Price: **265.37 zł** gross / 215.75 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGLIKDRMLLP

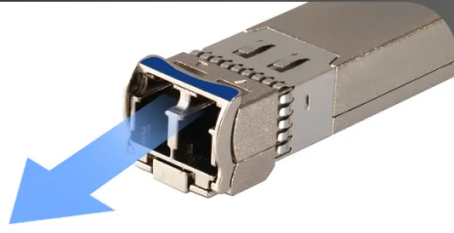

Product features

Maximum data transfer rate	10 Gb/s
Brand compatibility	Cisco
Maximum transfer distance	40 km

Full product description

Modern Optical Transmission Technology

Extralink SFP 10G 1310NM is an advanced solution designed to transmit and receive optical data over **single-mode fiber over distances of up to 40 km**. Using the latest technology, the module guarantees reliable and efficient data transmission while meeting the **most stringent industry standards**.

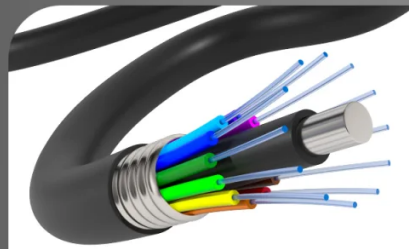

Port speed:
10GB

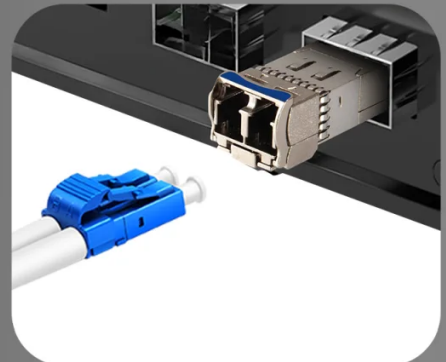

Transmission
distance:
40km

Wavelength:
1310NM

Fiber type:
SINGLE-MODE

High Compliance and Reliability

The electrical interface of the **Extralink SFP 10G 1310NM** module complies with the SFI electrical specification, ensuring wide compatibility with various network devices. The use of transmitter and receiver differential impedance of **100 ohms (Ω)** further enhances the reliability of operation, minimizing interference and signal loss.

