Price: **335.30 zł** gross / 272.60 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGMLLLRMMMM

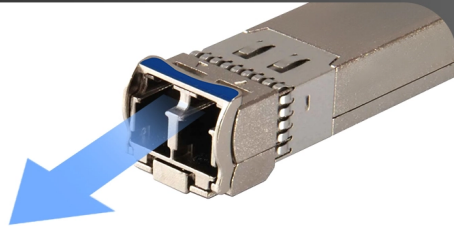

Product features

Maximum data transfer rate	25 Gb/s
Brand compatibility	Cisco
Maximum transfer distance	10 km

Full product description

State-of-the-art Optical Technology

Extralink SFP28 25G 1310nm SM 10km LC Duplex 2-Pack is an advanced optical module designed with **IEEE 802.3z** standard. With a data rate of **10 Gbps** and a range of up to 10 km, this single-mode optical module is ideal for modern **telecommunications and data center networks**.

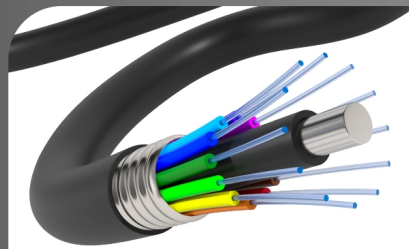

Port speed:
25GB

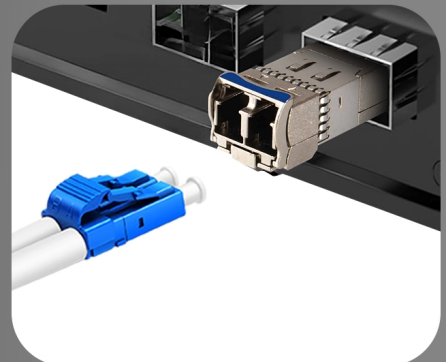

Transmission
distance:
10km

Wavelength:
1310NM

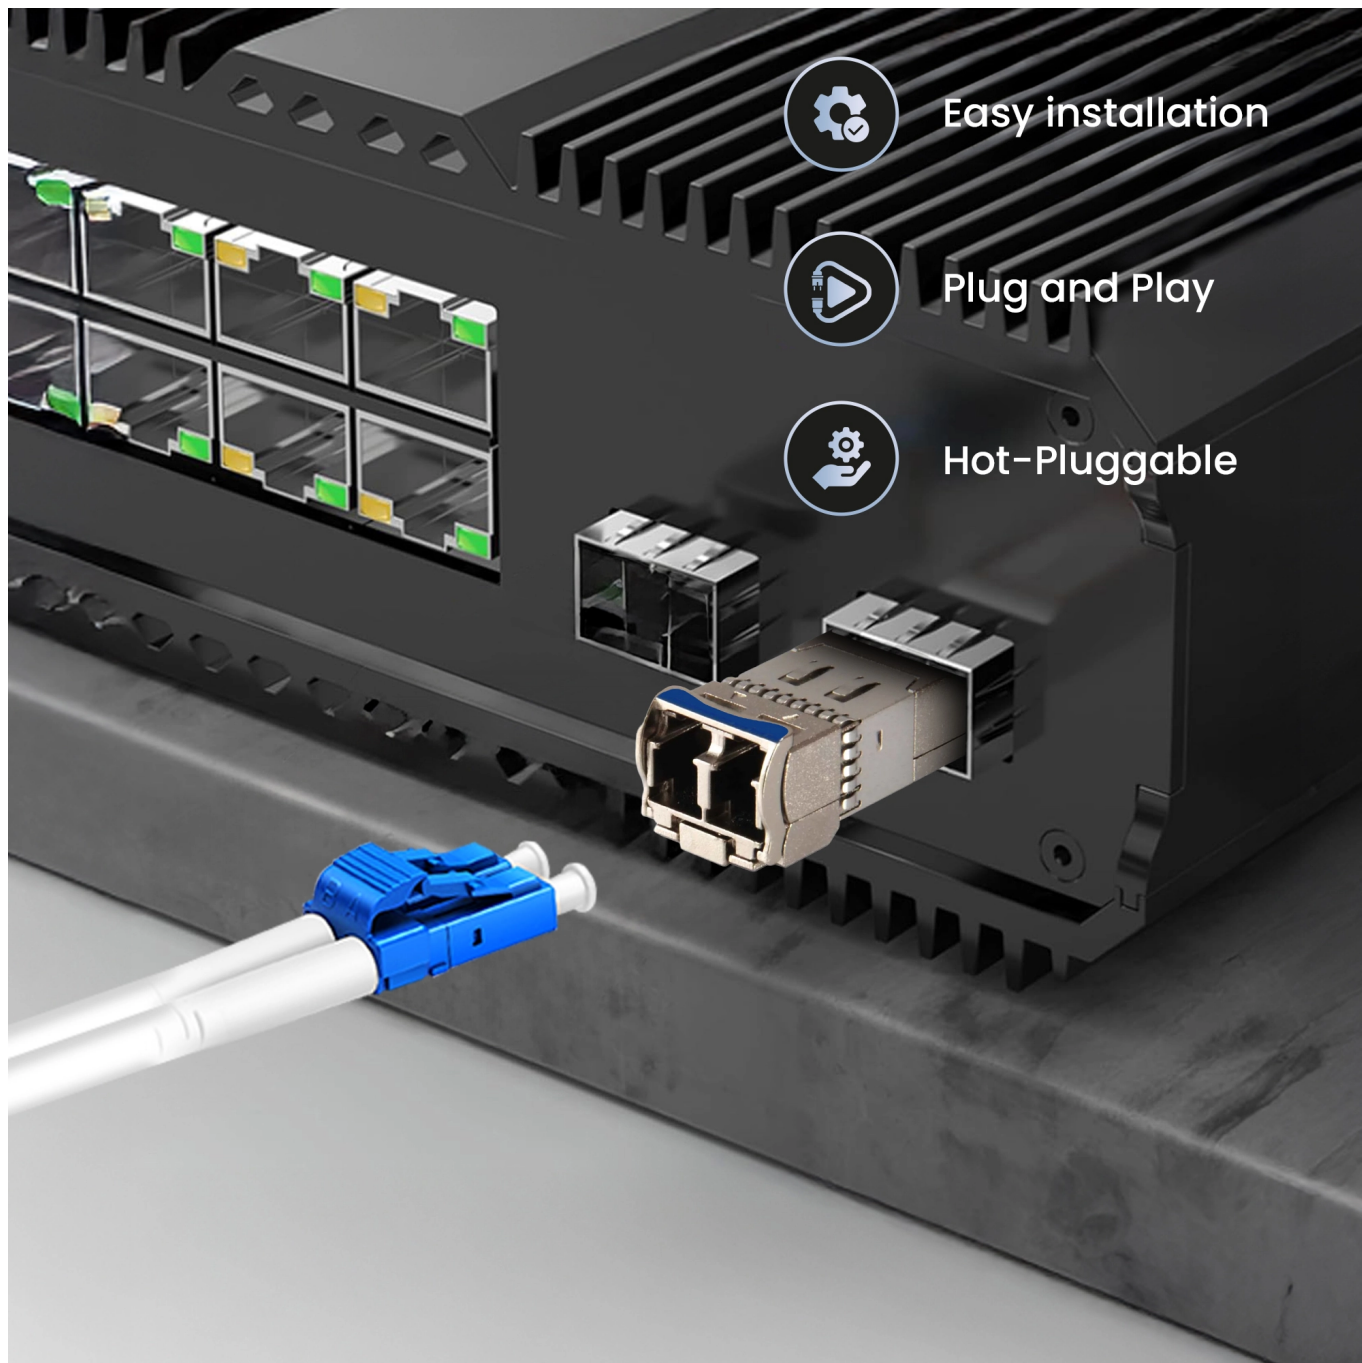

Fiber type:
SINGLE-MODE

Performance and Reliability

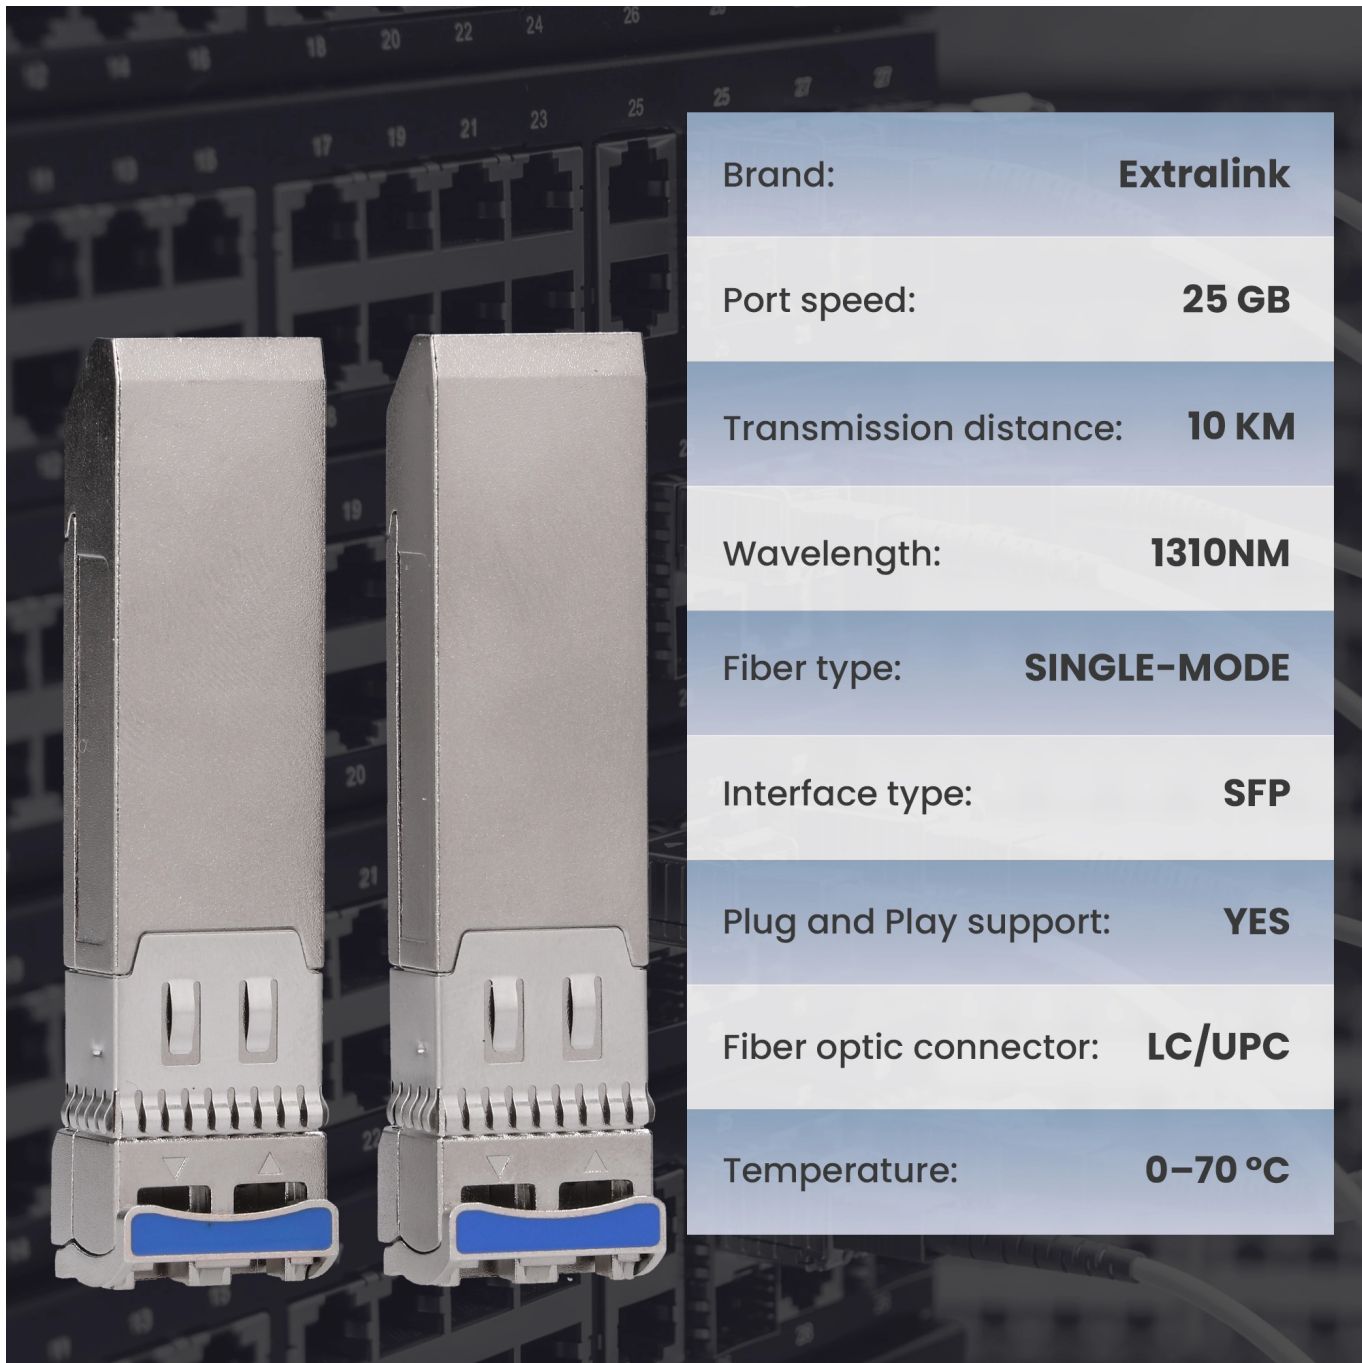

This module works with two multi-mode fibers, enabling **duplex transmission**. Thus, it provides reliable and efficient communication over long distances. **The Extralink SFP28 25G** features very low power consumption of less than **1 W**, significantly reducing operating costs and environmental impact.

Wide compatibility

MSA compliant, suitable for switches, routers, and fiber optic infrastructure without drivers

