Full product description

Aluminium TwistPort™ adapter for Rocket 5AC-Lite

The aluminum TwistPort adapter from RF Elements for **Rocket 5AC-Lite** is compatible with all TwistPort antennas. The TwistPort adapters are equipped with a quick waveguide port lock. Connecting and disconnecting Rocket 5AC-Lite to the TwistPort adapter is **very easy and requires no tools**.

What is a TwistPort adapter?

The **TwistPort** adapter adapts other manufacturers' radios to RF Elements TwistPort's patented waveguide connector. Integration of the radio is smooth and requires no tools. Compatibility of the TwistPort adapter with third party radios allows **to use the radio with any TwistPort antenna**.
