Price: **80.75 zł** gross / 65.65 zł net

Manufacturer: EXTRALINK

Referention number: DNXXGLQKMRMMPM

Product features

Maximum data transfer rate	1.25 GB/s
Brand compatibility	Cisco
Maximum transfer distance	550 m

Full product description

EXTRALINK SFP 1.25G 850NM 550M MM DOM 2-PACK: Highest Transmission Quality.

Choose **EXTRALINK SFP 1.25G 850NM 550M MM DOM 2-PACK** and enjoy unparalleled data transfer speeds! Our **SFP inserts** support transmission speeds of **up to 1.25Gbps** for smooth and reliable connections. Ideal for any **high-bandwidth** applications .

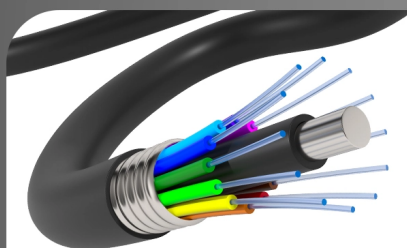

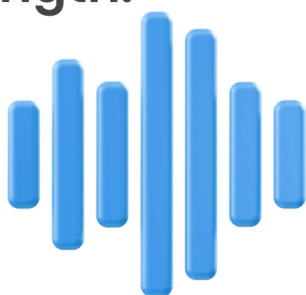

Port speed:
1.25GB

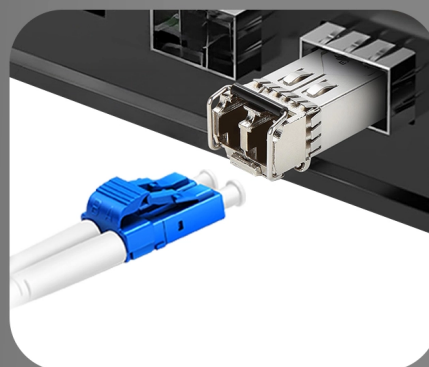

**Transmission
distance:**
550m

Wavelength:
850NM

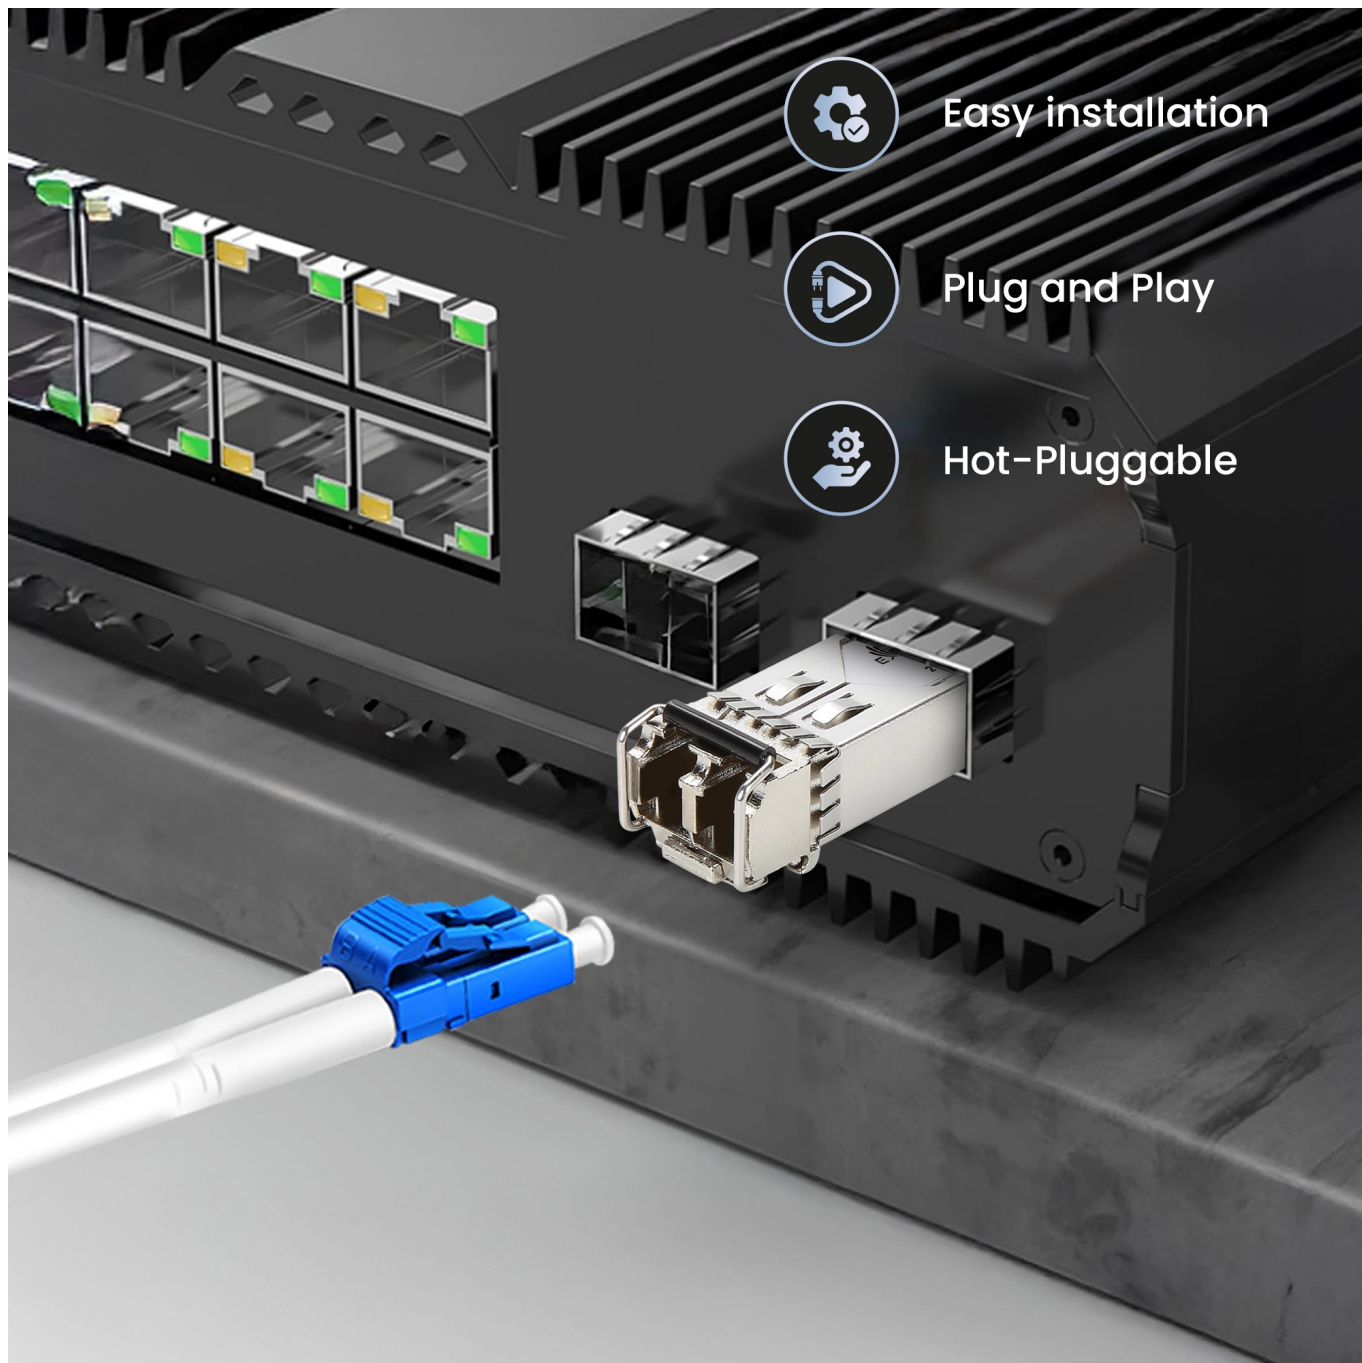

Fiber type:
MULTI-MODE

LC Output Connector - Ease of Connection

EXTRALINK inserts are equipped with **an LC connector**, guaranteeing simple and fast installation. Thanks to the LC connector, our modules are compatible with a wide range of devices, offering flexibility and ease of use that any professional will appreciate.

Compatibility with MikroTik S-85DLC05D SFP

Our **SFP inserts** can be used as a replacement for **MikroTik S-85DLC05D SFP**. With full compatibility, you can replace your existing modules with **EXTRALINK** without worry, gaining better performance and reliability, without the need for additional modifications to your infrastructure.

Wide compatibility

MSA compliant, suitable for switches, routers and fiber optic infrastructure without drivers

Maximum Transmission Distance of up to 550 Meters

EXTRALINK SFP provides a maximum transmission distance of up to **550 meters**, making it ideal for extended networks. Regardless of the size and complexity of your system, our inserts guarantee a stable long-distance connection.

