength: **1310NM**

Fiber type: **SINGLE-MODE**

Interface type: **SFP**

Plug and Play support: **YES**

Fiber optic connector: **LC/UPC**

Temperature: **0-70 °C**

Easy installation

Plug & Play and Hot-Pluggable, without restart and drivers, which reduces network maintenance and expansion time.

Wide compatibility

Each SFP module is individually tested to ensure reliable operation with leading brands of network equipment.
