Price: **338.25 zł** gross / 275.00 zł net

Manufacturer: TELTONIKA

Referention number: DNXXGFQQOERMMOH

Product features

Regulatory Approvals	CE/RED, UKCA, E-Mark, EAC, RoHS, REACH, SIRIM QAS, Anatel, SDPPI POSTEL
Storage relative humidity (H-H)	5 - 95%
Height	26 mm
LED indicators	Status
USB charging port	Yes
Memory card slot(s)	No
Width	52.6 mm
Depth	29.1 mm
Battery life (max)	4 h
Electronic compass	Yes
USB connector type	Micro-USB
Storage temperature (T-T)	-40 - 85 °C
Built-in memory capacity	0.128
Battery capacity	45 mAh
Battery voltage	3.7 V
Rechargeable battery	Yes
Humidity measurement range	5 - 95%
Protection features	Dust resistant
Plug and Play	Yes
Operating temperature (T-T)	-40 - 85 °C
International Protection (IP) code	IP41
Built-in memory	Yes

Bluetooth	Yes
SIM card slot	Yes
USB version	2.0
Battery technology	Lithium-Ion (Li-Ion)
Product colour	Black
Built-in display	No
SIM card capability	Single SIM
Designation	Car
Product weight	30 g

Full product description

Teltonika GPS Tracker FMB003

Teltonika FMB003 GPS locator is a compact plug and play device that is designed to connect to **OBD diagnostic connectors**. Its distinguishing feature is the ability to read OEM (PID) data through the vehicle's on-board diagnostics connector. The device enables reading of current odometer **parameters** and **fuel level information**.

Wide range of applications

Teltonika FMB003 GPS locator can be sought after in **various spheres** where transportation is used, including organization of commercial vehicle traffic in fleets, tracking of drivers' working hours, transport insurance with telematics application, car rental services, carsharing, etc.

Extensive functionality

The Tracker supports **connection to a variety of Bluetooth Low-power (BLE 4.0) devices**, including various sensors, beacons and headsets. Bluetooth firmware update and configuration capabilities extend the functionality of the GPS tracker.

Device Features:

- Plug and Track
- Bluetooth fully compliant with Bluetooth Specification V4.0 for peripheral devices
- Compact size and easy mounting, directly to the car OBDII connector
- Internal antennas: GSM and GNSS
- Real-time tracking
- Intelligent data collection based on time, distance, angle, ignition, speed and I/O events
- Deep Sleep Mode (less than 2 mA power consumption)
- Scheduled 24 coordinates, sending SMS messages when GPRS service is unavailable
