Price: **272.69 zł** gross / 221.70 zł net

Manufacturer: TELTONIKA

Referention number: DNXXGFPPSIRMNJM

Product features

Regulatory Approvals	CE/RED, EAC, E-Mark, Anatel, UKCA, Ukrainian UCRF, RoHS, REACH, E-Mark, IP67
Storage relative humidity (H-H)	5 - 95%
Height	27.3 mm
LED indicators	Status
USB charging port	Yes
Memory card slot(s)	No
Width	73 mm
Depth	72.5 mm
Battery life (max)	12 h
Electronic compass	No
USB connector type	Micro-USB
Storage temperature (T-T)	-20 - 75 °C
Built-in memory capacity	0.128
Battery capacity	1800 mAh
Battery voltage	3.7 V
Rechargeable battery	Yes
Humidity measurement range	5 - 95%
Protection features	Dust resistant
Operating temperature (T-T)	-20 - 75 °C
International Protection (IP) code	IP67
Built-in memory	Yes
Bluetooth	Yes

SIM card slot	Yes
USB version	2.0
Battery technology	Lithium-Ion (Li-Ion)
Product colour	Black
Built-in display	No
Watch case material	Plastic
SIM card capability	Single SIM
Designation	Motorcycle
Product weight	169 g

Full product description

Teltonika GPS Tracker TFT100

Small, professional and waterproof **Teltonika TFT100 tracker** for forklifts, electric mopeds and electric scooters with internal high-gain GNSS/GSM antenna, Bluetooth, integrated high-capacity lithium-ion battery and 9-96V supply voltage range.

Applications for Teltonika TFT100

In recent years, the digitization of industry has enabled companies to transform their forklifts, telehandlers and scissor lifts into "smart machines" - **IoT devices**. Connected to these machines, smart equipment can improve a company's productivity by reducing or even eliminating costs caused by accidents, downtime, and even theft. There is a lot of discussion these days about how to increase productivity and save time when operating forklifts. System alerts and reports, performance management and control, preventive maintenance and time monitoring are some of the key factors when it comes to optimizing forklift management. **Teltonika TFT100 GPS terminal** is the solution for these aspects. It is an intelligent equipment management device that retrieves the necessary data from the device (including CAN data) and increases the efficiency of fleet management.

Features of the Teltonika TFT100

- Support CAN, RS232, RS485, UART depending on version selected
- Convenient over-the-air (OTA) updates via intuitive apps
- 1-Wire interface for monitoring temperature data and RFID/iButton tags
- Wide power supply range for various integrations (10-97V)
- Bluetooth for external devices and sensors with low power consumption
- Protected against water and dust for outdoor installation (IP67)
