Price: **1,549.26 zł** gross / 1,259.56 zł net

Manufacturer: RUIJIE / REYEE

Referention number: DNXGGLHNMRMLN

Information:

Ruijie Reyee RG-RAP2260(E) is a ceiling-mounted Wi-Fi 6 access point providing a fast and stable connection of up to 3202 Mbps and support for up to 512 users. Thanks to 4x4 MU-MIMO, two Gigabit Ethernet ports, seamless 802.11k/v/r roaming and Reyee Mesh technology, it performs well in demanding environments such as hotels, schools and offices. SON automatically optimises network settings, while WIO reduces interference, improving performance. The device can be easily mounted on a wall or ceiling, and management and configuration are simple thanks to Ruijie Cloud and the Ruijie Reyee app.

Product features

Height	35 mm
Antenna type	Internal
LED indicators	Yes
Width	220 mm
Depth	220 mm
Number of WLAN connections (max)	512
Input current	1.5 A
Maximum data transfer rate	3202 Mb/s
Power consumption (typical)	25.4 W
Networking standards	IEEE 802.3at
Ethernet LAN (RJ-45) ports	2
Operating temperature (T-T)	0 - 40 °C
VLAN support	Yes
Power over Ethernet (PoE)	Yes
MIMO type	Multi User MIMO

MIMO	Yes
Placement	Ceiling
AC input voltage	12 V
Product colour	White
Throughput data rate	3202 Mb/s
5 GHz	Yes
2.4 GHz	Yes
Product weight	1050 g

