Full product description

TwistPort adapter for MikroTik routers

RF Elements TPA-RBP is a TwistPort adapter for MikroTik devices. It is compatible with **92x**, **91x**, **71x**, **411L** and **M11G** series routers. Inside there are two **MMCX** type connectors to connect the boards. The adapter is made of UV-resistant ABS plastic and the connector is made of aluminium alloy.

TPA-RBP is equipped with the latest generation of power supplies. The transition to the TwistPort™ waveguide connector is completed with two MMCX pigtails with a single layer shield.
