Price: **410.48 zł** gross / 333.72 zł net

Manufacturer: RUIJIE / REYEE

Referention number: DNXXGLHKHRL00

Product features

Power source	mains electricity
Height	26 mm
Width	148 mm
Depth	78 mm
Mean time between failures (MTBF)	200000 h
Input current	1.1 A
Compliance certificates	CE
Power consumption (typical)	60 W
Humidity measurement range	10 - 90%
Switching capacity	10 Gb/s
Networking standards	IEEE 802.3af
Switch type	Managed
10G support	No
Loop protection	Yes
DC input voltage	54 V
Operating temperature (T-T)	0 - 40 °C
Total Power over Ethernet (PoE) budget	54 W
Cloud-managed	Yes
Flow control support	Yes
MAC address table	2000 entries
Power over Ethernet (PoE) ports quantity	4
Power over Ethernet (PoE)	Yes

DHCP features	DHCP client
Switch layer	L2+
Basic switching RJ-45 Ethernet ports type	Gigabit Ethernet (10/100/1000)
Basic switching RJ-45 Ethernet ports quantity	5
Product weight	900 g

Full product description

Built for today's businesses - Ruijie Reyee RG-ES205GC-P

Ruijie Reyee RG-ES205GC-P is a cloud business switch that has **5 gigabit ports, including 4 ports with PoE support**. It allows easy integration with IP cameras for CCTV systems, ensures high security standards and offers cloud-based continuous management. With the **Ruijie Cloud APP**, you can monitor its performance, set VLANs and save on maintenance costs. The switch guarantees the highest quality connection, providing speed, protection and cloud-based management.

Key features of Ruijie Reyee RG-ES205GC-P

1. 5-port gigabit managed switch with 4 PoE ports
2. Cost-effective cloud-based managed switches
3. IP camera recognition, a unique benefit for CCTV networks
4. Automatic loop prevention ensures service continuity
5. Lifetime anytime, anywhere management in the Ruijie cloud

High throughput and PoE power

This switch has **5 gigabit ports** for high-speed data transmission. Among them, **4 PoE ports can provide up to 54 watts of power** to connected devices such as IP cameras, Wi-Fi access points, VoIP phones or touch panels. This switch can support up to 4 IP cameras or other PoE devices simultaneously. The RG-ES205GC-P also has **10 Gbps of switching capacity and 7.44 Mpps of packet forwarding speed** for high network performance.

IP camera recognition and remote reboot

The switch has an **IP camera recognition** function that automatically detects and identifies connected IP cameras. You can easily check the status and parameters of IP cameras using the Ruijie mobile app or cloud platform. The switch also has a **remote restart** function that allows you to remotely power off and on the PoE port to troubleshoot IP cameras. You can also set a reboot schedule for the PoE port to ensure optimal operation of IP cameras.

PoE power over long distances

The Ruijie RG-ES205GC-P supports **PoE power** over long distances to extend transmission range **up to 250 meters using Cat5e or higher network cable**. This mode is useful for long distances between the switch and IP cameras or other devices.

Automatic loop prevention

The Ruijie Reyee RG-ES205GC-P has an automatic loop prevention function that prevents network loops and ensures service continuity.

Cloud-based management and easy configuration

The switch is managed in the cloud via **a mobile app or the Ruijie cloud platform**. The device is easy to configure, and supports **SON (Self-Organizing Network)**. You can also monitor and control the switch anywhere and anytime using a smartphone or computer.