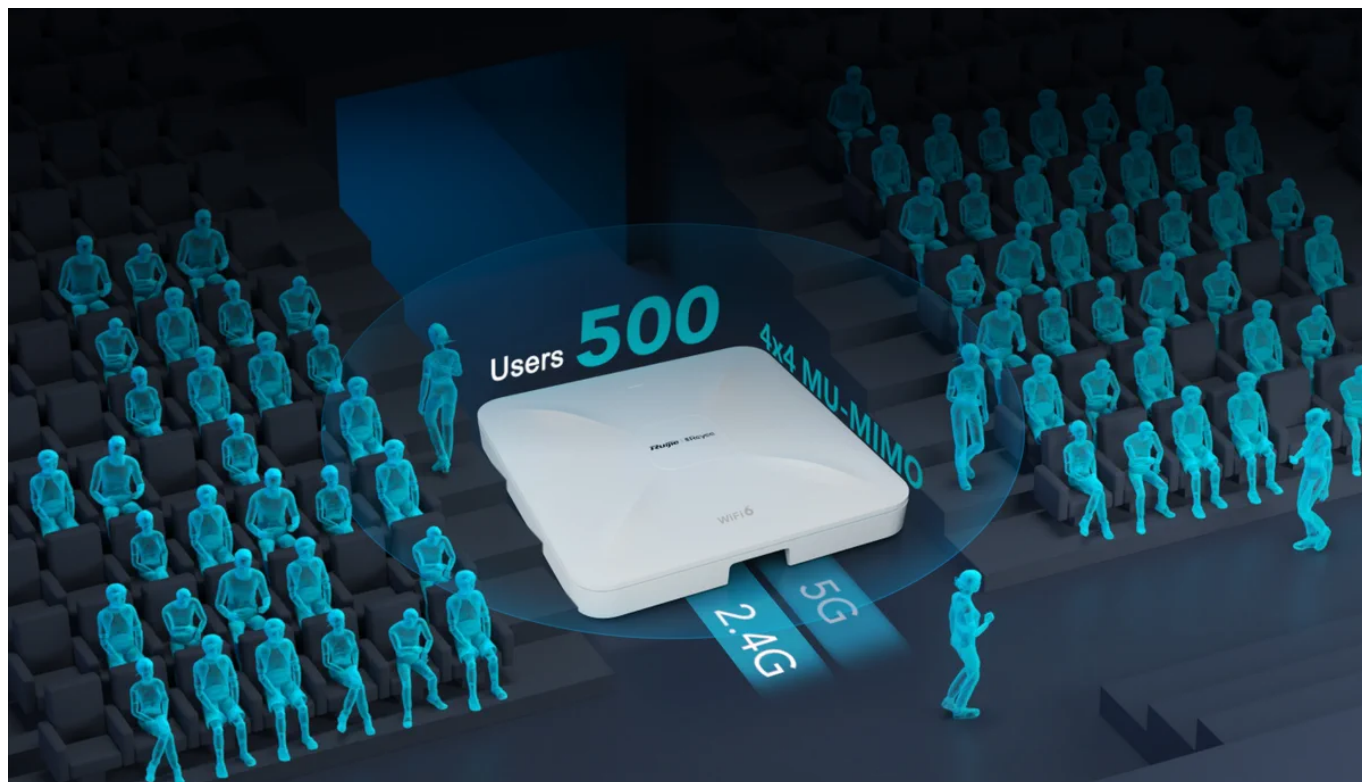

Full product description

Ruijie Reyee RG-RAP2260(E) - a new quality of Wi-Fi 6 wireless connection

The **Ruijie Reyee RG-RAP2260(E)** is an innovative Wi-Fi 6 ceiling access point that guarantees a high-quality network connection. It can transmit data at speeds of up to **3202 Mbps** and can support **up to 512 users**, ensuring connection stability without loss of signal quality. It also has **two Gigabit Ethernet ports**, **4x4 MU-MIMO** function and supports **Reyee Mesh** technology. Installation and management of this device is easy with **SON and WIO technologies**. It is ideal for use in high traffic areas such as hotels, schools and offices.

