Information:

Extralink HomeEye is an intelligent 2.5K HD 4MP monitoring camera that delivers exceptionally sharp images at a resolution of 2592×1520 px, even in low light thanks to the bright F1.4 lens and up to 10 m night vision. It offers 355° horizontal and 90° vertical rotation, 360° viewing, motion detection and tracking, baby crying detection, and two-way voice communication. It provides full data encryption, recording to a microSD card or in the Tuya cloud, as well as convenient upright or inverted mounting. Ideal for home and business use, it works within the Extralink Smart Life ecosystem.

Product features

Smartphone/tablet remote support	Yes
Number of lenses	1
PTZ control	Yes
Card reader integrated	Yes
Built-in microphone	Yes
Total megapixels	4 MP
Auto-tracking	Yes
Maximum memory card size	128 GB

Compatible memory cards	MicroSD (TransFlash)
Wi-Fi standards	802.11b
Wi-Fi	Yes
Bluetooth	No
Ethernet LAN	No
Built-in HDD	No
Power source type	USB
Product colour	Black
Mounting hardware type	Desk
Watch case material	Acrylonitrile butadiene styrene (ABS)
Type	IP security camera
Designation	Indoor

Full product description

Excellent image quality thanks to 2.5K resolution

Discover the innovative **Extralink HomeEye** surveillance camera - your reliable gatekeeper. Equipped with an advanced **4MP and 2.5K HD** sensor, it captures more details than ever before. With a **resolution of 2592*1520 pixels**, you can now zoom in on objects and retain the finest details and full color. Regardless of lighting conditions, the camera's **large aperture** ensures optimal exposure to capture clear images. Best of all, the dual motor head allows the camera to **rotate 355° horizontally and 90° vertically**, giving you full control.

