Full product description

Smart scale from Extralink

The **Extralink Smartlife K-201** is a smart scale that enables accurate **body composition analysis** and is an indispensable tool in daily health monitoring. The device is not limited to weight measurement only, but offers **comprehensive insight into key body parameters** such as body fat levels, muscle mass, bone mass and hydration levels. This provides the user with reliable information to help make informed decisions related to diet and physical activity.

To nie tylko małe cyfry wagi

Z dużym ekranem VA do wyświetlania wszystkich danych o ciele

Various functions of body composition analysis

The K-201 is equipped with **a function to analyze additional indicators**, including BMI, visceral fat, protein mass, protein levels, metabolic age and BMR, or basal caloric requirement. Thanks to these parameters, it is possible to better assess the condition of the body, as well as adjust the daily lifestyle to meet individual health needs. This is especially useful for physically active people and those who plan to effectively control their weight.

8 elektrod pomiarowych do analizy BIA od dłoni do stóp

Wysokiej precyzji pomiar segmentowy dla ramion, tułowia i nóg

Uchwyt pomiarowy – tył

Uchwyt pomiarowy – przód

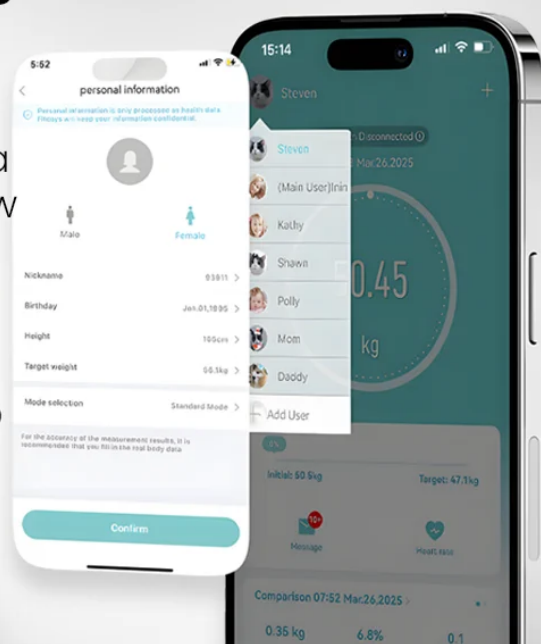

Fitdays - an app that synergizes with iOS and Android

The Extralink Smartlife K-201 scale works with the dedicated **Fitdays app**, which is available for **iOS and Android** mobile devices. The **Bluetooth** connection allows real-time synchronization of results and storage of measurement history. The app presents data in an easy-to-read form of **reports and graphs**, allowing you to monitor your progress and draw practical conclusions about your health

Jedno konto obsługuje 24 użytkowników

01 Aplikacja Fitdays pozwala utworzyć 24 użytkowników dla jednego konta

02 Obsługa – dane każdego użytkownika mogą być zarządzane oddzielnie

Multiple users, unlimited profiles

The device is designed with **multi-person use** in mind. Thanks to the multi-profile feature, the scale allows you to create an unlimited number of accounts, and each account can contain **up to 24 individual profiles**. Such a solution makes the K-201 model great for families, as well as for people who share equipment, for example, **in a gym or fitness club**.

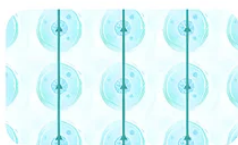

8 Elektrod wysokiej precyzji

Analiza impedancji bioelektrycznej (BIA) – bezpieczne mikroprądy przechodzą przez stopy w celu dokonania pomiaru.

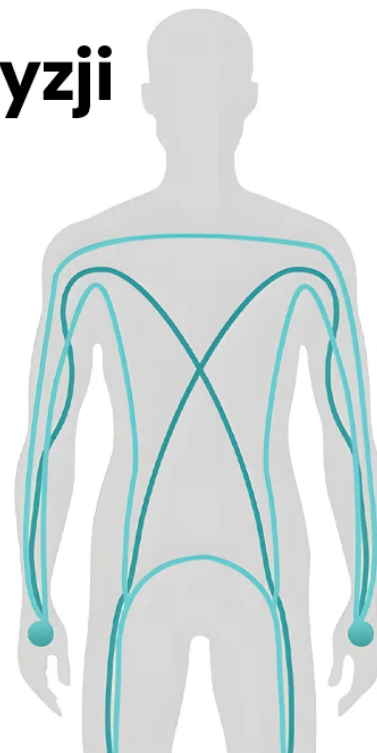

Pomiar wieloczęstotliwościowy

Niska częstotliwość
pomiar płynów
zwnętrzkomórkowych

Wysoka częstotliwość
pomiar płynów
wewnętrzkomórkowych

Made of tempered glass

The design of the scale combines modern design with solid workmanship. **The 6-millimeter tempered glass surface** is resistant to damage and gives the device an elegant appearance. Built-in electrodes guarantee **precise measurements**, and non-slip feet ensure stability during use. The **large, easy-to-read LED display** allows you to quickly read basic data, while the handy **magnetic handle** makes it easy to use the device comfortably and properly.

Measurement range

Technical specifications include a measurement range of **6 to 180 kg** and the ability to change measurement units (kg, lb, st). The scale is powered by a **built-in 500 mAh battery**, charged via a **USB-C** cable, eliminating the need for frequent battery changes. The device's dimensions are 31 × 35 × 5 cm, and its operating range includes temperatures from 10 to 40°C and humidity levels of 20 to 90%. The kit includes the Extralink Smartlife K-201 scale, an instruction manual and a charging cable.

Superdokładne czujniki w kształcie G

4 superdokładne czujniki w kształcie G

wysokiej precyzji czujniki zapewniają bardziej dokładny pomiar

4

antypoślizgowe podkładki silikonowe zapewniają bezpieczniejszy pomiar

Platforma z 6 mm szkła sprawia, że waga jest bezpieczna i stabilna

Personal health advisor

The Extralink Smartlife K-201 is a device that combines **aesthetics, functionality and precision**. It is an excellent choice for people who want to fully control the state of their body, track their progress over time and motivate themselves to achieve their next health goals. Combined with the **Fitdays app and modern measurement technology**, the scale becomes not only a practical device, but also a personal health advisor.
