Full product description

Tenda WiFi Router N301

Tenda N301 is a wireless N router with easy configuration. It is designed for home users and provides wireless connection speed up to **300 Mbps**. This makes the **N301** ideal for everyday work and entertainment on the Internet - such as using email, chat, watching movies, online gaming, etc. The **N301** can function as a router connected to an ISP or as a **Wi-Fi access point** providing Internet wherever you need it.

Secure Wi-Fi with a single press of the WPS button

The **Tenda N301** is **Wi-Fi Protected Setup™** (WPS) compliant, featuring a WPS function that allows users to set up security almost instantly by simply pressing the "WPS" button, which automatically establishes a secure connection. This is not only faster than normal security setup, but also more convenient as you don't have to remember the password.

Many possible uses

The **Tenda N301** can function as a router connected to your ISP or as a Wi-Fi access point, providing Internet at a location of your choice. To create a home Wi-Fi network, connect your ISP's modem to the **Tenda N301** router. The router transmits a Wi-Fi signal so you can easily connect wireless devices and smartphones to the Internet.
