Price: **2,595.30 zł** gross / 2,110.00 zł net

Manufacturer: ROIDMI

Referention number: DNXGGLISDRMMIJ

Product features

Height	106 mm
Battery recharge time	4 h
Width	330 mm
Depth	330 mm
Base station weight	9800 g
Base station dimensions (W x D x H)	382 mm
Runtime	120 min
HEPA filtration system	No
Works with the Google Assistant	Yes
Battery capacity	5200 mAh
Power consumption (typical)	48 W
Automatic base station return	Yes
Base station power	850 W
Works with Amazon Alexa	Yes
Suction power	3200 Pa
Mop included	Yes
Dust container type (base)	Dust bag
Noise level	0 decibel
Self-emptying dust container	Yes
Battery life	180 m2
Product colour	White
Animal care	Yes

Dirt separating method	Aqua filtering
Dust container type	Dust bag
Product weight	4200 g

Full product description

Roidmi Eva - a cleaning robot that will do everything for you!

Do you dream of a home that is always clean and tidy, without having to spend your time and energy on cleaning? If so, we have the perfect solution for you - the **Roidmi Eva robot vacuum cleaner**! This is a modern and intelligent cleaning robot that **can vacuum, sweep, mop, wash and dry floors in one cycle**. What's more, it returns to the base by itself, where it automatically empties the dust tank and cleans the mopping pads. You don't have to worry about anything - Roidmi Eva will take care of everything for you!

Key features of the Roidmi Eva cleaning robot

1. Self-cleaning and emptying
2. Mopping and vacuuming 2 in 1
3. 12N pressure mopping
4. Super suction of 3200 Pa
5. Mobile app supports most languages

Vacuuming, sweeping, mopping

The Roidmi Eva has a suction power of **3200 Pa**, allowing it to effectively remove dust, debris and dirt from floors and hard-to-reach areas. In addition, the device is equipped with a 4-inch **mop that rotates at 180 rpm and has a pressure of 12 N**, effectively removing even tough stains. It can clean a variety of surfaces, such as wood floors, tile, carpets and laminate panels.

Effective washing of all kinds of stains

Roidmi Eva is not limited to mopping - it also mops and dries floors. The mops used by EVA have gray fibers that effectively deal with tough stains, while the white, soft fabric takes care of the floor. **These mops are antibacterial and mold-free**. What's more, the robot can independently return to the base to wash them. Also important is the clever **water tank that separates clean water from dirty water**, ensuring a perfectly clean floor after cleaning.

Automatic emptying and cleaning

Roidmi Eva does not need regular maintenance or frequent emptying. The Roidmi EVA robot not only wipes floors, but also effectively collects dirt such as dust, debris, hair and dander. With a 3-liter bag located in the station, **dirt can be collected for up to 60 days**, eliminating the need for frequent bag changes. With its antibacterial formula, the **bag eliminates 99.9% of bacteria** without leaving an unpleasant odor. Inside the robot is a 220 ml dirt tank.

Simple operation and control

Roidmi Eva is characterized by its simplicity in use and direction. The device has an intuitive **LED display that gives a quick and easy overview of the robot's activities**. Luminous signals let you know if the dust bag is full, the dirty water tank is overflowing or there is no clean water. You will also easily see the battery level on the display. You can control the robot using **an app on your phone** or voice commands via **Amazon Alexa or Google Assistant**. In addition, Roidmi Eva has an advanced **navigation system with a laser camera**, so it can create room plans and avoid obstacles.

Automatic OTA updates

Roidmi Eva is a cleaning robot that is constantly evolving and improving. With **automatic OTA (Over The Air) updates**, the device regularly receives new software versions that introduce improvements, fixes and new features. You don't have to worry about downloading and installing updates - Roidmi Eva will do it on its own when connected to the base. This way, you can be sure that your cleaning robot is always performing at the highest level and offering you the best capabilities.