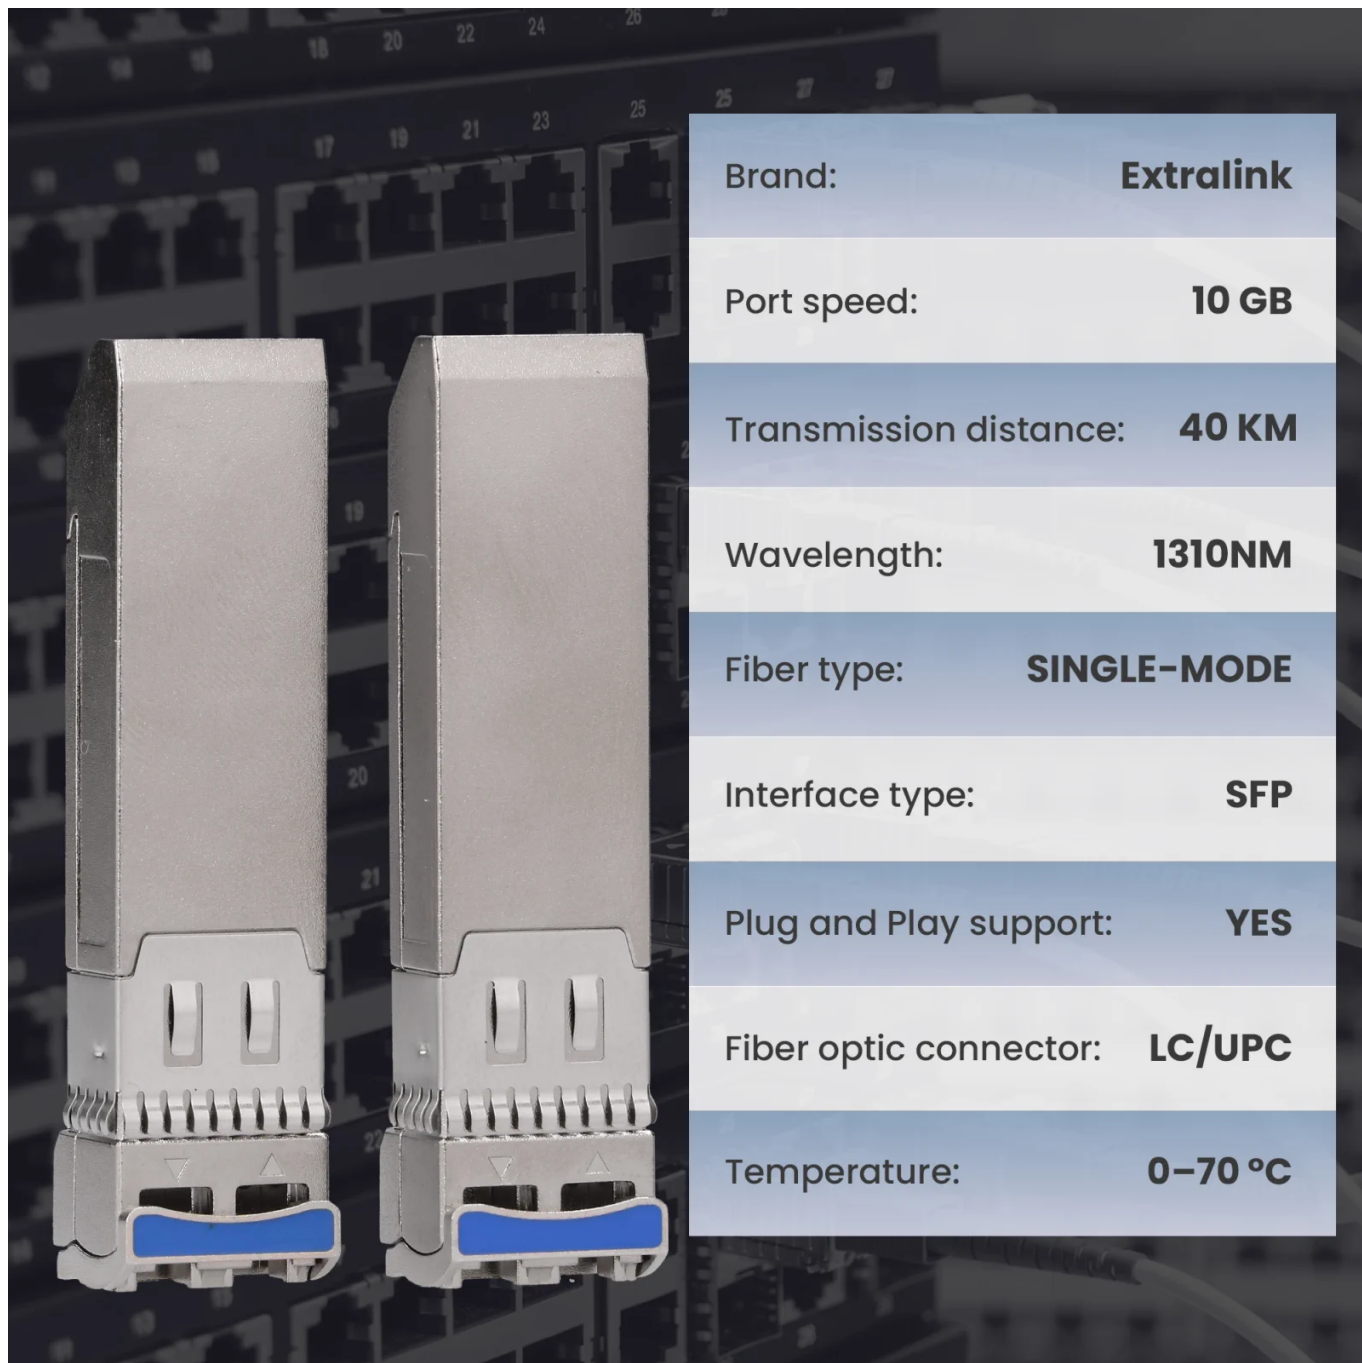

Wide compatibility

MSA compliant, suitable for switches, routers, and fiber optic infrastructure without drivers

Minimizing EMI Interference

Thanks to its robust metal housing, the **Extralink SFP LC duplex** module features very low electromagnetic emissions (**EMI**). This makes it ideal for applications in environments with high requirements for signal purity and minimization of interference.

