Information:

Extralink Smart Life S15 14" is a lightweight and slim portable IPS FHD 16:10 monitor that enhances the comfort of work, study and entertainment at home, in the office and on the go. It weighs only 460 g and is approx. 10 mm thick, so it fits easily into a bag or backpack. It delivers vivid images thanks to 100% sRGB and 1.67 billion colours, while Low Blue Light, HDR and FreeSync technologies improve eye comfort and display smoothness. Two USB-C ports and Mini HDMI provide broad compatibility with laptops, consoles, smartphones and tablets. The built-in stand, 3D speakers and a full set of cables included mean it is ready to use straight away.

Lightweight and functional

Designed for users who value mobility, this screen weighs just 460g and is extremely lightweight. Its slim profile (about 10 mm) makes it easy to stow in a backpack or laptop bag, gaining an extra screen whenever you need it. **The built-in stand** allows you to quickly and stably position the monitor on any flat surface, allowing you to work in the office, at home or on the go. The ability to switch between **landscape and**

portrait modes further increases flexibility, adapting to a variety of tasks.

Comfort for your eyes

The S15 monitor takes care of your eyesight during prolonged work. **The Low Blue Light function** reduces blue light emissions, which helps reduce eye fatigue. Watching movies or gaming becomes even smoother with support for **HDR and FreeSync** technologies, which minimize image jerkiness. These technical solutions contribute to an improved overall user experience, which is especially important for those who spend long hours in front of a screen.

Universal connections

With two **USB-C ports** and one **Mini HDMI port**, the monitor allows you to connect to a wide range of devices. You can use it with laptops, desktops, gaming consoles (such as PS5 and Xbox), as well as selected smartphones and tablets. The device works seamlessly with popular operating systems, including **Android, Windows, macOS and Linux**, making it an extremely versatile tool, ready to work in any conditions.

Sound that impresses

The built-in **3D surround sound** speakers eliminate the need to carry additional audio equipment. They offer surprisingly clear and rich sound that makes watching movies and listening to music more enjoyable. The monitor offers not only high picture quality, but also an engaging audio experience to support your daily entertainment.

Everything you need

Included with the monitor, you'll get the necessary accessories to get started right away. A **USB-C cable for power and video transmission** and a **Mini HDMI** cable mean you don't have to worry about additional purchases. The Class **A** housing guarantees durability and aesthetics, and the Extralink S15 works well in the office, at home, or on the go thanks to its compact size and functionality.
