Full product description

LTE Cat 1 industrial modem

Teltonika's TRM240 industrial LTE Cat 1 cellular modem with rugged aluminum housing is a compact and easy-to-use connectivity device that can provide cellular functions to equipment in all market segments.

TRM240

Key features of the Teltonika TRM240

- 4G/LTE (Cat 1), 3G, 2G connectivity
- Energy efficiency - low energy consumption
- Robust aluminum housing
- Compact housing, easy installation
- USB interface for connectivity
- Ease of configuration

Teltonika's TRM240 is backward-compatible with **3G and 2G**, so it is the optimal choice when it comes to expanding large-scale connectivity in industrial or public infrastructure. It offers length and stability of operation and low power consumption, important for IIoT projects.

Interfaces

The TRM240 is equipped with a USB interface for power and communication.
