Full product description

Ruijie Reyee RG-RAP1200(F) high performance wall-mounted Wi-Fi access point 5

The **Ruijie Reyee RG-RAP1200(F)** is a wall-mounted **Wi-Fi 5** access point that provides a fast and stable wireless connection in various environments. This product supports **speeds of up to 1267 Mbps and 110 clients**, which means that multiple devices can be connected to it without losing signal quality. This product has **two 100Mbps FE network ports** that allow you to connect additional wired devices such as IP phones, computers or printers. The product also has a dual **2x2 MU-MIMO** radio module, which allows up to four devices to transmit data simultaneously, increasing network efficiency and throughput.

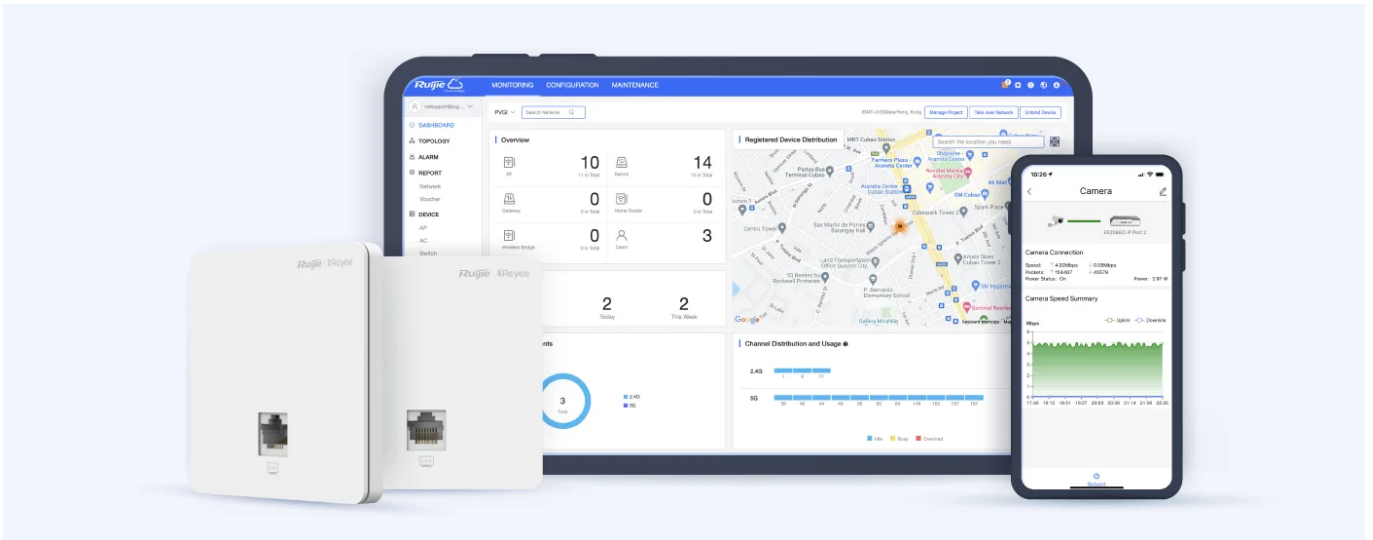

Key features of Ruijie Reyee RG-RAP1200(F)

Management via Ruijie Cloud and mobile app

The Ruijie Reyee RG-RAP1200(F) can be easily managed using the Ruijie **Cloud** platform **or the Ruijie Reyee mobile app**. The Ruijie cloud platform is one of the largest network management platforms in the world, providing customers with **free, secure and reliable services**. The platform allows you to remotely monitor and configure network devices, create reports and analysis, and **receive notifications** of alerts and updates.

The Ruijie Reyee mobile app is a powerful tool that allows you to quickly deploy a wireless network in as little as 1 minute by **scanning a QR code on your devices**. The app also allows you to easily add devices, set up Wi-Fi and **monitor network status from your smartphone or tablet**. The app is available for **Android and iOS** and can be downloaded for free from Google Play or the App Store.

Easy installation on a wall or standard outlet

The Ruijie Reyee RG-RAP1200(F) is easy to install and manage, requiring no specialized knowledge or tools. The product has compact **dimensions of 86 x 86 x 29 mm and light weight**, which means it can be easily mounted **on the wall in an 86mm junction box**.

SON (Self-organizing Network) technology

The Ruijie Reyee RG-RAP1200(F) also supports **SON (Self-organizing Network) technology**, which automatically optimizes network parameters such as channel, power and roaming. Wi-Fi networks can be easily built from the **Ruijie Reyee app**.

WIO (Wi-Fi Intelligent Optimization) technology

The Ruijie Reyee RG-RAP1200(F) also supports **WIO (Wi-Fi Intelligent Optimization) technology**, which automatically detects and eliminates interference from other Wi-Fi sources, ensuring **a stable and smooth connection**.

Simple and elegant design

The Ruijie **Reyee RG-RAP1200(F)** 's minimalist white housing with gently rounded edges blends in **perfectly with any interior**. There's a subtle Ruijie logo on the front and an **FE port** for connecting devices via cable, as well as an **LED** indicating the current operating status. And on the back? A practical **FE PoE network port** and mounting holes for complete convenience of use and simple wall mounting.
