Package depth	94 mm
Package height	163 mm
Master (outer) case gross weight	13000 g
Package width	110 mm
Master (outer) case length	550 mm
Screws included	Yes
Product colour	Grey

Full product description

Mounting bracket for routerboard installation

The NanoBracket SEXTANT is designed so that it can be **quickly and easily** mounted on a pole or wall. The improved NanoBracket SEXTANT offers a 3-axis **second generation** positioning system. In one simple step it allows you to adjust the antenna in azimuth, height and rotation.

Implementation

NanoBracket SEXTANT is made of die-cast aluminium and high-quality ABS plastic. All screws are made of stainless steel.
