Manufacturer: EXTRALINK

Referention number: DNXGGNIQIRMMMK

Information:

Extralink Smart Life S600 is a portable expansion set that adds two additional 15-inch Full HD IPS screens to a laptop, creating a convenient three-display workstation. Each monitor offers a resolution of 1920 × 1080, a 60 Hz refresh rate and 250 cd/m² brightness, ensuring a clear image and good colours from different angles. USB-C connectivity reduces the number of cables, while adjustable arms allow the screens to be set at the ideal angle or folded for transport. The lightweight, foldable design with a carry bag is ideal for work, study, presentations and multimedia. The set fits 15-17.3-inch laptops and works with Windows and macOS.

Rozdzielczość ekranu	1920x1080

Full product description

Two additional Full HD screens for a laptop

Extralink Smart Life S600 expands a computer workstation with two additional 15-inch screens. Each of them offers a resolution of 1920 × 1080 pixels, a refresh rate of 60 Hz and a maximum brightness of 250 cd/m². IPS panels help maintain a clear image and consistent colours when viewing the screens from different angles. This setup allows you to use several applications at the same time without constantly switching windows.

Portable workstation with three screens

After mounting the Extralink Smart Life S600 set, the laptop screen is supplemented by two side monitors, creating an expanded workstation for work, study and multimedia use. The grey design weighs approximately 1.65 kg, and its dimensions are 382 × 233 × 28 mm. The ability to fold the screens makes the device easier to store, while the included carrying case helps transport the set safely between home, the office and meeting locations.

Connection via USB-C

Extralink Smart Life S600 is equipped with two USB-C interfaces supporting image output at 1920 × 1080 at 60 Hz. The design allows image transmission to two additional screens via a single connection to a compatible laptop, helping to reduce the number of cables on the desk. The set operates with a 5 V / 3 A power supply, and the package includes USB-C to USB-C and USB-A to USB-C cables.

Adjustable positioning of the side screens

Movable arms allow you to adjust the position of the monitors to suit your working style and the space available on your desk. The left screen can be set within a range of 0° to 235°, while the right one can be set within a range of 0° to 180°. This makes it possible to direct the displays towards the user, show content to a person sitting next to you, or fold the entire structure before transport. Adjustment also helps reduce light reflections and improve the readability of displayed materials.

More space to work

Two additional monitors allow you to separate documents, a messenger, a spreadsheet, an analytics panel or source materials across separate screens. This solution helps keep the workstation tidy and reduces the need to switch between open programs. Extralink Smart Life S600 can be used for office work, data analysis, study, programming, presentations and multimedia content.

Compatibility with laptops from 15 to 17.3 inches

The adjustable mounting rail allows Extralink Smart Life S600 to be fitted to laptops with screen sizes from 15 to 17.3 inches. Supported chassis width ranges from 332 to 442 mm, the required height is over 222 mm, and the panel thickness should be less than 8.5 mm. Protective pads help secure the laptop chassis and screen at the mounting point. The set is compatible with computers running Windows and macOS.