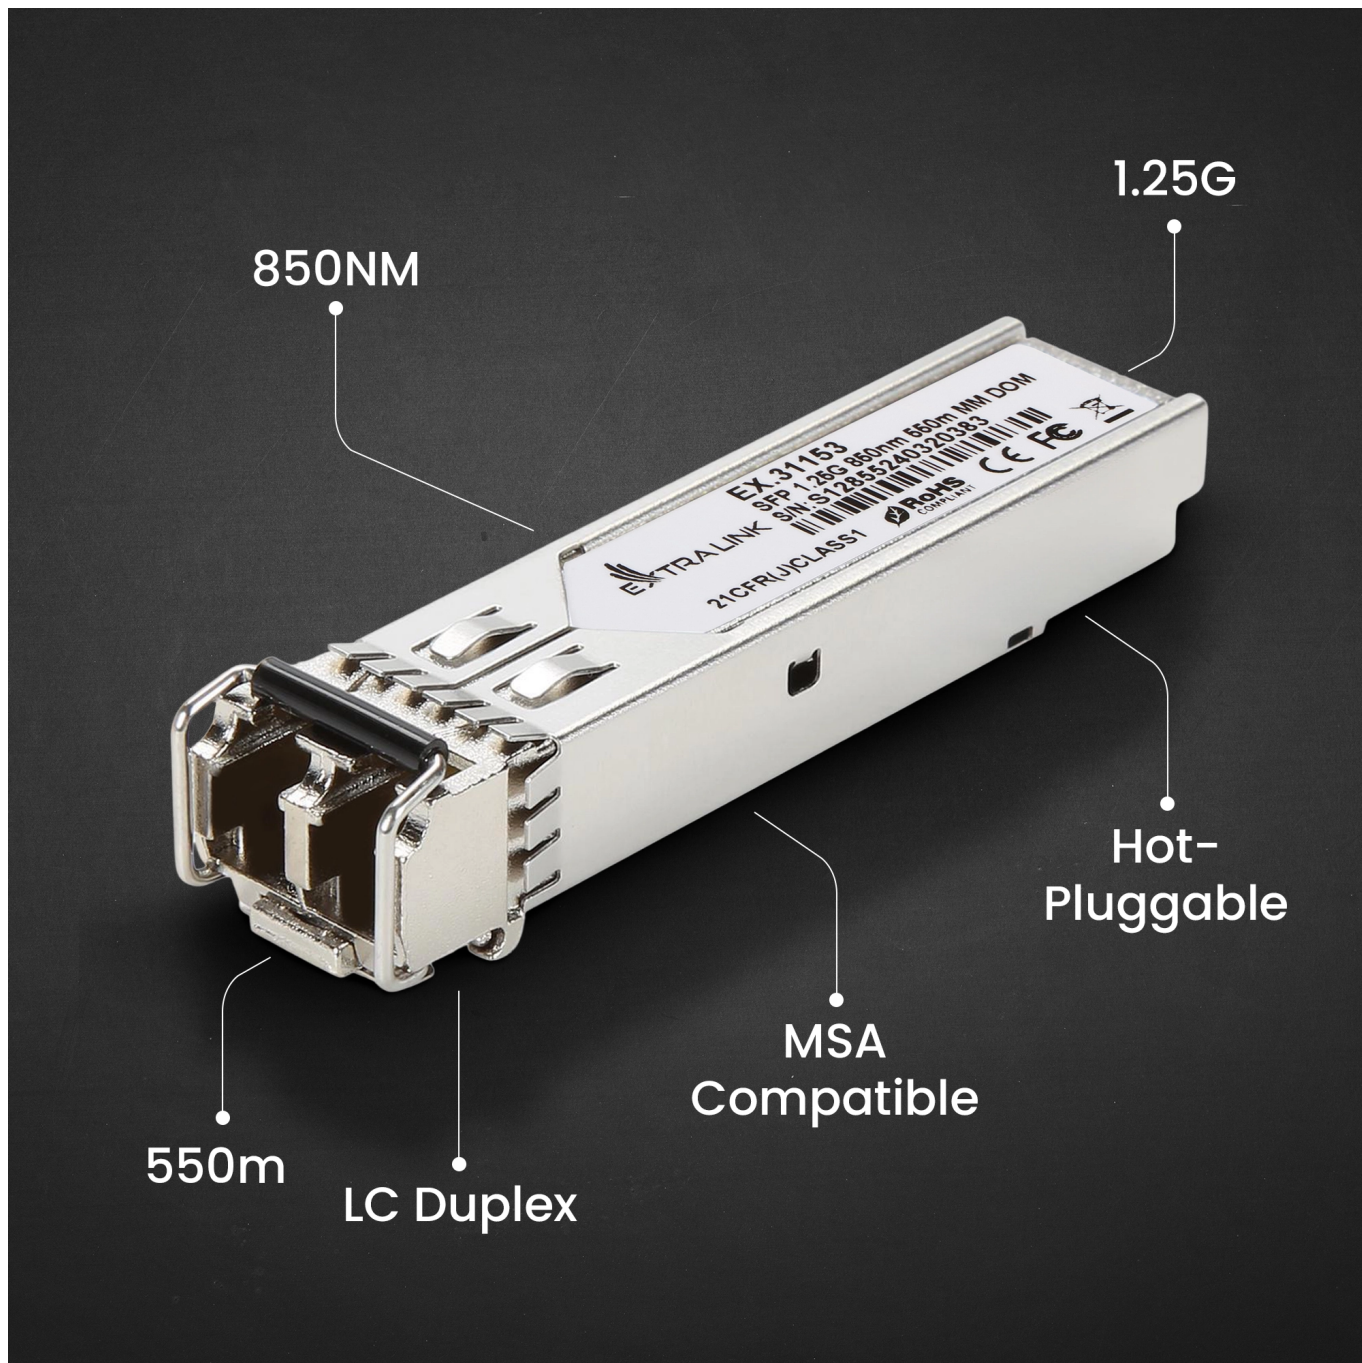

The image shows two Extralink SFP modules standing vertically. The background is a dark, slightly blurred image of a network switch port panel with many RJ45 ports. The SFP modules are silver-colored with black labels. The labels contain the following text: EX-31153, SFP 1.25G 850nm 550m MM DOM, EXTRALINK, S/N: S12855240320384, 21CFR(J)CLASS1, RoHS COMPLIANT, and CE FC. The modules have a gold-plated LC/UPC fiber connector at the bottom.

Brand:	Extralink
Port speed:	1.25GB
Transmission distance:	550M
Wavelength:	850NM
Fiber type:	MULTI-MODE
Interface type:	SFP
Plug and Play support:	YES
Fiber connector:	LC/UPC
Temperature:	0-70 °C

