Full product description

8-port Tenda switch SG108

The Tenda SG108 is an 8-port switch designed for both home and smaller offices, a perfect solution for handling gigabit speeds on your network. It is ideal for connecting NAS servers, game consoles, multimedia TVs, media players and PCs. **The switch is equipped with eight 10/100/1000 Mbps ports**, each with autonegotiation function **supporting IEEE 802.3, 802.3u, 802.3ab standards**, so that the device can easily and efficiently create or expand a high-bandwidth wired LAN. Special power management technology reduces power consumption by up to 80%, which makes the minimum power consumption only 2.3W (maximum 5.5W).

Plug and Play, no configuration required

The Tenda SG105 is fully automated and does not require any configuration, the network can be accessed instantly by connecting an Ethernet cable. The **Tenda switch is very easy and intuitive** to configure without time-consuming operations whether you are a technology enthusiast or a novice user.

Stylish and exquisite design

The SG105 switch is designed for home use and is nice and compact so it doesn't take up a lot of desk space. The SG105 can be placed anywhere and will fit perfectly into any décor in your home, put on a desk or mounted on wall.
