Price: **886.85 zł** gross / 721.02 zł net

Manufacturer: RUIJIE / REYEE

Referention number: DNXXGGLHNLMMKO

Information:

Ruijie Reyee RG-RAP2260(G) is a ceiling-mounted Wi-Fi 6 access point delivering speeds of up to 1775 Mbps and support for up to 512 clients, making it ideal for hotels, offices, schools and other crowded places. Two Gigabit Ethernet ports, 2x2 MU-MIMO, seamless 802.11k/v/r roaming and Reyee Mesh guarantee a stable and efficient connection throughout the network coverage area. SON and WIO technologies automatically optimise the device's operation, reduce interference and make configuration easier. Management via Ruijie Cloud and the Reyee app allows you to bring the network online in minutes, monitor it remotely and expand it conveniently.

Product features

Storage relative humidity (H-H)	5 - 95%
Height	194 mm
Antenna type	Internal
LED indicators	Power
Modulation	1024-QAM
Width	194 mm
Depth	35 mm
Security algorithms	WPA
Input current	1.5 A
Storage temperature (T-T)	-40 - 70 °C
Maximum data transfer rate	1201 Mb/s
Power consumption (typical)	15.3 W
Humidity measurement range	5 - 95%
Whitelist	Yes
Networking standards	IEEE 802.11a

Ethernet LAN (RJ-45) ports	2
Antenna gain level (max)	3 gain
DC-in jack	Yes
Operating temperature (T-T)	0 - 40 °C
Cabling technology	10/100/1000Base-T(X)
VLAN support	Yes
Web-based management	Yes
Service Set Identifier (SSID) features	Hidden SSID
Power over Ethernet (PoE)	Yes
MIMO	Yes
Placement	Wall
Wireless isolation	Yes
Antennas quantity	2
Number of SSID supported	8
Antenna features	Integrated antenna
Wi-Fi roaming	Yes
Product colour	White
Blacklist	Yes
Supported protocols	Concurrent 802.11ax, 802.11ac wave2/wave1, 802.11a/b/g/n
Maximum data transfer rate (5 GHz)	1201 Mb/s
Maximum data transfer rate (2.4 GHz)	574
DHCP client	Yes
DHCP server	Yes
5 GHz	Yes
2.4 GHz	Yes
Product weight	560 g

Full product description

Ruijie Reyee RG-RAP2260(G) - a new quality of Wi-Fi 6 wireless connection

The **Ruijie Reyee RG-RAP2260(G)** is a state-of-the-art **Wi-Fi 6** ceiling access point that will give you unparalleled wireless performance. This product offers incredible speeds of **up to 1,775 Mbps and support for as many as 512 clients**, so you can provide a stable network connection for your devices without worrying about signal degradation. The access point also features **two Gigabit Ethernet network ports**, a **2x2 MU-MIMO** radio module and supports **Reyee Mesh** technology. The access point is easy to install and manage, and uses advanced **SON** (Self-organizing Network) and **WIO** (Wi-Fi Intelligent Optimization) technologies. This product is ideal for use in hotels, schools, offices and other busy areas.

