Full product description

RF Elements sector antenna of the Horn type with a 30 degree beam width

Sectoral RF Elements Carrier Class with a 30 degree beam. The front-to-back ratio is 37 dB. The presented **Horn**Antenna from the SH-CC series offers exceptional performance, typical for RF Elements products. This antenna in a compact housing has a long range and provides symmetrical coverage of a specific surface.

Surface coating

The **RF Elements Horn SH-CC-5-30** antenna provides symmetrical coverage of heavy customers who are in close proximity to the antenna. The SH-CC series of antennas offers a **significant reduction in interference levels** due to extremely small side panels. The SH-CC 5-30 model by RF Elements is equipped with **two N Female**. type connectors.
