Information:

Extralink SJ-36 is a modern 2000 W electric grill that enables quick and convenient grilling all year round, regardless of the weather. With temperature control, double-sided heating and the ability to open to 180°, it ensures even cooking and a large grilling surface of 1334 cm². The non-stick surface, removable drip tray and heat-insulated housing make cleaning easier and increase safety. Ideal for meat, fish, vegetables and toast, it allows you to prepare juicy, tasty meals in the comfort of your home.

Full product description

A Breakthrough in Home Grilling: Discover the Extralink SJ-36 Electric Grill!

Discover a new era of grilling with **Extralink SJ-36!** This electric grill with **2000W power** not only revolutionises the way you prepare your favourite dishes, but also provides speed, convenience and versatility, whatever the weather. Its **non-stick surface**, ease of cleaning, and efficient **double-sided heating** guarantee excellent results, from juicy steaks to delicate fish and vegetables. Thanks to **adjustable temperature** and a generous grilling surface, the Extralink SJ-36 is the ideal choice for anyone who values healthy and tasty meals prepared in the comfort of home. Forget traditional charcoal grills and join the ranks of satisfied users of this modern appliance!

Grilling has never been so easy and modern

Ideal for a relaxing barbecue evening with friends or as a snack in between. Tasty and quick grilling results as well as easy operation.

Efficient and fast grilling

Extralink SJ-36 is an electric **2000W grill** that guarantees speed and efficiency when preparing food. Its **high power allows it to quickly reach the ideal temperature**, enabling faster meal preparation without compromising on quality.

Effortless cleaning

The non-stick coating ensures excellent cleaning results

Precise temperature control

Thanks to the advanced **thermostat**, Extralink SJ-36 offers **temperature adjustment**. This allows greater control during the cooking process, which is key to achieving perfect results when grilling a variety of dishes.

Temperature control

Temperature control lets you prepare perfectly grilled portions just the way you like them

8 min 200°C 10 min 220°C 8 min 210°C 7 min 230°C 8 min 230°C

Generous grilling surface

A unique feature of this grill is the **ability to cook with the lid opened to 180°**, which provides a large grilling surface of **1334 cm²**. This is the ideal solution for family gatherings or parties, allowing you to prepare more food at once.

Variety of dishes

Efficient double-sided grilling

Double-sided heating with 2000 W power ensures even heating of food, resulting in excellent grilling results. **Heat quickly penetrates the inside of the food**, preserving its original taste and aroma.

Easy cleaning and safety

Extralink SJ-36 is equipped with a **removable drip tray**, making it easy to get rid of excess fat and clean up after use. The **thermally insulated housing** ensures safe use, protecting table surfaces from damage.

180° opening range

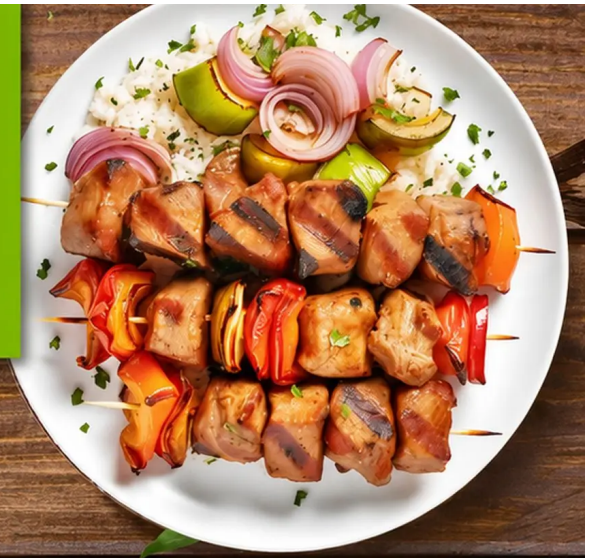

The grill can be fully opened and its entire surface can be used for preparing food

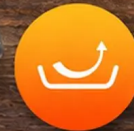

Durability and non-stick surface

The grill has a high-quality heating plate that is resistant to damage, and a **non-stick surface**, which makes cleaning and serving food much easier.