Extralink Smart Life HomeEye

Resolution 2592*1520px

360° vision for complete home protection

Large F1.4 aperture

Baby cry detection

Two-way conversation

Night vision range 10m

Motion detection and tracking

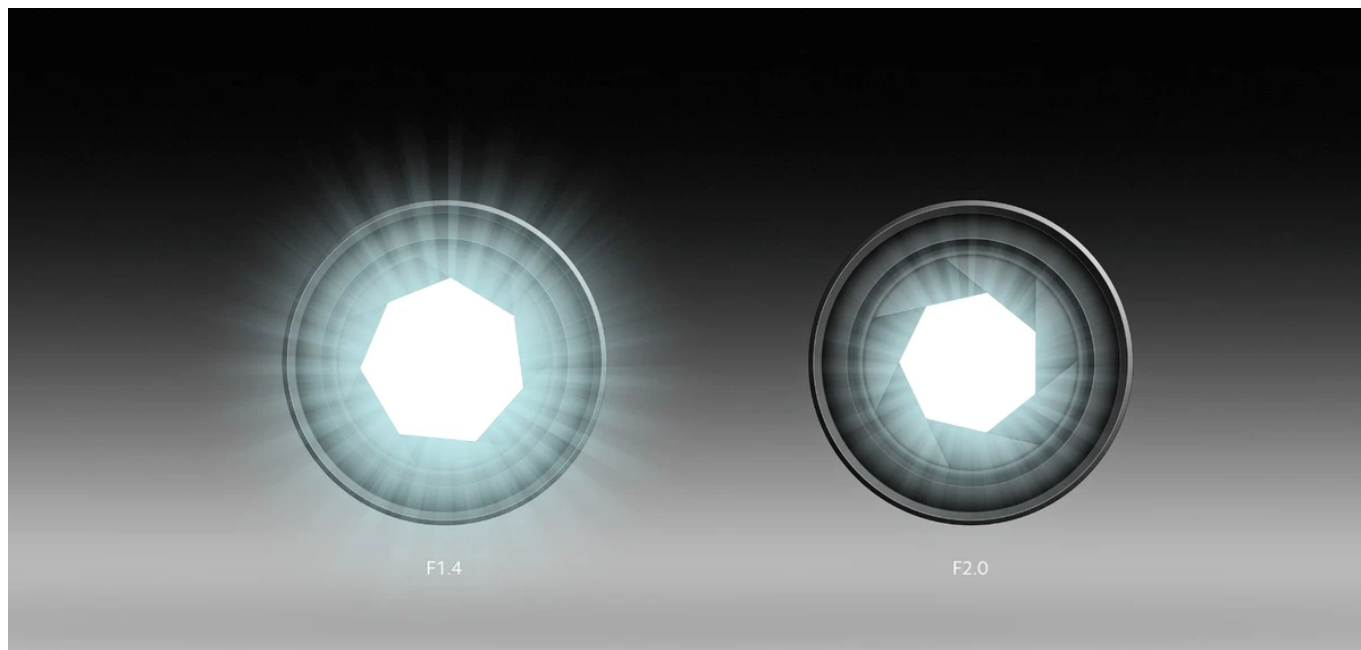

Automatic connection to Wi-Fi when power is restored

Key features of the Extralink Smart Life HomeEye camera

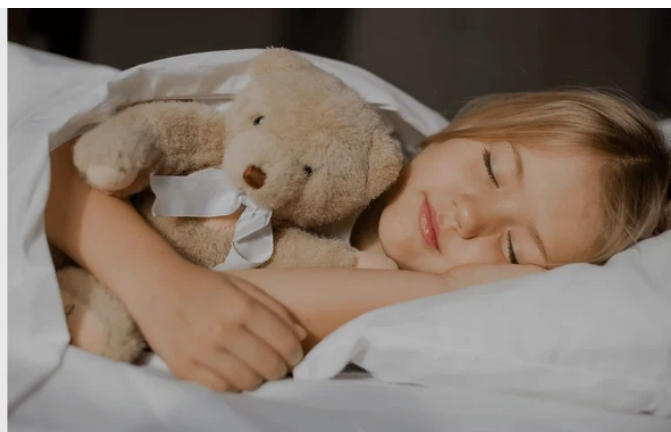

Large F1.4 aperture provides clear images even in low light conditions

Enjoy unparalleled image quality with the advanced lens of the Extralink HomeEye camera. With an impressive **F1.4 aperture**, the camera lets in plenty of light, allowing you to capture clear and detailed images even in darker conditions. Whether it's twilight or the evening hours, you can be sure that your recordings will be full of brightness and sharpness. Don't miss a single detail - with Extralink HomeEye you'll see more than ever before, even in the most challenging lighting conditions.

Clear images even in low light conditions

Now you can enjoy excellent video quality even after dark, without any distractions. Thanks to innovative **infrared LEDs**, your recordings will be full of clarity and sharpness, providing better visibility even in the darkest conditions. Whether you are monitoring your home or business , **Extralink HomeEye will provide you with reliable recordings** of unmatched quality, even in low light conditions.

Human detection by artificial intelligence effectively filters out false alarms

Learn about the intelligent tracking and motion detection features of the **Extralink HomeEye** camera, which will make monitoring even more effective and precise. Thanks to advanced motion detection algorithms, the camera is able to automatically identify and track any movement in its field of view. In addition, thanks to **mobile notifications from the Extralink Smart Life and Tuya apps**, you can receive instant alerts on your smartphone or tablet, notifying you when motion is detected. This not only gives you peace of mind, but also enables you to respond quickly to potential threats. With Extralink HomeEye, you will always be one step ahead of unwanted situations and gain full control over the security of your home or business.

Intelligent tracking and motion detection functions

With **mobile notifications from the Extralink Smart Life and Tuya apps**, you can receive instant alerts on your smartphone or tablet to inform you when movement is detected.

Panoramic 360° view with pan, tilt and zoom for comprehensive monitoring without blind spots

Discover the unparalleled versatility of the Extralink HomeEye camera, which is equipped with an advanced **two-axis pan, tilt and zoom motor**. Thanks to this innovative solution, the camera can smoothly rotate **355° horizontally and 90° vertically**. This means that no matter where you want to observe, the Extralink HomeEye provides a wide viewing angle so that no detail escapes your attention. Now you can focus on what's important to you, knowing that the surveillance camera offers full control over what's happening within its range.

360° panoramic view with pan, tilt and zoom functions.

355° horizontal and 90° vertical rotation.

Real-time two-way voice calls

Discover the revolutionary **real-time two-way voice call** feature available on the Extralink HomeEye camera. Now you can have full-fledged conversations as if you were face-to-face, regardless of the distance between you and your loved ones. You can now establish direct communication with those near the camera. Whether you are at work, on vacation or on the road, you can maintain strong ties and be close to your loved ones. Enjoy complete comfort and security, knowing that Extralink HomeEye provides you with not only superior monitoring, but also the ability to interact and communicate directly in real time.

Real-time two-way voice calls

Supports standard and inverted mounting, with 180° image rotation capability

Discover unlimited flexibility in terms of placement and mounting with the Extralink HomeEye camera. Whether you want to mount it on a **wall, ceiling or other flat surface**, our camera gives you complete freedom to choose the best place to monitor. For easy installation, the kit includes **special accessories that allow you to mount the camera stably**. If you opt for inverted mounting, you can conveniently rotate the camera's screen in the settings to ensure that the image is displayed correctly. Extralink HomeEye is not only innovative technology, but also simple and convenient installation that allows you to quickly and effectively use our camera anywhere and on any surface.

Flexible installation

Whether you want to mount the camera on a wall, ceiling or other flat surface, you can choose the best location for surveillance

Store recordings locally on a memory card or in the cloud

With Extralink HomeEye, you are guaranteed secure **storage of your videos in the cloud using the Tuya app (service available for an additional fee)**. All your recordings are protected with 128-bit Advanced Encryption Standard (AES) and all data transmission is encrypted, guaranteeing you complete confidentiality. In addition, thanks to a convenient **microSD memory card slot**, you have the option of storing your recordings locally to have full control over your data. Whether you prefer storage in the cloud or on a memory card, Extralink HomeEye provides a reliable and secure place for your recorded material.

Safe local storage of recordings

Micro SD card support (up to 128 GB)

With Extralink HomeEye, you can rest assured that your videos will be securely stored in the cloud via the Tuya app (service available at additional cost)
