Operating time	24 h
Control panel colour	Black
Smartphone/tablet remote support	Yes
Timer duration	Yes
Child lock	Yes
Control type	Touch
AC input voltage	120 V
Product colour	White
Power	8 W
Built-in display	Yes
Product weight	4300 g

Full product description

Xiaomi SmartMi Evaporative Humidifier 2

Xiaomi SmartMi Evaporative Humidifier 2 is a mobile-controlled humidifier. It is distinguishable from the older model by a built-in display. Its efficiency reaches **240 ml/h**, and the **capacity of the water tank is 4 l**, so after a single filling the device can work on the highest intensity for **up to 16.5 hours**.

Moisture level adjustment

The air is humidified by rotating disks **that do not wear out**, which positively affects the running costs of the humidifier. The user can choose the level of humidification, and the Xiaomi SmartMi Evaporative Humidifier 2 will independently strive to maintain the indicated level.

Xiaomi Humidifier 2 silent mode

The humidifier works quietly as its maximum **volume is 45 dB**. It stands out for a very good price to quality ratio.

Key Features:

- 2 sensors: humidity and temperature
- Automatic water evaporation: no unpleasant odours
- 3 speed modes
- Water level indicator
- Timer: timer programmer
- Wi-Fi function: control via mobile device (Android, ios)
- Indicator adjustment: adjust brightness level
- Built-in display

Precision humidifier operation - Xiaomi Smartmi Evaporative Humidifier 2

The Xiaomi Smartmi Evaporative Humidifier 2 has **2 sensors** so that precise automatic operation can take place. The humidity will always be at the level you choose, and the intelligence of the humidifier is that it will never allow excessive humidity in the room. If the humidity level reaches 70%, the humidifier will switch off and prevent the formation of fungi or mould. The manufacturer gives us the ability to **control the humidifier with a mobile app**. You just need any device with Android or iOS installed to control the humidifier.
