Full product description

Teltonika RUT951 Industrial Router

The Teltonika **RUT951** leverages the best features of one of **Teltonika Networks'** most popular industrial routers , **the RUT950**. The Teltonika **RUT951** is a professional industrial **4G LTE** router with Wi-Fi connectivity for IoT applications. It operates over Wi-Fi in the **2.4 GHz** band and IEEE 802.11b/g/n standard. It has **4 Ethernet ports**. The LTE modem offers up to **100 Mbps** downlink and up to **50 Mbps** uplink throughput. The device is rugged, protected by an aluminum housing. The LTE router features high performance mobile communications over a wide temperature range and harsh operating conditions.

4G LTE wireless network, Wi-Fi and dual SIM

The device is equipped with **dual SIM 4G** cellular connectivity , **Wi-Fi** and **4 Ethernet interfaces** to meet the needs of the most diverse IoT solutions.

Multiple automation scenarios and high level of security

The RUT951 is powered by **RutOS**, which offers customization options for professional applications, automation features and the highest level of security for your solutions. Compatibility with **Teltonika Networks** ' Remote Management System (**RMS**) enables secure remote management, saving time and expense.

Backup connection

Automatic WAN switching to an available backup connection ensures network continuity and eliminates downtime.

The standard set includes

- 9 W power supply
- Router RUT951

- 2 x LTE antennas (SMA male)
- 2 x WiFi antennas (RP-SMA male)
- Ethernet cable (1.5 m)
- SIM adapter
- Quick reference guide
- RMS flyer
- Packaging

 A black, ruggedized router with a blue label that reads "RUT951". It has various ports and antennas on top.	 A black, rectangular power supply unit with a two-prong electrical plug and a cable attached.	 Two black, L-shaped antennas with SMA male connectors.
ROUTER RUT951	9 W PSU	2 X LTE ANTENNAS (SWIVEL, SMA MALE)
 Two black, L-shaped antennas with RP-SMA male connectors.	 A brown, rectangular SIM adapter kit with two slots for SIM cards and a small antenna.	 A white, Ethernet cable with RJ45 connectors on both ends.
2 X WIFI ANTENNAS (SWIVEL, RP-SMA MALE)	SIM ADAPTER KIT	ETHERNET CABLE (1.5 M)
