Price: **753.40 zł** gross / 612.52 zł net

Manufacturer: TELTONIKA

Referention number: DNXXGJQRIRMNGK

Product features

Height	25 mm
Width	74.5 mm
Depth	73 mm
Power consumption (max)	6 W
Power consumption (typical)	3 W
Flash memory	512 MB
DC input voltage	12 V
Processor frequency	1300 MHz
Internal memory	256 MB
Product weight	145 g

Full product description

Teltonika introduces the new TRB143 industrial gateway!

The gateway is specifically designed for telemetry and utility monitoring applications, with **M-Bus** support. **LTE Cat 4** cellular and wired connectivity enhances the smart metering process by providing data transmission of key meter readings. In addition, the **TRB143** can connect **up to 250 slaves** and use the M-Bus interface to power up to 6 devices.

TRB143

M-BUS CELLULAR GATEWAY FOR TELEMETRY APPLICATIONS

Key features of Teltonika TRB143

Necessary interfaces

This device has **one Gigabit Ethernet port** and a pair of digital I/Os, making it easy to apply to a myriad of environmental performance monitoring scenarios.

Ease and security of configuration

Remote monitoring and configuration are easy and secure with software security features such as a pre-configured firewall and Open VPN, as well as FOTA compatibility, SMS control and Teltonika Networks' own remote management system.
