Tenda[®]

Manufacturer: TENDA

Referention number: DNXGFQJQJRMMPJ

Information:

Tenda AC8 is a dual-band Wi-Fi 802.11ac/a/b/g/n wireless router with gigabit ports, providing a total speed of up to 1167 Mb/s and full use of fibre optic broadband. It offers 2.4 GHz (300 Mb/s) and 5 GHz (900 Mb/s) bands, 1 × GWAN and 3 × GLAN, as well as WPS, QoS, IPv6, IPTV, VLAN, parental controls and a guest network. Four external 6 dBi antennas with Beamforming and MU-MIMO technology increase range and connection stability. The router can be conveniently managed via the Tenda WiFi app for Android and iOS.

Product features

Regulatory Approvals	CE, FCC, CCC, SRRC
Storage relative humidity (H-H)	5 - 90%
Product type	Tabletop router
Height	33.6 mm
Output voltage	9 V
Firewall	Yes
Universal Plug and Play (UPnP)	Yes
Firewall security	Forbid WAN PING from internet
Width	200 mm
Depth	127 mm
4G	No
Security algorithms	WPA
Storage temperature (T-T)	-40 - 70 °C
Cables included	LAN (RJ-45)
Humidity measurement range	10 - 90%
Harmonized System (HS) code	85176990

Ethernet LAN interface type	Gigabit Ethernet
Networking standards	IEEE 802.11a
Ethernet LAN (RJ-45) ports	4
Antenna gain level (max)	6 gain
Operating temperature (T-T)	0 - 40 °C
Quick installation guide	Yes
AC adapter included	Yes
Cabling technology	10/100/1000Base-T(X)
Package type	Box
Indication light	Yes
Reset button	Yes
Firmware upgradeable	Yes
Dynamic DNS (DDNS)	Yes
Web-based management	Yes
WPS push button	Yes
Output current	1 A
Power over Ethernet (PoE)	Yes
Wi-Fi band	Dual-band (2.4 GHz / 5 GHz)
Wi-Fi standards	802.11a
Ethernet LAN	Yes
AC input frequency	50 Hz
AC input voltage	200 V
System event log	Yes
SIM card slot	No
Top Wi-Fi standard	Wi-Fi 5 (802.11ac)
Power source type	AC
Antenna design	External
3G	No
Antennas quantity	4
Product colour	Black
Access Control List (ACL)	Yes
DMZ support	Yes
WLAN data transfer rate (first band)	300 Mb/s
WLAN data transfer rate (second band)	867 Mb/s
Ethernet WAN	Yes
Port forwarding	Yes
Static route	Yes
WLAN data transfer rate (max)	867 Mb/s
DHCP client	Yes
DHCP server	Yes
3G/4G USB modem compatibility	No
DSL WAN	No

Full product description

Tenda AC8 dual-band wireless router

The **Tenda AC8 dual-band wireless router** has been equipped with gigabit **ports with a throughput of up to 1000 Mbps**. The device operates in two bands: **2.4GHz** (300 Mbps) and **5GHz** (900 Mbps), this dual-band application provides a total speed of up to 1167 Mbps, making full use of the Gigabit fiber. The router has been equipped with **WiFi 802.11ac / a / b / g / n**, 1x GWAN, 3x GLAN, WPS, QoS, WPA / WPA2-PSK

protection. In addition, the router supports control via SMART applications, and has features in the form of **IPTV, VLAN**, parental control, WIFI for guests and many others. Tenda AC8 combined with a wide range of security features is an ideal router for work and entertainment.