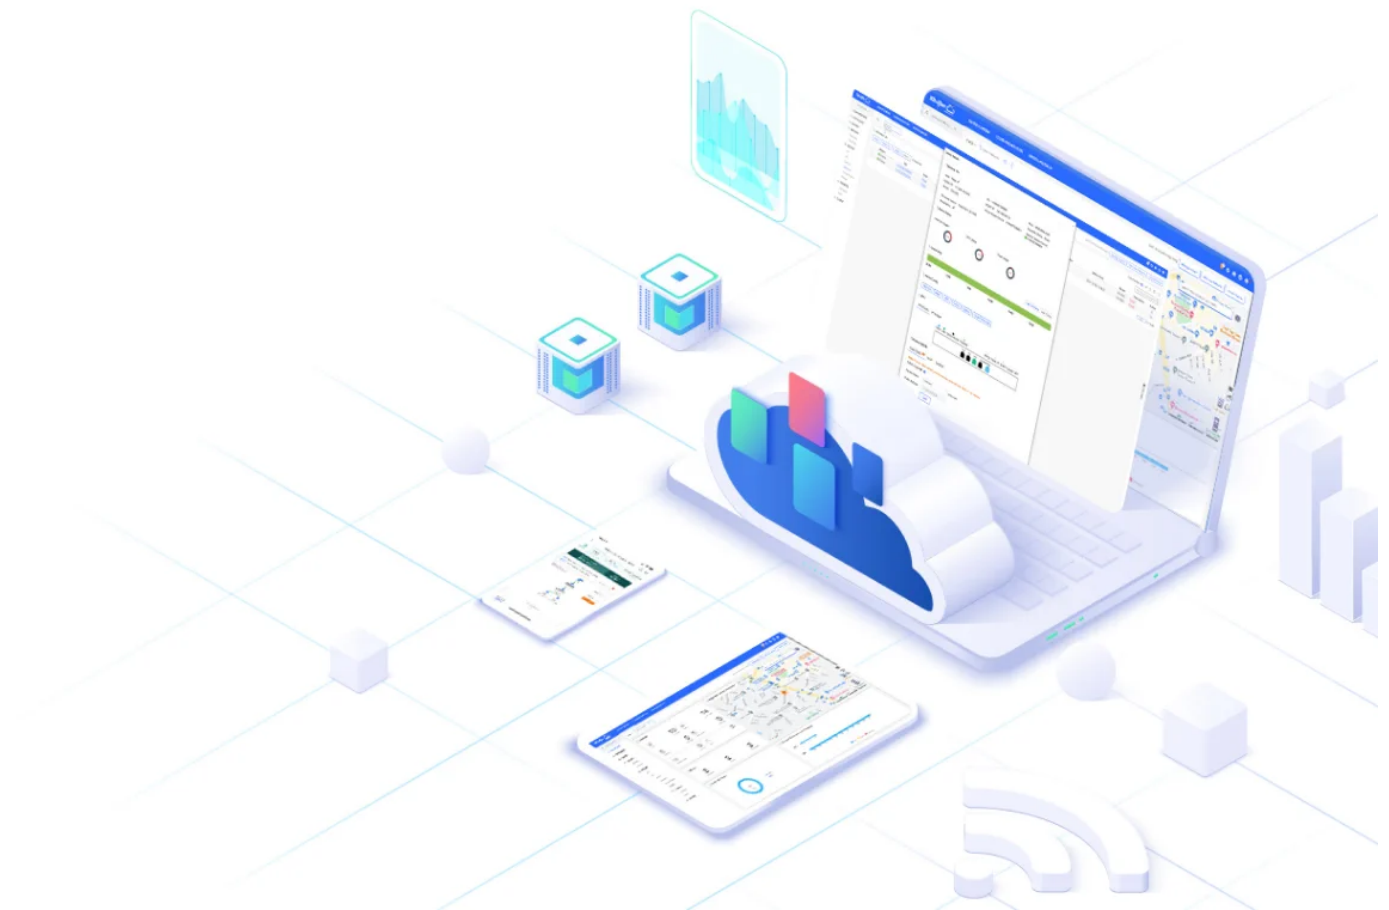

Key features Ruijie Reyee RG-RAP2260(G)

Full control and management via cloud and mobile app

Discover advanced network management with the Ruijie Reyee RG-RAP2260(G)! Working with the Ruijie **Cloud platform and the Ruijie Reyee mobile app**, you will transform the way you supervise your network, making it easier and more transparent. Ruijie Cloud, a leading global network management platform, provides **secure, reliable and cost-free solutions**. Oversee, customize and evaluate your network devices **from anywhere in the world**, produce accurate reports, and always be informed of alerts and new updates.

With the **Ruijie Reyee app** on your smartphone, setting up a wireless network is lightning fast. Within 3 minutes, your network is up and running. The app makes it easy to add devices, configure Wi-Fi and allows you to continuously monitor your network, all at your fingertips on your phone or tablet. Regardless of your system - **Android or iOS** - download the free app from **Google Play or the App Store** and experience a modern way to manage your network.

Easy installation on the wall or ceiling

The Ruijie Reyee RG-RAP2260(G) is an easy-to-install product that doesn't require you to have any specialized knowledge or tools. This product has compact dimensions of 194 x 194 x 35 mm and weighs only 560 g, which means you can easily mount it on the ceiling or wall.

SON (Self-organizing Network) technology

The Ruijie Reyee RG-RAP2260(G) uses innovative **SON (Self-organizing Network)** technology, allowing the network to self-adjust key parameters such as channel, power and roaming. With the Ruijie Reyee app, setting up a Wi-Fi network becomes easier than ever.

WIO (Wi-Fi Intelligent Optimization) technology

The Ruijie Reyee RG-RAP2260(G) features state-of-the-art **Wi-Fi Intelligent Optimization (WIO)** technology. This device intelligently detects and eliminates interference from other Wi-Fi sources, providing users with a stable and efficient connection.

Modern and elegant design

Ruijie Reyee RG-RAP2260(G) is a modern and elegant product that fits into any interior. This product has a white housing with rounded edges and a small Ruijie logo on the front. On the top of the product, there is an **LED** indicator that shows the operating status of the device. On the back of the product are **GE network ports**, a Reset button and mounting hooks.

Seamless Wi-Fi Roaming

The **Ruijie Reyee RG-RAP2260(G)** offers a **seamless roaming function** that allows automatic switching between Wi-Fi access points without the risk of connection interruption. This allows users to move freely within the Wi-Fi network's operating zone, without worrying about interference or signal quality degradation. All this works by using the 802.11k/v/r protocol, guaranteeing **fast and smooth hopping between access points**. Such a feature is invaluable in places with high mobility of people, such as hotels, educational institutions, office buildings or shopping malls.

Reyee Mesh - smart wireless network

Reyee mesh is a technology that allows the creation of a smart wireless network that **connects multiple Wi-Fi access points into one cohesive network**. This allows users to enjoy high performance and reliable wireless connectivity throughout the Wi-Fi coverage area. Reyee mesh is made possible by the 802.11s protocol, which provides dynamic and flexible communication between Wi-Fi access points. Reyee mesh **is also easy to configure and manage** using the Ruijie Cloud mobile app or the Ruijie Cloud management platform. Reyee mesh is especially useful in areas with difficult signal transmission conditions such as long distances, obstacles or interference.
