Full product description

Shielded TwistPort adapter for 9, 7 and 14 series routers MicroTik

Shielded adapter makes the 9, 7 and 14 series routers compatible with all TwistPort antennas. The TwistPort Shielded Adapters feature an integrated shield to reduce RF noise and improve weather resistance. TwistPort devices have an original, fast blocking waveguide port. Installing compatible routers in our TwistPort adapter is **very easy and requires no tools**.

Dedicated to MikroTik

TPA-RBP is a **affordable and effective** alternative compatible with **MikroTik routerboard 9XX, 7XX and 14XX**, as well as with **TPA** series devices.

Improved transmitter

The TwistPort adapter from RF Elements is equipped with **the latest generation of transmitters**. The transition to **TwistPort** is completed with two MMCX pigtails with a single layer screen, which **increases its resistance**.
