Full product description

StationBox InSpot housing for MikroTik

StationBox InSpot with two **Omni-Directional Dual-Band Antennas** is an indoor enclosure designed to mount wireless Hotspots. StationBox InSpot supports multiple **MikroTik RouterBoards** routers. The enclosure can be easily mounted on a hard wall or ceiling plate.

Creating an access point and mounting on the wall or ceiling is very easy. Inside the housing there is space for mounting Routerboards 711, 911, 751, and 951 series. The product is characterized by high quality workmanship.