Brand: **Extralink**

Port speed: **10 GB**

Transmission distance: **40 KM**

Wavelength: **1310NM**

Fiber type: **SINGLE-MODE**

Interface type: **SFP**

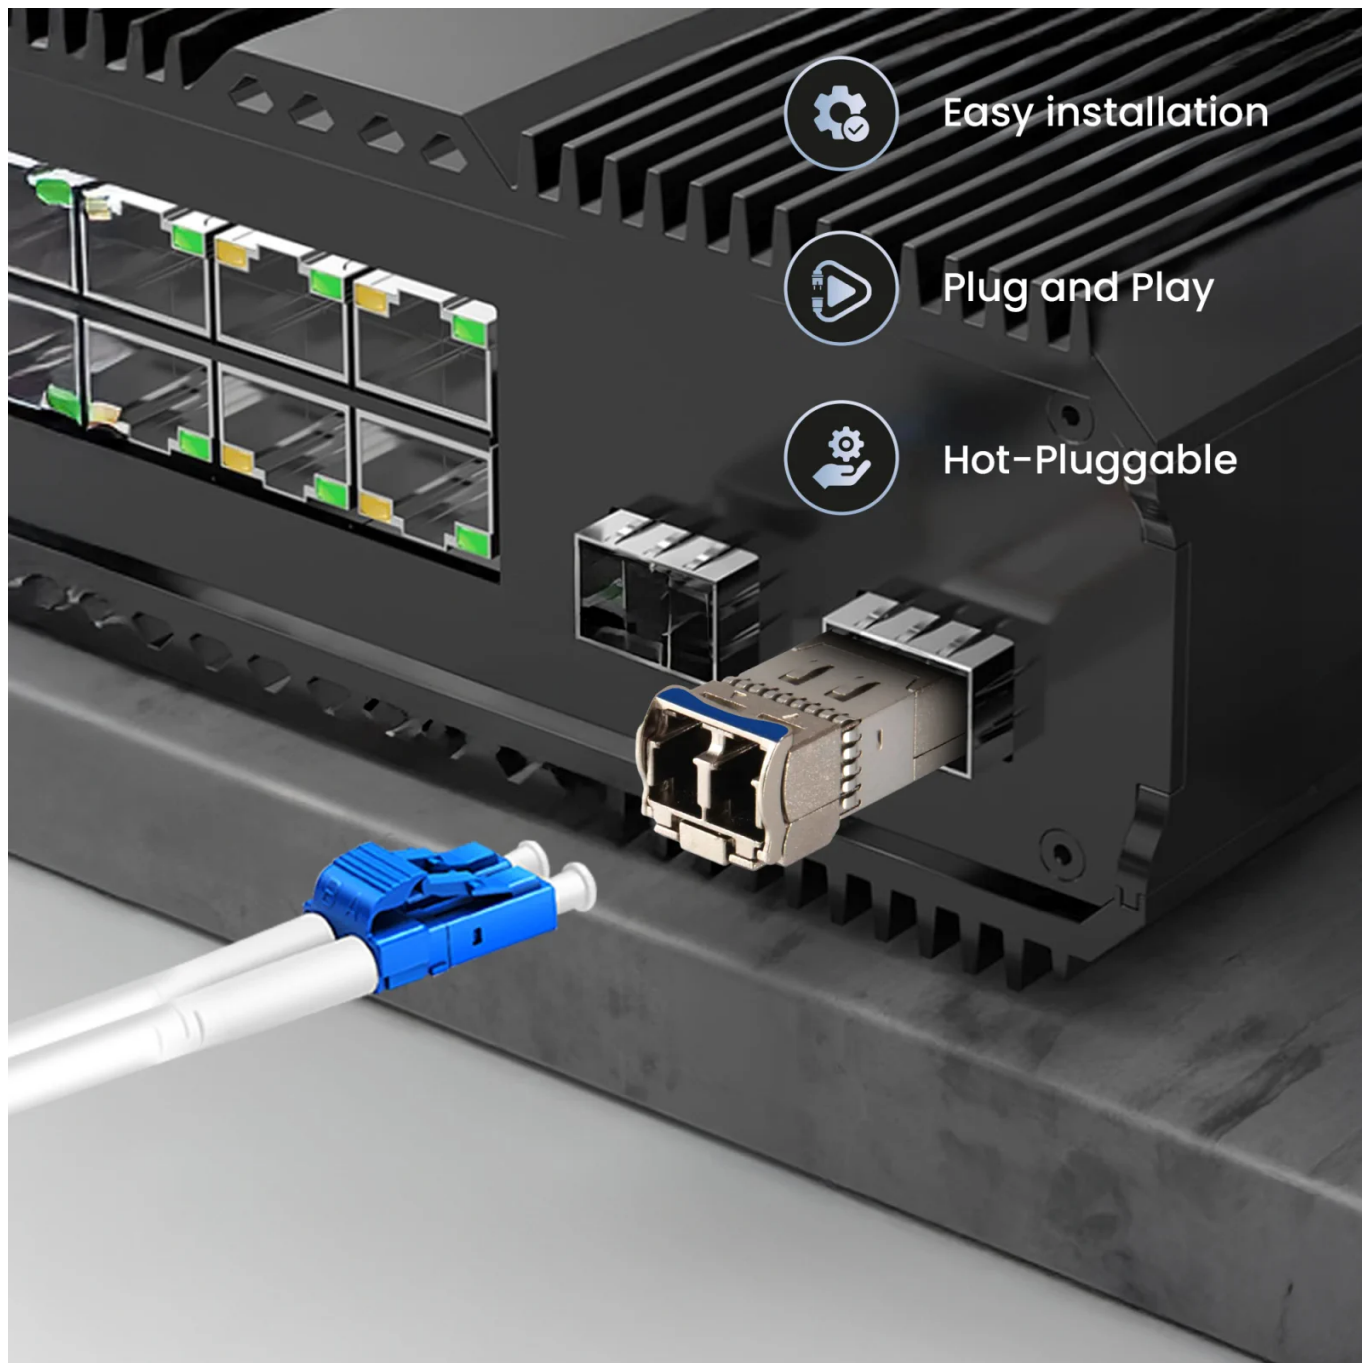

Plug and Play support: **YES**

Fiber optic connector: **LC/UPC**

Temperature: **0-70 °C**

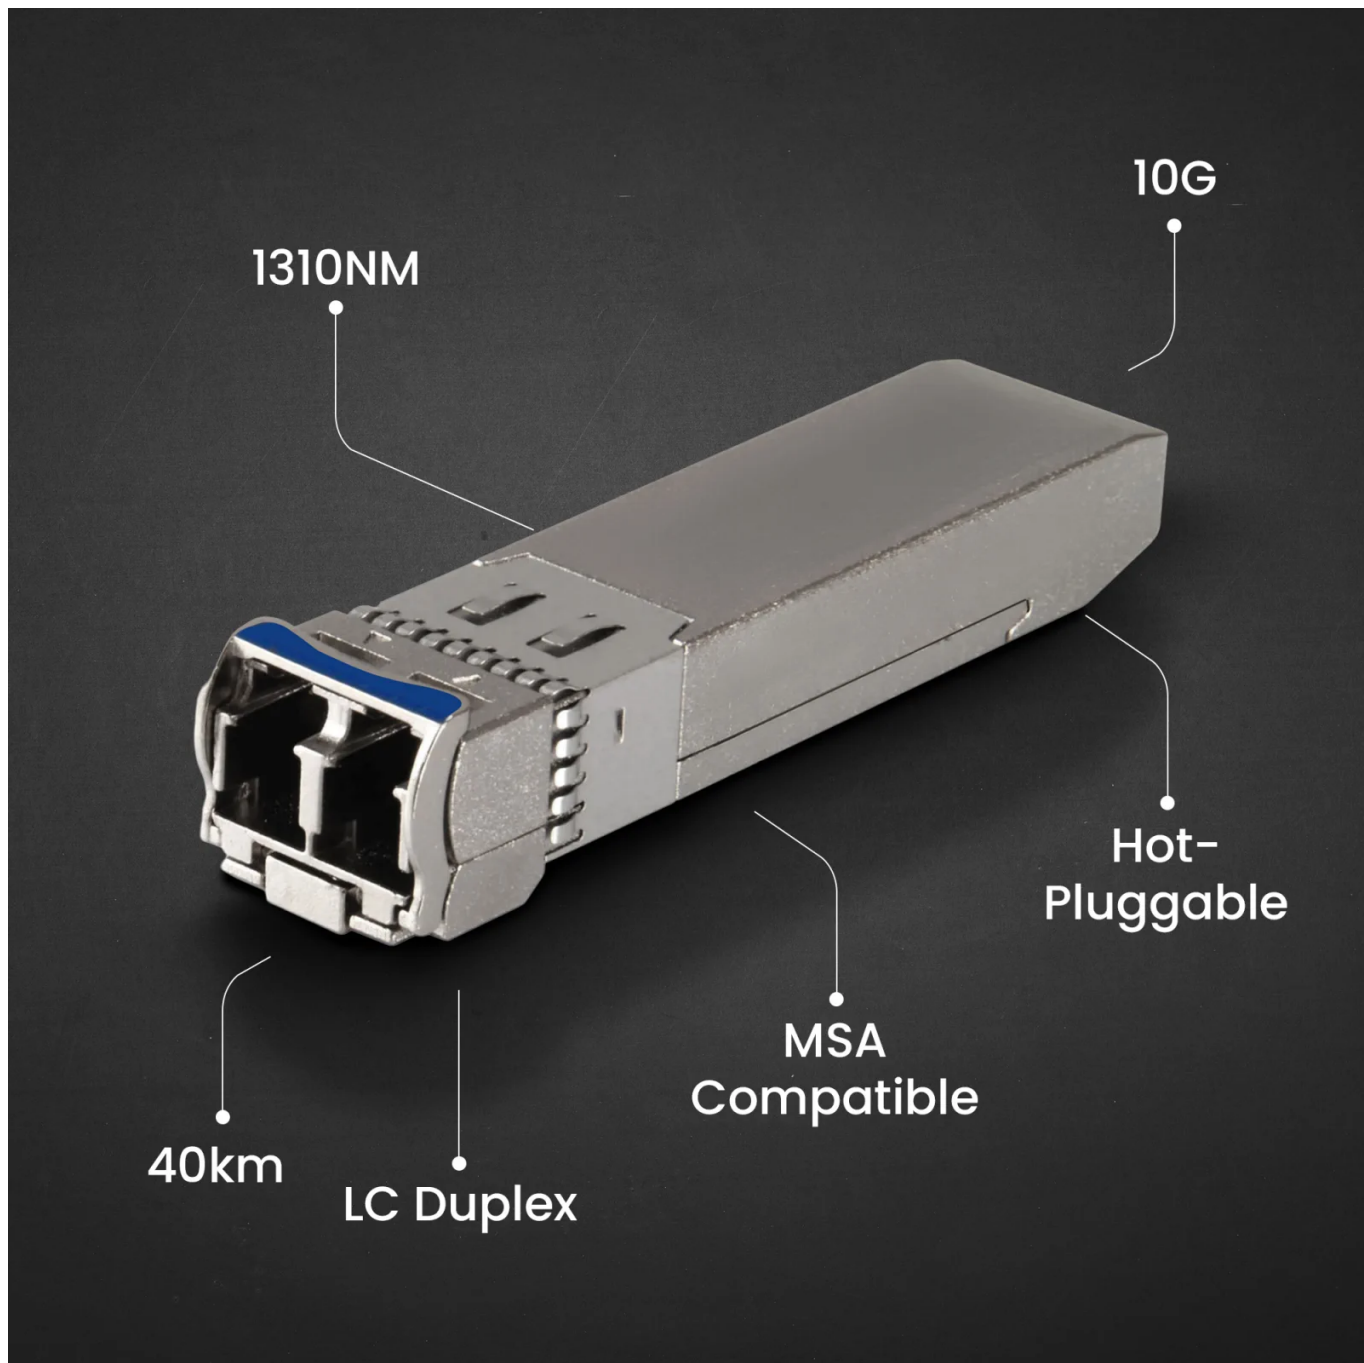

Compliant with 802.3ae 10G BASE-ER Standards

The **1310NM SFP** module complies with the **802.3ae 10G BASE-ER** standard, allowing data transmission at speeds of up to 10 Gbps. This guarantees not only fast data transfer, but also the stability and reliability of a long-distance connection, **reaching up to 40 kilometers**.

The Perfect Solution for Your Network

Using **Extralink SFP 10G 1310NM** module is an investment in the future of your network. With advanced technology, low interference and compliance with the latest standards, it is the ideal solution for professional networks with high requirements. Choose quality and reliability, choose **Extralink SFP 10G 1310NM**.

Easy installation

Plug & Play and Hot-Pluggable, without restart or drivers, which reduces network maintenance and expansion time.

Wide compatibility

Each SFP module is individually tested to ensure reliable operation with leading brands of network equipment.
