Full product description

Ultra-fast hair drying

The superior flow channel design of the **Roidmi A100 hair dryer** significantly reduces pressure loss, and the wind speed is **up to 60.2 m/s**, allowing the powerful airflow to reach the hair roots, speeding up hair drying without having to endure high temperatures.

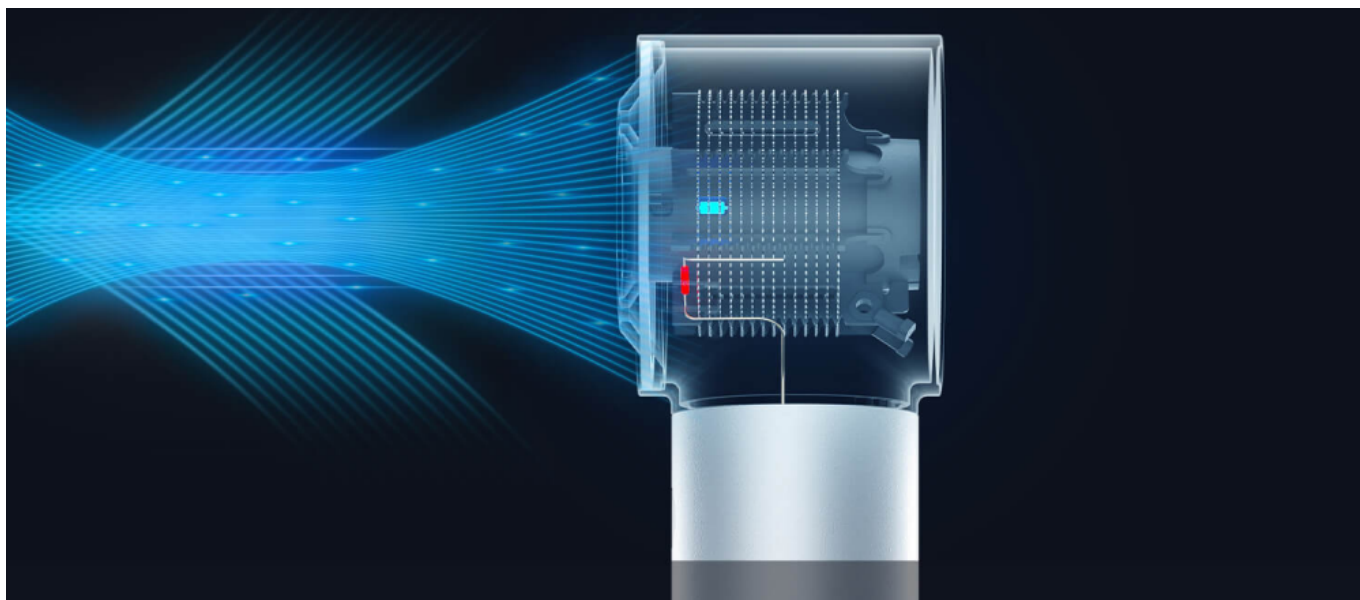

High-speed motor for powerful airflow

The main power comes from an incredibly fast **110,000 RPM** digital motor that continuously drives a steady stream of air to dry hair quickly.

Air Turbo Technology

Air Turbo technology increases airflow, allowing you to dry your hair quickly without using hot air.

Small but efficient engine

ROIDMI A100 is the most compact hair dryer compared to other hair dryers of the same capacity. To achieve this, **ROIDMI** used a small but powerful motor and shrunk the heating element so it can be enclosed in the dryer head, which measures just **49.7 x 38 x 60 mm**.

Lightweight and compact

Lightweight, ergonomic design, the net weight of the body is only **290g**, does not take up much space, you can take it with you on the go.

