Price: **32.29 zł** gross / 26.25 zł net

Manufacturer: RF ELEMENTS

Referention number: DNXGFQNPDRMLP

Product features

Product type	Antenna adaptor
UL 94 flammability standard	HB
Package weight	200 g
Compatibility	TwistPort Antenna
Operating temperature (T-T)	-40 - 60 °C
Package depth	98 mm
Package height	54 mm
Package width	109 mm
Product colour	White
Survival wind speed	160 km/h
Watch case material	Acrylonitrile butadiene styrene (ABS)
Product weight	170 g

Full product description

Meet the Elements TPA-C5X RF adapter, which will significantly simplify and streamline the installation of your Mimosa C5X antenna.

Thanks to the innovative TwistPort connector, installation becomes simpler and network performance increases. This adapter is an excellent choice for anyone who wants to achieve maximum efficiency of their network equipment.

Quick and easy installation

High performance and reliability

RF Elements TPA-C5X guarantees **excellent performance with its dual** diagonal and H V **polarization**. With this adapter, your network device will operate with maximum efficiency, providing better range and connection stability. Made of high-quality aluminum, it is weatherproof for long-lasting and reliable operation.

Compatibility and durability

The TwistPort adapter is fully compatible with Mimosa C5X devices, making it ideal for users of this equipment. Made of durable materials, including UV-resistant plastic, it is also resistant to wind speeds of up to 160 km/h. So you can be sure that **your equipment will work reliably** in all conditions.
