Price: **849.00 zł** gross / 690.24 zł net

Manufacturer: EXTRALINK

Referention number: DNXGGOQKERRMMKI

Information:

Extralink Smart Life S14 is a portable 14-inch monitor mounted to a laptop that expands the workspace and makes it easier to work with documents, spreadsheets, messaging apps and multimedia. The Full HD 1920 × 1080 display with an IPS panel, 60 Hz refresh rate and 250 cd/m² brightness provides a clear image and wide viewing angles. Thanks to USB-C and Mini HDMI connectivity, it works with Windows and macOS computers, while the compact, lightweight design is ideal for the office, home and travel. The monitor fits 14-17.3-inch laptops, and the set includes a carry bag and the necessary cables.

Obsługiwane platformy i systemy operacyjne	Windows/macOS
Rozdzielczość ekranu	1920x1200

Full product description

More workspace with Extralink Smart Life S14

Extralink Smart Life S14 expands a laptop's workspace with an additional 14-inch screen. The Full HD 1920 × 1080 resolution makes it easy to display documents, spreadsheets, messaging apps, training materials and multimedia content. The extra monitor helps organise open applications and reduces the need to switch frequently between windows. The design mounted to the computer screen allows you to create an expanded workstation without placing a separate monitor on the desk.

IPS panel and Full HD image

The monitor is equipped with an IPS panel with W-LED backlighting, a 60 Hz refresh rate and a maximum brightness of 250 cd/m². The 1000:1 contrast helps maintain clear distinction between light and dark elements of the image, while 45% NTSC colour gamut coverage suits office, internet and multimedia use. Response time is 25 ms, and the viewing angles are specified as H:89° and V:89° at CR ≥ 10. This means content remains visible even when the additional screen is positioned at an angle to the user.

Mobile workstation

Extralink Smart Life S14 is ideal for working in the office, at home, on a business trip or in a coworking space. The device measures 373 × 219 × 25.3 mm and weighs approximately 0.75 kg. These specifications make it easy to carry the monitor together with a computer and other accessories. The set includes a carry case, which helps store the screen and protect it from accidental scratches during transport.

Connection via USB-C or Mini HDMI

The monitor offers two USB-C ports and a Mini HDMI port, allowing you to choose the connection method that suits the capabilities of the computer in use. Each interface supports 1920 × 1080 image at 60 Hz. Standard power parameters are 5 V and 3 A, and input power reaches 15 W. Power consumption in standby mode does not exceed 4.5 W. The model does not have built-in speakers, so sound can be played through the laptop or a connected audio device.

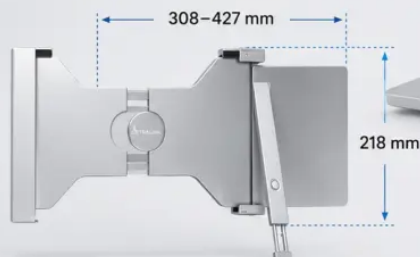

Compatibility with laptops from 14 to 17.3 inches

The adjustable design of Extralink Smart Life S14 is intended for laptops with screen sizes from 14 to 17.3 inches. The supported computer width range is from 308 to 427 mm, while its height should be at least 218 mm. The monitor is designed for housings where the thickness of the top screen bezel does not exceed 8.5 mm. Before installation, it is worth comparing these values with the dimensions of your laptop.

Compatibility with Windows and macOS

Extralink Smart Life S14 works with computers running Windows and macOS. The set includes a USB-C to USB-C cable, a Mini HDMI cable, a USB-A to USB-C power cable, a carry case and an instruction manual. The permitted operating temperature is from 5°C to 40°C, and humidity during use should be between 10% and 70%. The complete set of accessories makes it easy to prepare the additional screen for everyday work.

A laptop and the 14-inch Portable Dual Monitor are shown on a desk. The laptop screen displays a project management software interface with a table and a bar chart. The monitor displays a Gantt chart titled "HARMONOGRAM PROJEKTU".
