Price: **362.85 zł** gross / 295.00 zł net

Manufacturer: TELTONIKA

Referention number: DNXXGFQJPKRMMPK

Product features

LED indicators	Yes
USB charging port	No
Memory card slot(s)	No
Electronic compass	No
Plug and Play	Yes
Built-in memory	No
SIM card slot	Yes
Product colour	Black
Built-in display	No
Designation	Car
Product weight	53 g

Full product description

Teltonika FMC001 - GPS tracker with LTE connectivity

The **FMC00** is the next step in communication technology - it is the first **Plug and Track LTE OBD device with GNSS and Bluetooth** connectivity. The device allows to read OBD II parameters. Trouble-free installation and data from the accelerometer make it an attractive solution. It is an excellent tracker for a wide range of applications - fleet management of light commercial vehicles, car rental and leasing, vehicle logging, insurance telematics (UBI) and many others. The device supports Bluetooth sensors. Software and configuration updates are done via Bluetooth.

Example uses

- Management of a light vehicle fleet
- Heavy transport

- Insurance Telematics (UBI)
- Rental and leasing
- Courier services
