Price: **220.64 zł** gross / 179.38 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGLIJLRMMIJ

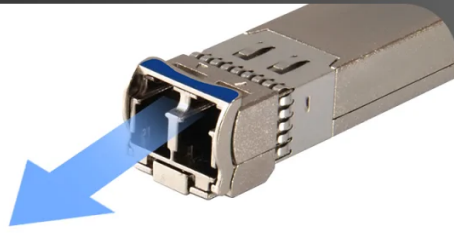

Product features

Maximum data transfer rate	10 Gb/s
Brand compatibility	Cisco
Maximum transfer distance	10 km

Full product description

Highest quality data transmission with EXTRALINK SFP 10G 1310NM SM LC 10KM 2-PACK.

The **SFP (Small Form-factor Pluggable) module** is a key component of modern **computer networks**, enabling data transmission via fiber optics. Thanks to it, modernization and expansion of the network infrastructure becomes simple and efficient, **without having to replace all the equipment**.

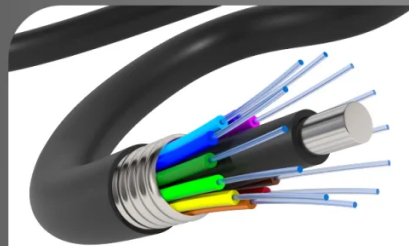

Port speed:
10GB

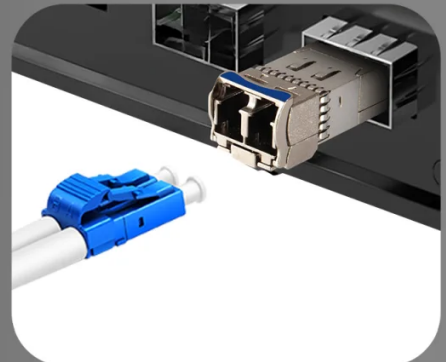

Transmission
distance:
10km

Wavelength:
1310NM

Fiber type:
SINGLE-MODE

Reliability and efficiency

EXTRALINK SFP 10G 1310NM SM LC 10KM 2-PACK is a solution designed for superior data transmission. This module uses dual single-mode (SM) fiber technology, providing stable and high-speed connections over distances of up to 10 kilometers. The TX wavelength of **1310nm** guarantees reliability and minimizes interference, which is key to maintaining high quality data transmission.

