Price: **247.67 zł** gross / 201.36 zł net

Manufacturer: TELTONIKA

Referention number: DNXGGMQKERRMIQ

Information:

Teltonika RUT140 is a compact, durable industrial router designed for stable operation in demanding conditions. It offers two Fast Ethernet ports and Wi-Fi connectivity in the IEEE 802.11b/g/n standard, ensuring reliable data transmission and compatibility with many devices. The aluminium housing with IP30 protection class guards against dust and increases durability, while DIN rail mounting makes installation in industrial spaces easier. Advanced security features, including OpenVPN support, an advanced firewall and the WPA3, EAP-TLS and AES-CCMP protocols, guarantee secure remote access and network protection.

Product features

Height	25 mm
LED indicators	LAN
Wall mountable	Yes
Width	113.1 mm
Depth	68.6 mm
Security algorithms	AES-CCMP
Humidity measurement range	10 - 90%
VPN support	OpenVPN:Multi-Client/Server,27ciphers:DES/RC2/BF/CAST5/AES(128/192/256-CBC/CFB/OFB/GCM) IPsec:IKEv1/v2,14ciphers(3DES/DES/AES128-256-GCM8/12/16) GRE:Tunnel(+overIPsec) PPTP/L2TP:Simult,L2TPv3(+overIPsec) Stunnel DMVPN SSTP ZeroTier/WG/Tinc
Networking standards	IEEE 802.11b
Ethernet LAN (RJ-45) ports	2
Full duplex	Yes
Auto MDI/MDI-X	Yes
Flash memory	16 MB

Operating temperature (T-T)	-40 - 70 °C
Quality of Service (QoS) support	Yes
Mounting	DIN-rail
Reset button	Yes
Processor frequency	580 MHz
Web-based management	Yes
Internal memory	128 MB
Ethernet LAN	Yes
Processor architecture	MIPS 24Kc
SIM card slot	No
Processor manufacturer	MediaTek
Power source type	DC
Built-in processor	Yes
Product colour	Black
Internal memory type	DDR2
Access Control List (ACL)	Yes
Ethernet WAN	Yes
Antenna connector type	RP-SMA
DHCP client	Yes
DHCP server	Yes
3G/4G USB modem compatibility	No
DSL WAN	No
Watch case material	Aluminium
Product weight	142.3 g

Full product description

Teltonika RUT140 - a reliable and robust industrial router designed to meet the demands of modern industrial networks.

With two Ethernet ports and advanced wireless connectivity, this compact router provides **seamless data transmission and stable network performance**. Ideal for harsh environments, it features a durable IP30-rated aluminum housing, making it an ideal choice for a variety of industrial applications.

Reliable connectivity:

Teltonika's RUT140 router offers exceptional connectivity options with two [Fast Ethernet](#) ports for efficient data transmission and network reliability. The router supports various communication standards, including IEEE 802.11b/g/n, ensuring compatibility with a wide range of devices and systems. Dual-band Wi-Fi provides a stable and fast wireless connection, **ideal for both small and large industrial networks.**

Robust construction

Designed for use in harsh industrial environments, the RUT140 features **an IP30-rated aluminum housing**. This ensures that the router is protected from dust and other environmental factors. Its compact size and DIN-rail mounting capability make it easy to install in a variety of industrial locations, providing flexibility and space savings.

Advanced security features

The RUT140 router is equipped with advanced security features to protect your network from threats. It supports multiple VPN services, including **OpenVPN with 27 encryption methods**, providing secure remote access and data protection. The router also has an advanced firewall and supports various security protocols such as WPA3, EAP-TLS and AES-CCMP, providing robust security for your industrial network.