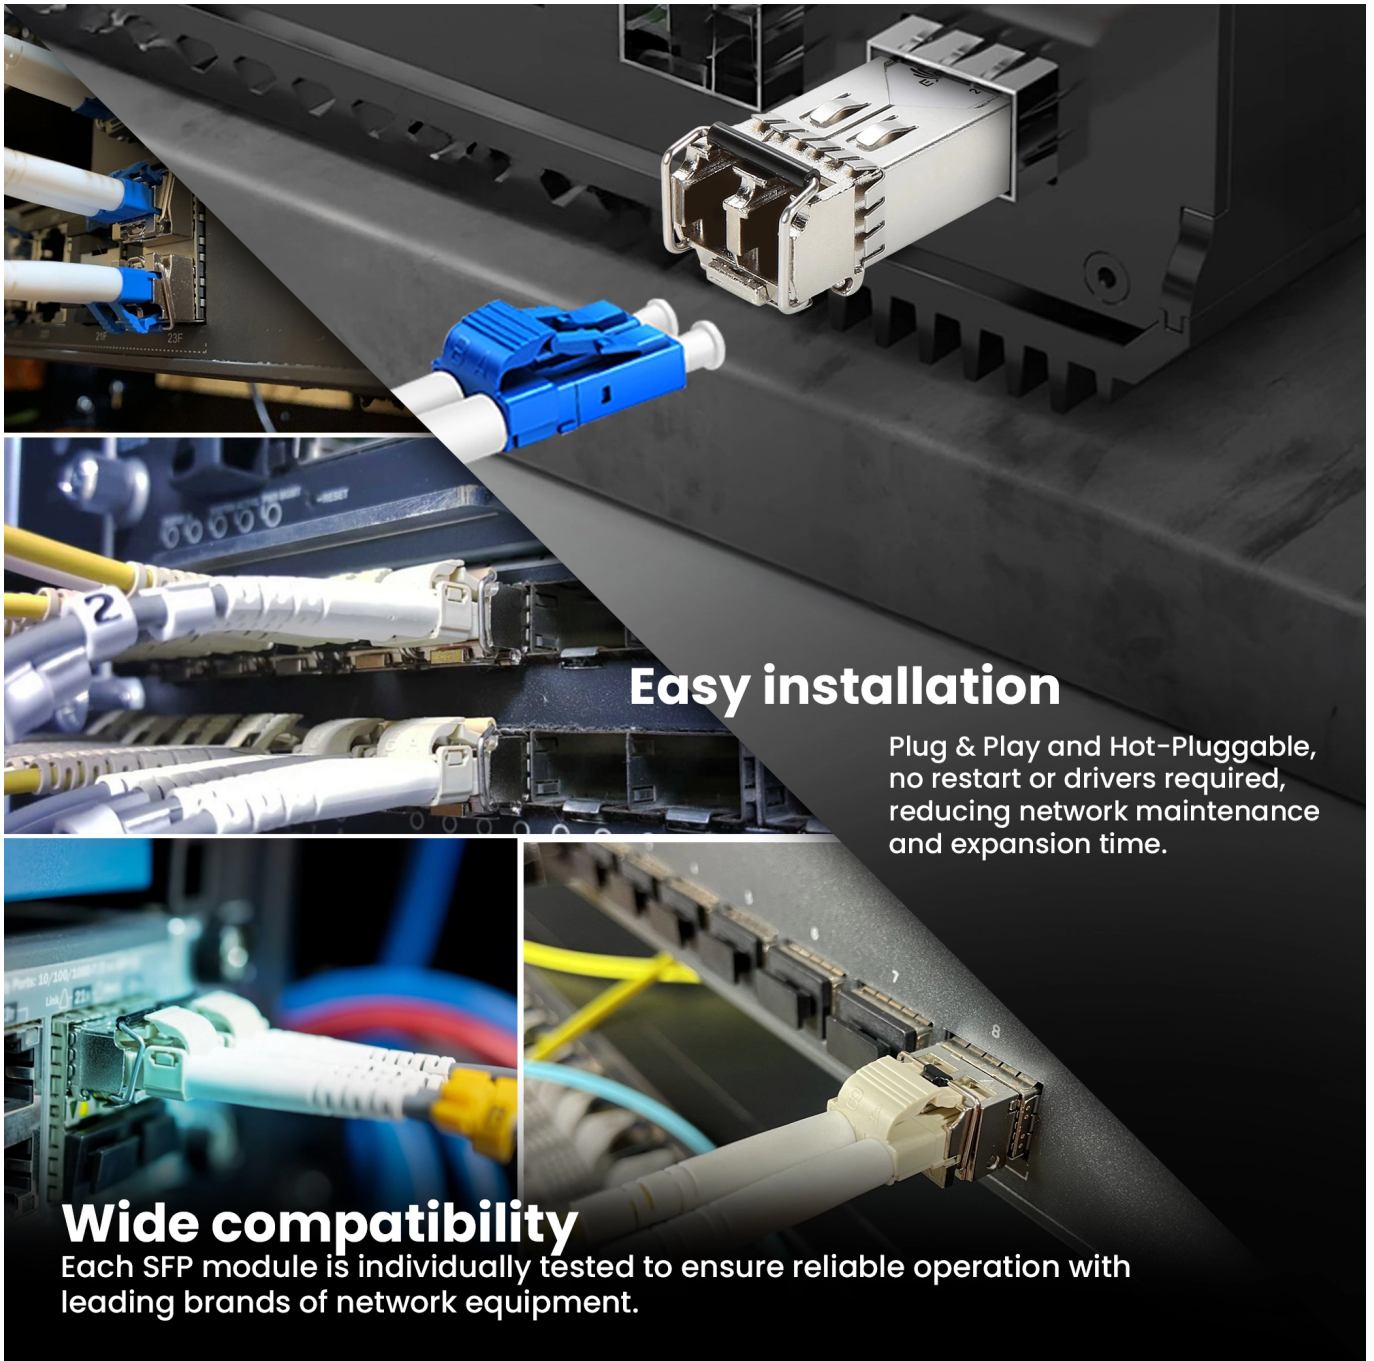

Multi-mode Fiber Optic Support

Our **SFP inserts** are designed to work with multimode fiber (**MMF**), making them a versatile choice for a variety of applications. **EXTRALINK SFP 1.25G 850NM 550M DDM** multimode inserts provide reliable data transmission in all conditions.

High Performance and Reliability

EXTRALINK SFP 1.25G 850NM 550M MM DOM 2-PACK is a guarantee of **high performance and reliability**. Thanks to our advanced technologies, each installation gains stability and efficiency, resulting in end-user satisfaction.

Easy installation

Plug & Play and Hot-Pluggable,
no restart or drivers required,
reducing network maintenance
and expansion time.

Wide compatibility

Each SFP module is individually tested to ensure reliable operation with
leading brands of network equipment.