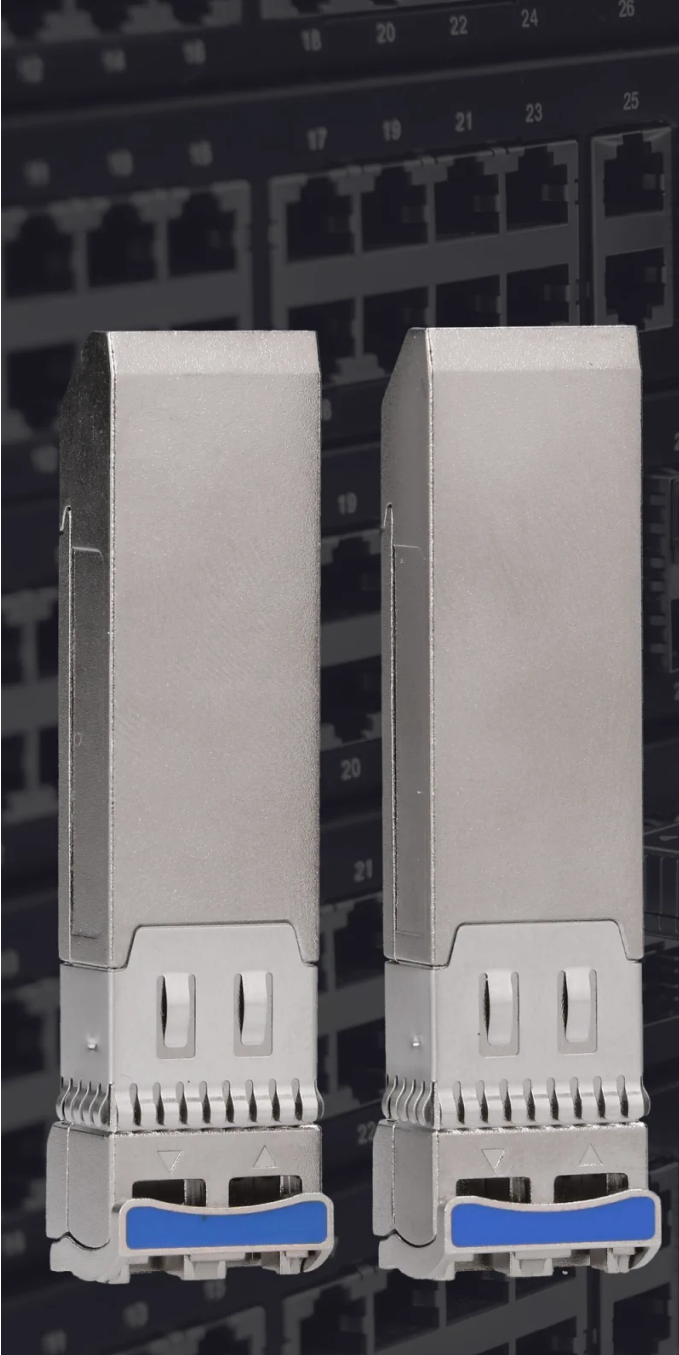

Wide compatibility

MSA compliant, suitable for switches, routers, and fiber optic infrastructure without drivers

