Full product description

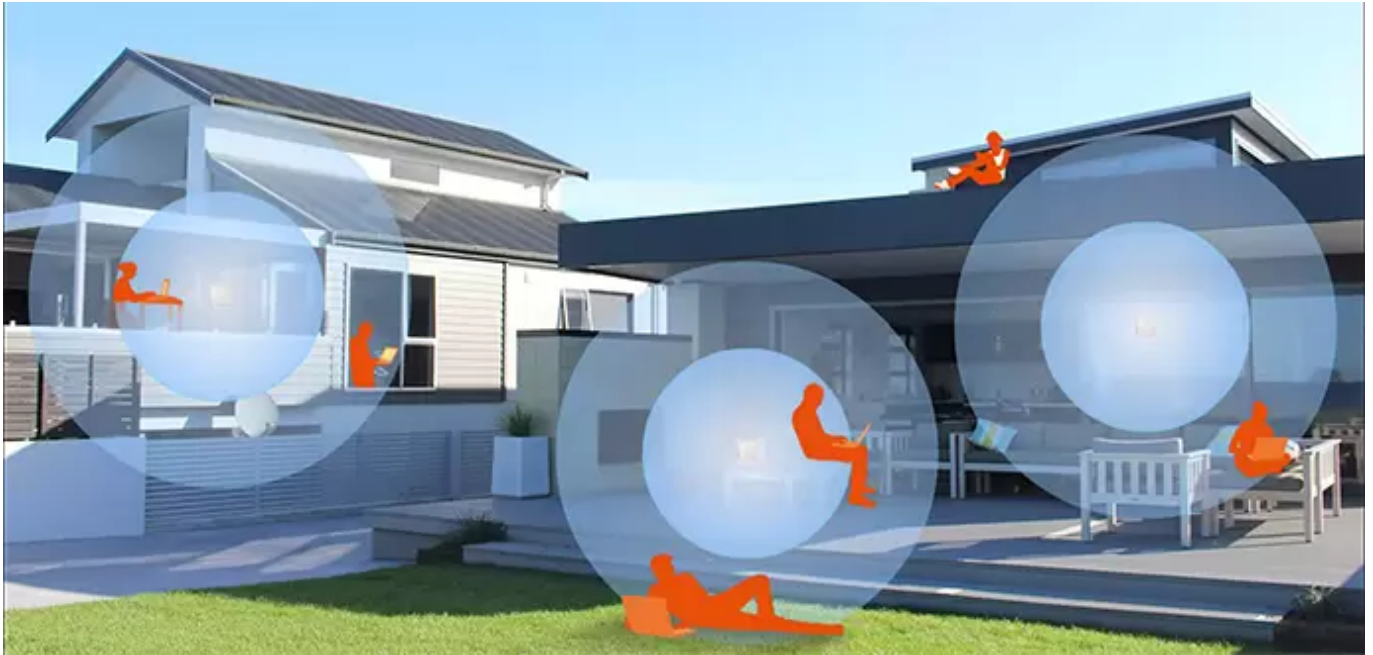

Tenda MW6 3-pack Router

The **Tenda MW6** is a dual-band **Wi-Fi Mesh** system designed to build a single Wi-Fi network over an area of **up to 500m²**, delivering data transfer rates of up to **1200Mbps**. Wherever you are, your devices will automatically switch between MW6 units, working at the **highest speed**.

Triple box set - stable and fast Wi-Fi network in rooms up to 500 m2

Regardless of the geometry of the room, this set of three blocks provides **a stable and fast Wi-Fi connection** over an area of up to **500 square meters**. Say goodbye to dead spots! With **Mesh** technology, you are connected and fast anywhere in your home.

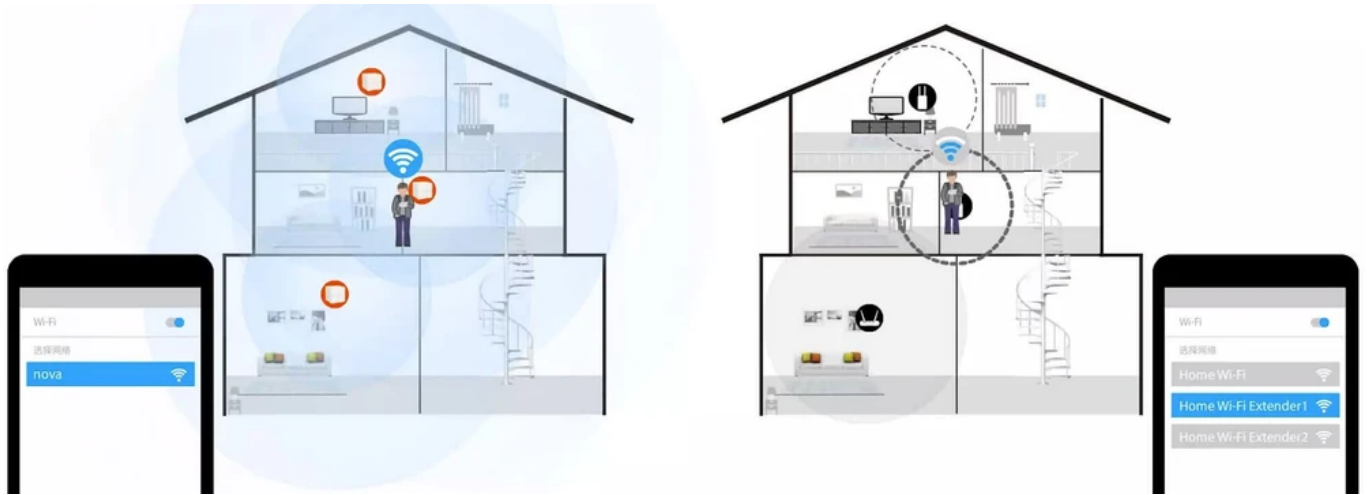

Advanced wireless transmission technology

With the latest **Wave2.0 MU-MIMO technology**, the **Tenda MW6** can simultaneously support multiple wireless devices, far surpassing traditional routers in performance. **Beamforming** enables the **MW6** to boost Wi-Fi performance by directing the transmitter signal to the receiving client device.

Smooth intranet roaming

The Tenda MW6 creates one network with **one name (SSID) and password**. This allows you to move seamlessly throughout your home while making video calls. **The Tenda MW6** provides excellent coverage and **a stable, strong Wi-Fi signal** throughout your home.

Easy to manage and operate out of the box

Using the **Tenda Wi-Fi app**, which you can easily install on your smartphone, you can block unauthorized users at any time, set parental controls, create a guest network, etc. No additional manual configuration is required! Factory settings allow the devices attached to the **Tenda MW6** to communicate with each other automatically. Just turn on the devices and the **Tenda ecosystem** will take care of the rest.