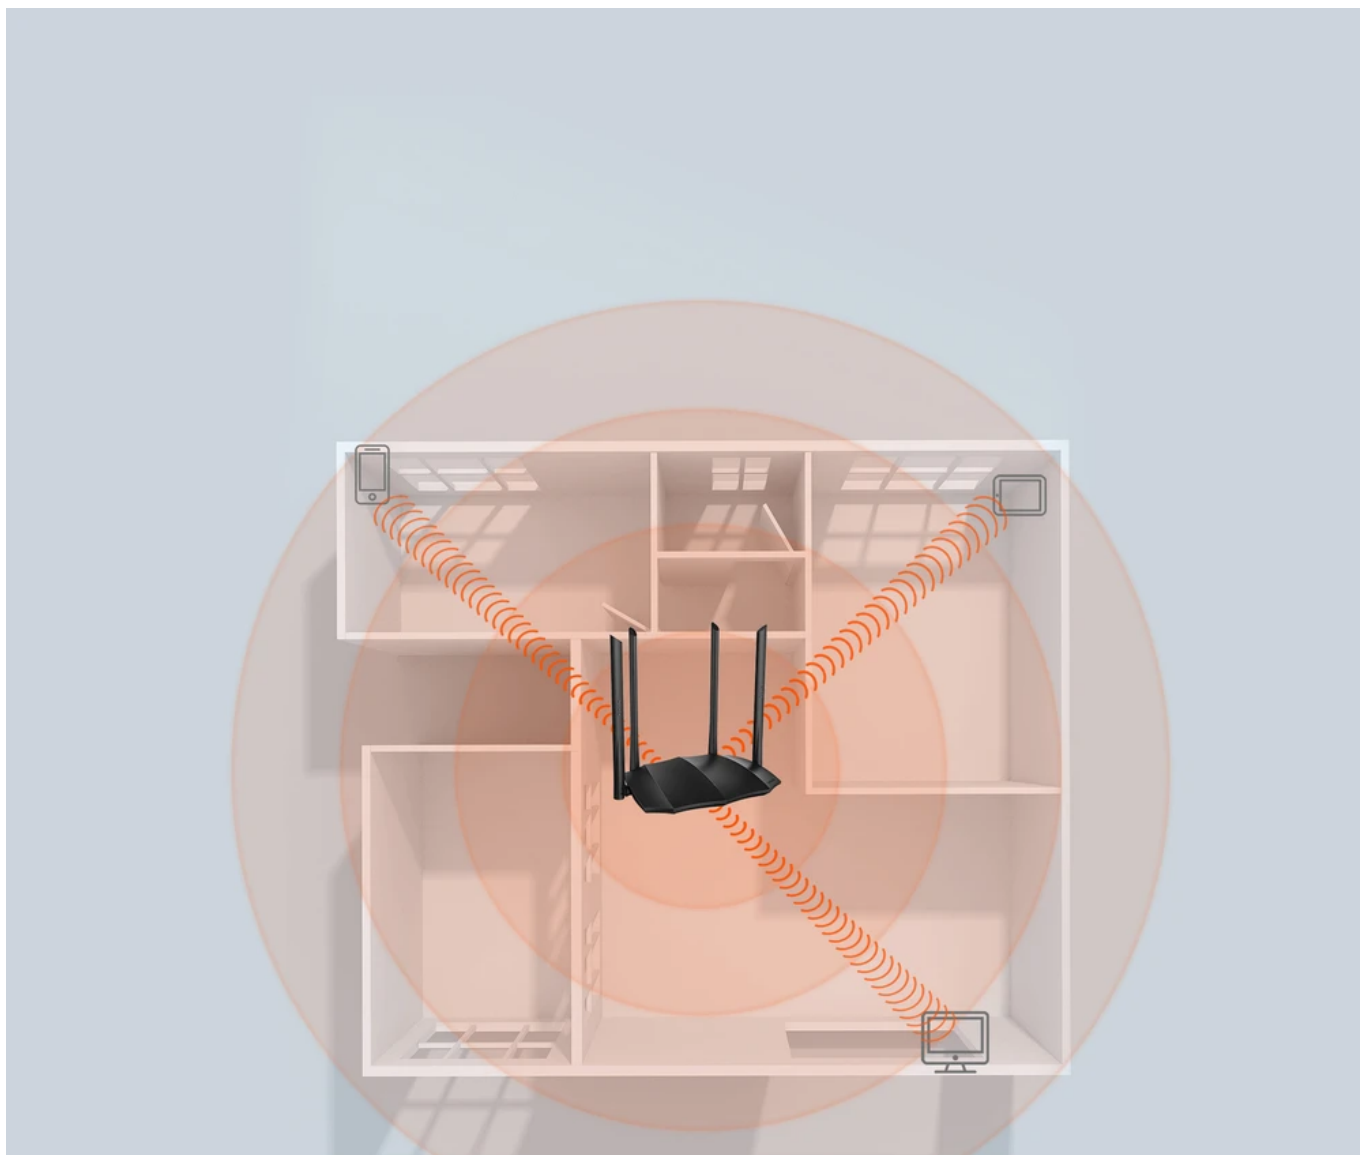

Maximum power and speed

With support for all available **802.11 ac / a / b / g / n WiFi** standards, the Tenda AC8 is a universal solution for your wireless network. The chipset is programmed so that all **4 external 6 dBi omnidirectional antennas** create the greatest possible range of wireless network, at the same time with the highest speed available with this standard. All this with intelligent chipset management.

Dual-band antennae

The Tenda AC8 is ideal for playing online games and streaming FULL HD movies by using both bands. Four external **6dBi dual-band antennas**, combined with **Beamforming** signal tracking technology, allow for large area coverage. The Wi-Fi signal is aggregated into a beam directly towards your device to provide the best experience.

IPv6 and QoS

The router is fully compatible with the latest version of **IPv6**, so you can use other services from your ISP. The device is fully ready to transmit data and browse the Internet with IPv6 in the future. It is also equipped **with advanced QoS**, which provides a stable connection for all users in the network.

SMART application "Tenda WiFi"

The device has a built-in application for "Tenda WiFi" smartphones, which allows you to control some of the router functions. Go to Wi-Fi settings, signal test, signal strength settings and access rules to your network. The app is free and available for Android and iOS.

More features

- Customer filter service
- MU-MIMO operation
- WiFi Schedule support
- Supports 2.4 GHz and 5 GHz
- Guest network service