Brand: **Extralink**

Port speed: **25 GB**

Transmission distance: **10 KM**

Wavelength: **1310NM**

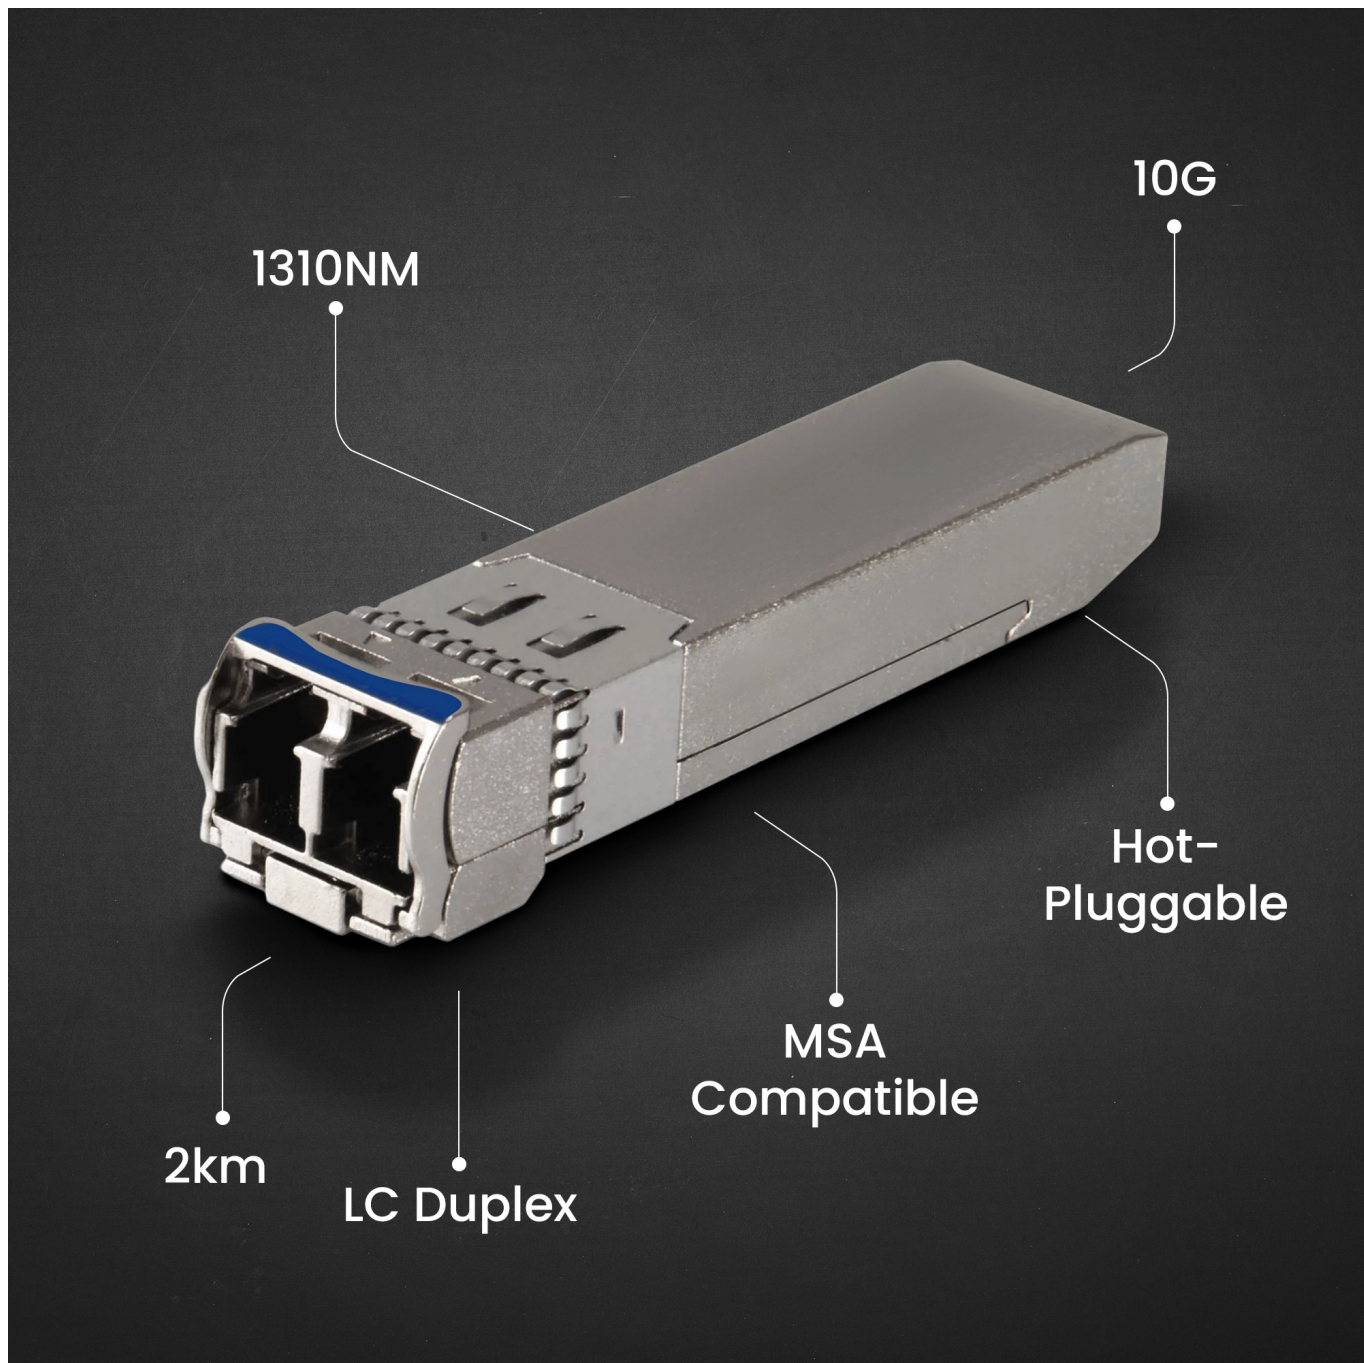

Fiber type: **SINGLE-MODE**

Interface type: **SFP**

Plug and Play support: **YES**

Fiber optic connector: **LC/UPC**

Temperature: **0-70 °C**

Easy installation

Plug & Play and Hot-Pluggable, without restart and drivers, which shortens the time for network maintenance and expansion.

Wide compatibility

Each SFP module is individually tested to ensure reliable operation with leading brands of network equipment.
