Price: **564.30 zł** gross / 458.78 zł net

Manufacturer: EXTRALINK

Referention number: DNXFMPORGRMNJK

Product features

SFP transceiver type	Fiber optic
CD-ROM interface type	SFP+
Storage temperature (T-T)	-40 - 85 °C
Maximum data transfer rate	10000 Mb/s
Package volume	0.11 cm ³
Humidity measurement range	0 - 85%
Operating temperature (T-T)	-5 - 70 °C
Package depth	440 mm
Package height	230 mm
Package width	355 mm
Package type	Box
User guide	No
Fiber optic connector	LC (UPC)
Multi-mode fiber (MMF) supported	No
Single-mode fiber (SMF) supported	Yes
Wavelength	1550 nm

Full product description

High-speed SFP 10G 1550NM SM 40KM LC DUP module

The Extralink SFP -ZR is designed for **8.5G/10G** and **10GBE** optical fibers. The single-mode **optical SFP module** consists of two sections, i.e. a transmitter section containing an EML laser and a receiver section consisting of an APD photodiode integrated with a TIA. All modules meet Class I laser safety requirements. The SFP -ZR's digital diagnostic functions are available via a 2-wire serial interface, allowing real-time access to device operating parameters such as transceiver temperature, laser beam current, transmitted optical power, received optical power and single-mode SFP insertion power supply voltage. The 10G SFP module can operate at data rates of ≤ 4 .25 Gbps or from **9.95 Gbps to 11.3 Gbps**.