Flexibility and ease of use

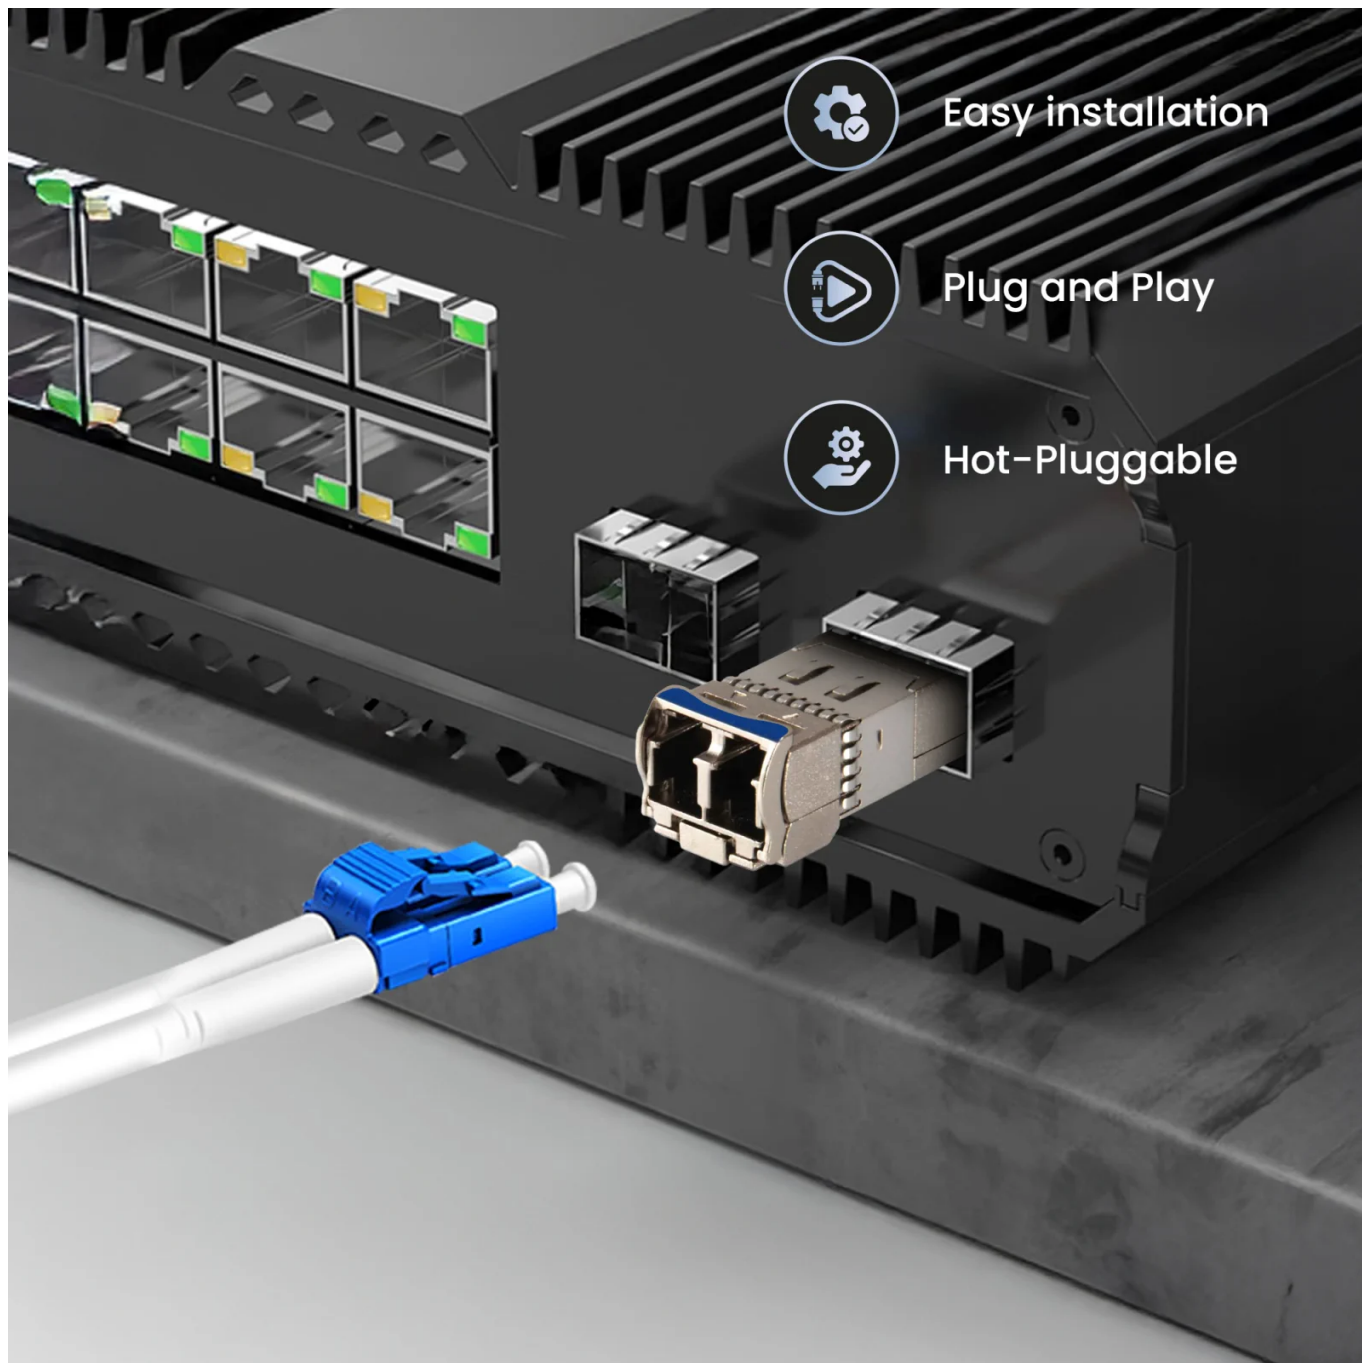

One of **EXTRALINK SFP 10G**'s greatest strengths is its flexibility. The ability to easily change and update network connections makes it ideal for companies looking to adapt their infrastructure to growing needs without unnecessary complications. **The SFP modules** are compatible with a wide range of network devices, further enhancing its versatility.

Brand:	Extralink
Port speed:	10 GB
Transmission distance:	10 KM
Wavelength:	1310NM
Fiber type:	SINGLE-MODE
Interface type:	SFP
Plug and Play support:	YES
Fiber optic connector:	LC/UPC
Temperature:	0-70 °C