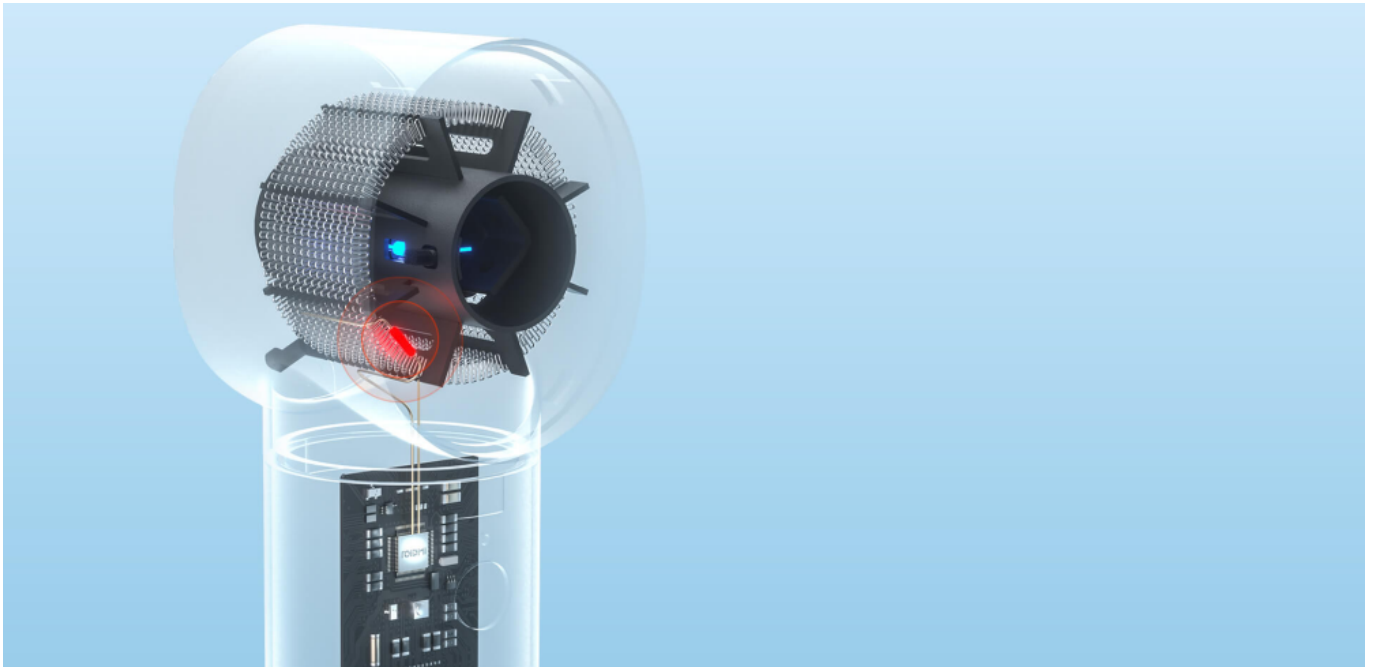

Negative ion care

Equipped with a built-in generator that releases more than **10 million units/cm³ of negatively charged ions** . Effectively gets rid of static electricity in the hair and prevents frizz. Makes **hair soft, shiny and smooth**.

Intelligent NTC heat control

The **NTC** 's intelligent constant temperature maintenance system uses a Japanese Shibaura chip. It measures ambient temperature changes in the air outlet at a frequency of **about 60 times per second** and automatically adjusts the air temperature in real time. It effectively prevents discomfort and damage caused by overheating, and provides hair and scalp with an extra layer of warm care.

Various temperature and wind speed settings

3 heat setting modes 2 wind speed setting modes, precise control of heat and air speed to meet different hair blowing needs and different any hair styling benefits.

Magnetic tips for all types and kinds of hair

The styling tip can be used to dry and style hair. **The quick drying tip** releases a more concentrated stream of air, making it ideal for very fast drying.

Wall mount for hair dryer

A supportive wall bracket, easily accessible, prevents the hair dryer from getting wet.

Leather storage bag

- Preferred material
- Protection with fleece lining
- Scratch resistance