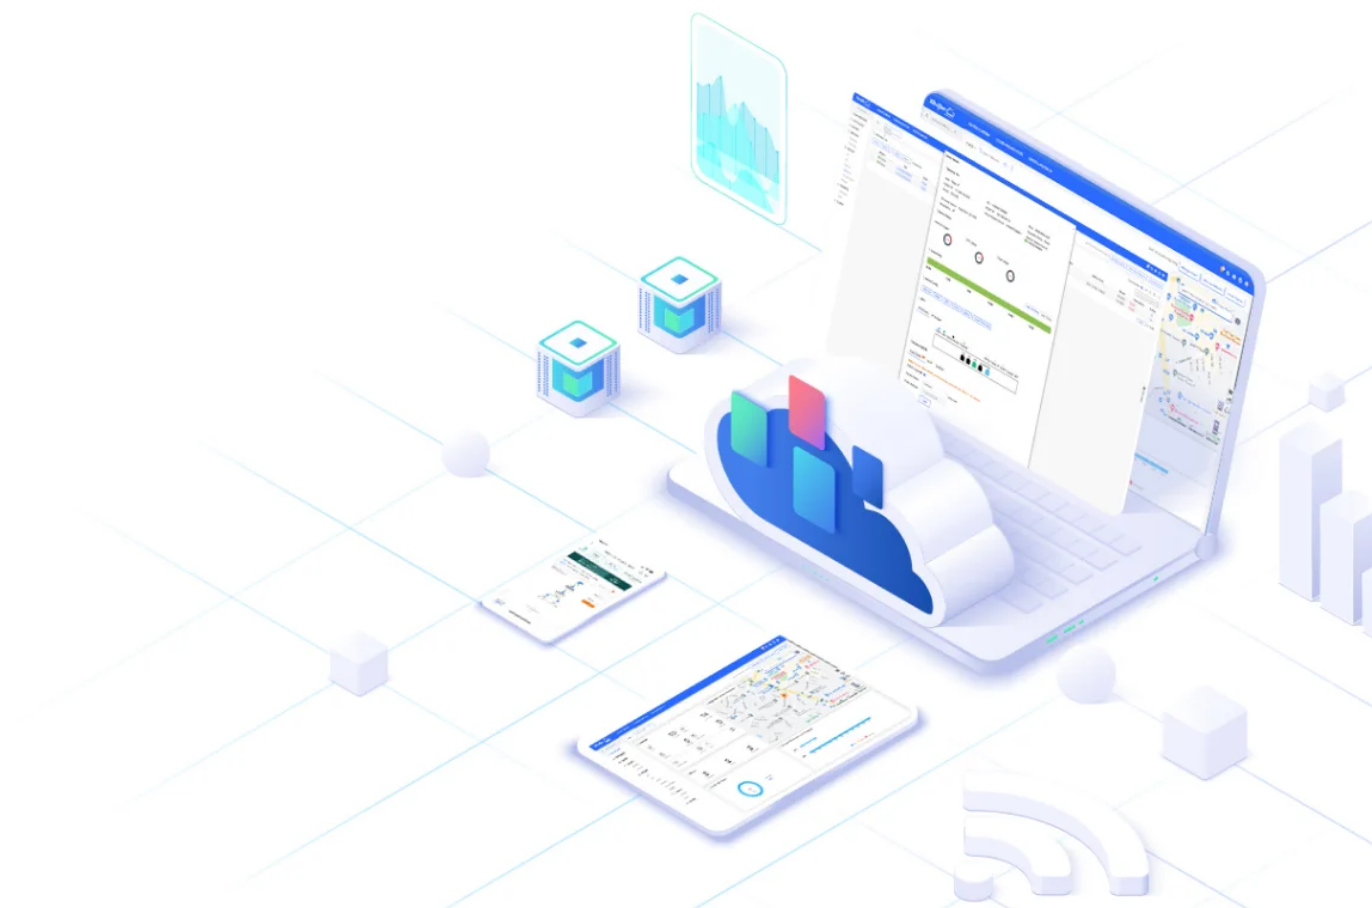

Key features Ruijie Reyee RG-RAP2260(E)

Management via Ruijie Cloud and Ruijie Reyee mobile app

Ruijie Reyee RG-RAP2260(E) offers modern management solutions. By working with the Ruijie **Cloud** system and the **Ruijie Reyee mobile app**, managing your network will become simpler and more intuitive. Ruijie Cloud is the leading **global network surveillance platform**, offering robust, reliable and free tools. Monitor, modify and analyze your network equipment **from anywhere in the world**, create detailed reports and stay up to date with notifications and updates.

With the **Ruijie Reyee app** on your phone, setting up a Wi-Fi network has never been easier. **In just 3 minutes you're ready to use the network.** The app makes adding devices, setting up Wi-Fi and monitoring your network a piece of cake, all available right on your smartphone or tablet. Whether you're using **Android or iOS**, download the free app from **Google Play or the App Store** and discover new ways to manage your network connection.

Easy installation on the wall or ceiling

The **Ruijie Reyee RG-RAP2260(E)** is an **easy-to-install product** for which you don't need special skills or tools. Its compactness is evidenced by its dimensions of 220 x 220 x 35 mm and a weight of just 1 kg, making it easy to place on the ceiling or wall.

SON (Self-organizing Network) technology

The Ruijie Reyee RG-RAP2260(E) uses advanced **SON technology**, which allows the network to automatically adjust key settings such as channel, power and roaming. **The Ruijie Reyee app** has made the Wi-Fi setup process more intuitive and easier than before.

WIO (Wi-Fi Intelligent Optimization) technology

The Ruijie Reyee RG-RAP2260(E) is equipped with advanced **WIO technology**, which intelligently recognizes and cancels out interference from other Wi-Fi devices. This allows users to enjoy a **stable and fast connection**.

Classic and elegant design

The **Ruijie Reyee RG-RAP2260(E)** features a modern and stylish design that blends into any space. The device has a white, rounded casing with a discreet Ruijie logo on the front. The top is adorned with an LED indicating the device's operation, while on the back you'll find **network ports (1x 10/100/1000M and 1x 10/100/1000M/2.5G)**, a reset button and mounting hardware.

Seamless Wi-Fi Roaming

The Ruijie Reyee RG-RAP2260(E) allows users to seamlessly switch between different Wi-Fi access points, ensuring connection continuity. Users can move freely in a Wi-Fi covered area without worrying about interruptions or inferior signal quality. This is made possible by the 802.11k/v/r protocol, which guarantees a fast and smooth connection to different access points. This is especially important in places where people move frequently, such as hotels, universities, office buildings and shopping malls.

Reyee Mesh - smart wireless network

Reyee mesh technology allows users to create an advanced wireless network by **connecting multiple Wi-Fi access points into a unified whole**. Users can enjoy a fast and reliable wireless connection throughout the network area. This works on the basis of the 802.11s protocol, which guarantees efficient communication between different access points. The Reyee mesh network can be easily configured and supervised using the **Ruijie Cloud app** or their management platform. This is especially beneficial in areas with difficult signal transmission, for example, due to long distances, physical obstacles or interference.