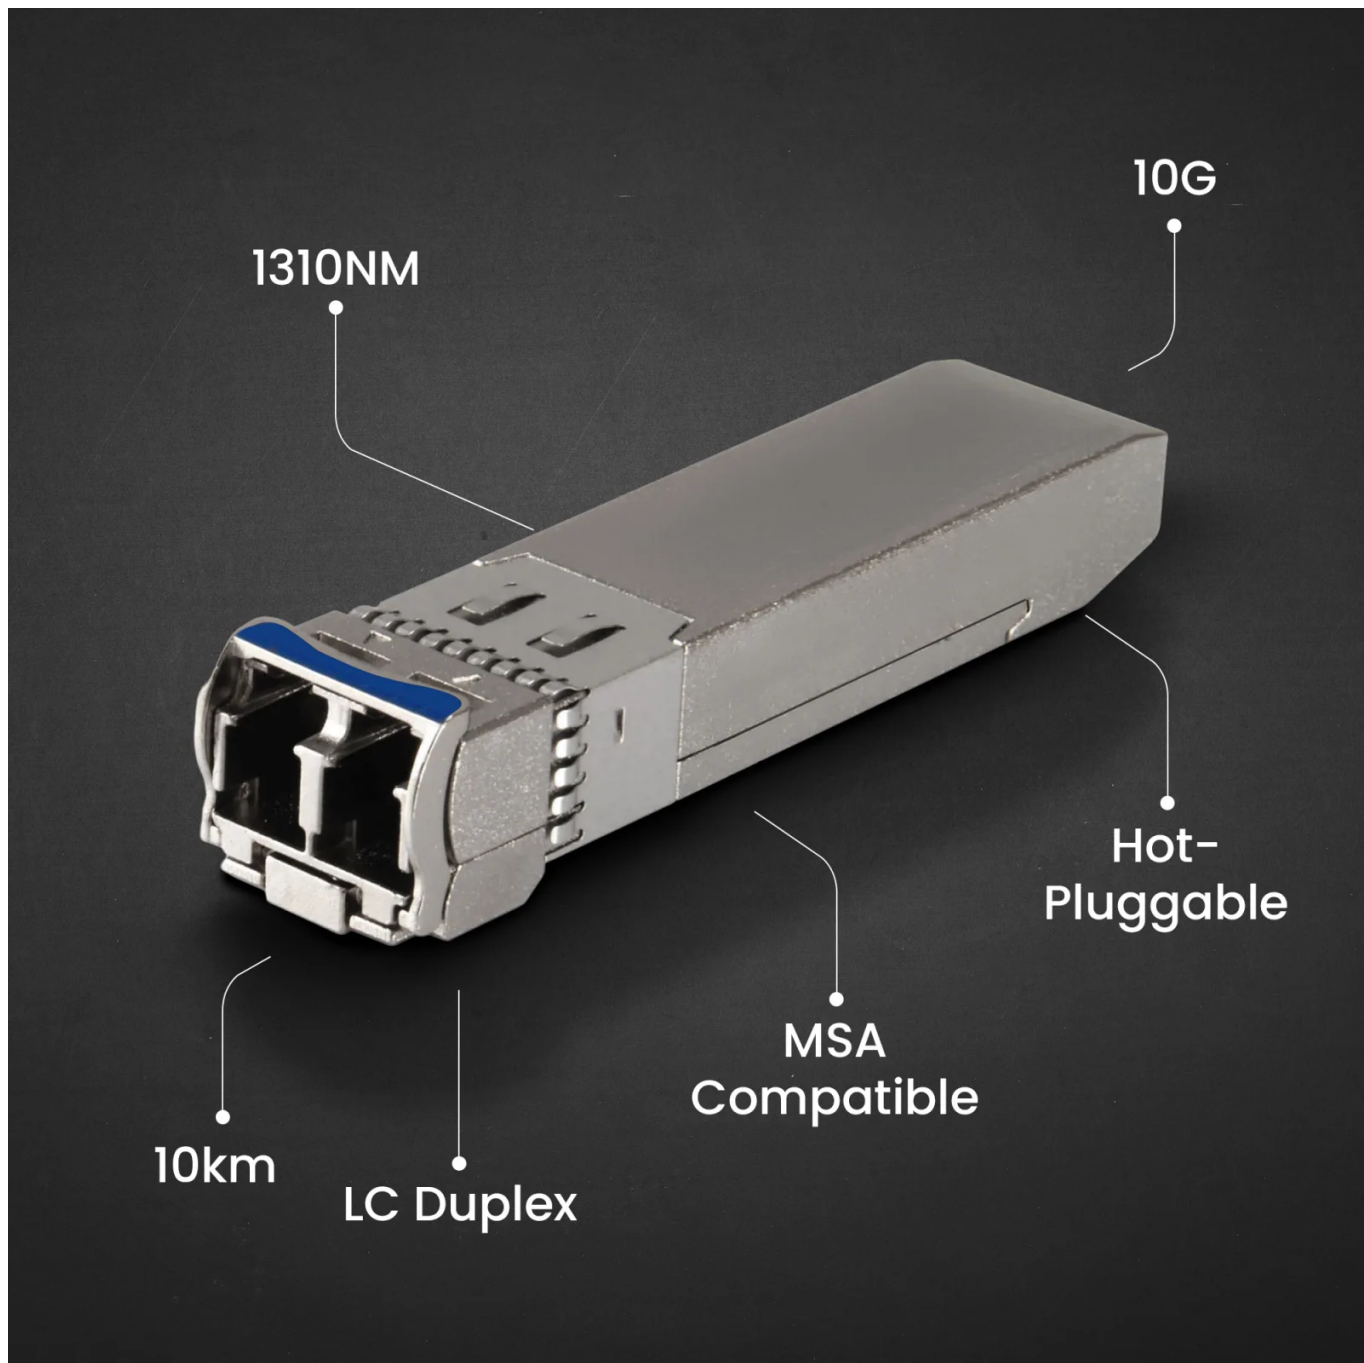

Cost-effective and efficient solution

Buying **EXTRALINK SFP 10G 1310NM SM LC 10KM 2-PACK** is an investment that pays for itself quickly. Since these modules are sold in packs of two, companies can optimize their spending on network equipment. The high build quality and reliability of these modules ensure long-lasting and trouble-free operation, which translates into reduced **maintenance and repair costs**.

Application in various industries

EXTRALINK SFP 10G modules are used in various sectors, from small businesses to large enterprises, educational institutions and data centers. Their performance and reliability make them ideal for building modern and scalable networks.

Easy installation

Plug & Play and Hot-Pluggable, no restart or drivers required, which reduces network maintenance and expansion time.

Wide compatibility

Each SFP module is individually tested to ensure reliable operation with leading brands of network equipment.
