Full product description

Roomba 500/600/700/800 Series 14.4V 3000mAh vacuum cleaner battery

Take care of your Roomba vacuum cleaner's performance with a new 14.4V 3000mAh battery. By replacing the battery, your robot will gain longer run time and more suction power for more thorough cleaning. **The battery for iRobot Roomba** is a solution that will restore your vacuum cleaner to full performance, allowing you to clean quickly and efficiently.

New battery

New power for your vacuum cleaner

Longer robot
runtime

Full power
and
performance

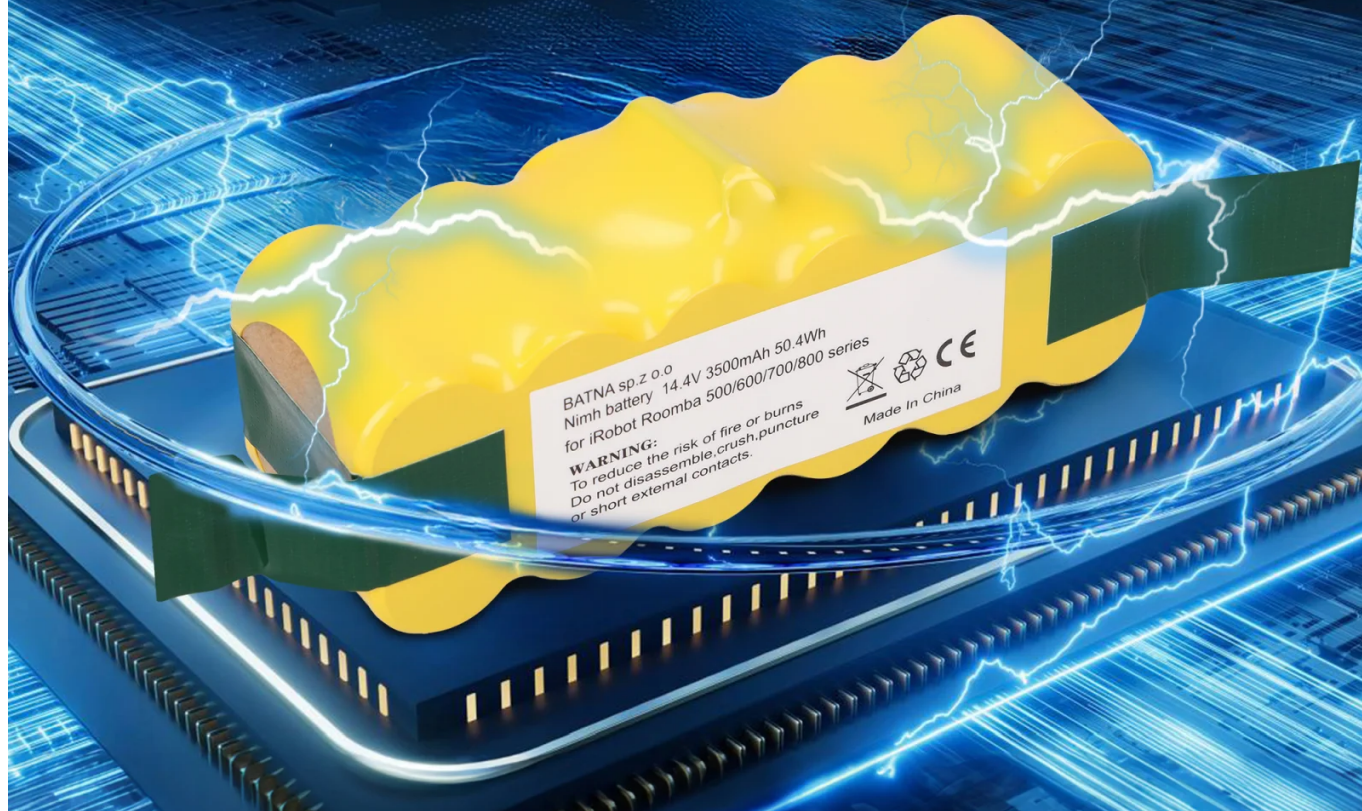

Overheating and
short-circuit
protection

Stable and safe
operation

Extend your
device's
lifespan

Longer operating time

The 14.4V 3000mAh battery gives the vacuum cleaner longer autonomy, allowing it to clean larger areas without the need for frequent recharging. The increased battery capacity makes the device run longer, offering **greater convenience** and time savings. **The Roomba vacuum cleaner** with the new battery works effectively for a long time.

type

High quality workmanship

The **14.4V 3000mAh** battery is made of materials that ensure long-lasting performance and **safe use**. Thanks to modern technology, **the iRobot Roomba battery** provides stable and efficient operation for a long time. The materials used guarantee that the battery will not wear out quickly.

Safety and reliability

A modern energy management system (BMS) protects the device against overheating, overload, and short circuits.

A few reasons to replace the battery

More vacuum power - The new battery restores full suction power, allowing you to remove dirt and dust from various surfaces more effectively.

Extended run time - Thanks to the new battery, the vacuum cleaner will run longer on a single charge, which is especially useful for large cleaning areas.

Stability of the device - A worn-out battery can cause the vacuum cleaner to overheat, while the new battery ensures the stability and safe operation of the equipment.

Easy replacement - Replacing the battery is quick and easy, so you can quickly restore full functionality to your vacuum cleaner without the need for complicated installation.
