Full product description

Small and smart switch

The Tenda S108 switch has been designed to serve best in small and medium networks. It offers simplicity through the **plug-and-play standard**, making it fast and easy to use. The device complies with IEEE802.3, IEEE802.3u, IEEE802.3X standard and **has 8 RJ45 10/100 Mbps ports with full duplex autonegotiation up to 200 Mbps**. The switch is made of plastic and is compatible with computers, printers, smart TVs, game consoles, IP cameras. Thanks to its **minimalist form**, Tenda S108 will find a place in every corner of your desk or house.

Plug-and-play mode

Thanks to the **Plug-and-Play** standard, installation and configuration of the Tenda S108 is very easy and intuitive even for the unexperienced. When you connect a device with an Ethernet cable, the network is immediately available. **Installation is quick and easy**, so you can enjoy the fastest Internet access possible.

Interesting appearance and minimalism

The device has passive cooling (no fan) which **ensures completely quiet operation**, making it ideal for offices, libraries or conference rooms. The device is powered from an external 5V source (included), and its compact dimensions allow it to be mounted anywhere.
