Price: **286.85 zł** gross / 233.21 zł net

Manufacturer: TELTONIKA

Referention number: DNXXGGMQJLRMMOL

Information:

Teltonika RUT301 is a robust industrial router designed for reliable operation in demanding conditions. Equipped with 5 RJ45 100 Mb/s ports, a USB 2.0 port and a Mediatek processor, it provides stable and efficient network connections, ideal for IoT applications and a company LAN. The compact design and DIN rail mounting make installation easy, while advanced features such as IP filtering, port forwarding, DMZ and compatibility with Teltonika RMS enable convenient and secure remote network management.

Product features

Regulatory Approvals	CE, UKCA, RCM, FCC, IC, CB, EAC, UCRF, WEEE
Manageability features	RMS
Input voltage	9 V
LED indicators	LAN
USB charging port	Yes
RAM type	DDR2
Device type	Cellular network router
Humidity measurement range	10 - 90%
USB 2.0 ports quantity	1
Ethernet LAN interface type	Fast Ethernet
RAM capacity	0.128 GB
Networking standards	IEEE 802.11e
Ethernet LAN (RJ-45) ports	5
Full duplex	Yes
Operating temperature (T-T)	-40 - 75 °C
Reset button	Yes

IP routing	Yes
Processor frequency	0.58 GHz
Web-based management	Yes
External power adapter	Yes
Internal memory	0.016 GB
Suitable for indoor use	Yes
Wi-Fi	No
Ethernet LAN	Yes
Data network	Not supported
Processor manufacturer	MediaTek
Power source type	DC
Built-in processor	Yes
USB port type	USB Type-A
Market positioning	Industrial
Product colour	Black
Network address translation (NAT)	Yes
DMZ support	Yes
IP address filtering	Yes
Built-in display	No
DHCP client	Yes
DHCP server	Yes
Watch case material	Aluminium

Full product description

Teltonika RUT301 - a robust and powerful industrial router, designed for reliable operation in harsh environments.

With **five 100Mbps RJ45 ports and a USB 2.0 port**, the RUT301 offers versatility and flexibility in network management. Ideal for IoT applications, it provides stable connectivity and advanced network management features.

High performance and reliability

Teltonika RUT301 is an industrial router designed for stable and efficient operation. With five 100Mbps RJ45 ports and **a Mediatek processor**, the router provides fast and reliable network connections. It is an ideal solution for enterprises that need a reliable LAN.

Flexibility and ease of installation

The router is equipped with a USB 2.0 port, which allows easy connection of additional devices. Thanks to its DIN-rail mounting capability and compact design, installation of the router is quick and easy. Teltonika RUT301 is an ideal choice for companies in need of flexible and scalable network solutions.

Advanced management features

The RUT301 offers advanced network management features such as **IP address filtering, port forwarding and DMZ support**. The router is also compatible with [Teltonika's RMS](#) management system ⁴, which enables remote monitoring and management of the device. This makes network management more efficient and secure.
