Information:

The Extralink SJ-200 oil-free fryer is a practical appliance for the whole family, allowing you to prepare crispy and tasty dishes with minimal fat. Hot air technology ensures faster cooking, energy savings and the retention of nutritional value. The model offers frying, baking, grilling and reheating functions, and the touch LED screen makes it easy to set the time and temperature in the 80-200°C range. Overheat protection, a non-stick coating, non-slip feet and easy cleaning increase comfort and safety in everyday use.

Saving time and energy

Thanks to **rapid heating** and intelligent air circulation, your meals will be ready in just a few minutes, without the need to preheat the oven for long. This is not only a **saving of time, but also of electricity** - important benefits for every household. The Extralink SJ-200 is a practical oil-free air fryer that supports everyday family life.

2L OIL-FREE AIR FRYER TASTY MEALS WITHOUT EXCESS FAT

Precise control with timer
and adjustable temperature

Safety first

The Extralink SJ-200 is equipped with **overheat protection** and a non-stick coating, which minimises the risk during everyday use. **No oil splashes** and unpleasant odours make using the air fryer clean and safe for the whole family. This is a device you can also recommend to the youngest members of the household.

FASTER COOKING WITH OUR AIR FRYER

ADJUSTABLE TEMPERATURE
80°C–200°C

Higher temperatures can finish cooking
up to 20% faster than conventional fryers.
Enjoy your favorite food sooner.

Versatility and ease of use

This oil-free air fryer not only fries, but also **bakes, grills and reheats food**. The **LED touch screen** allows intuitive setting of time and temperature from 80 to 200°C, so you can prepare your favourite dishes according to your own preferences. The device is also stable thanks to non-slip feet and **easy to clean** – ideal for busy families.

EVEN COOKING:

Hot air circulates evenly around the food, helping it cook consistently and become crisp on every side.

BETTER FRYING RESULTS:

Air moves around the food for even frying, reducing the need to turn ingredients while cooking.

FASTER COOKING:

Efficient air circulation can shorten cooking time compared with traditional methods and help save energy.

HEALTHIER MEALS:

Even frying with little oil helps prepare healthier meals with a lower fat content.
