Information:

Extralink Smart Life S688 14" is a set of two portable monitors that increases comfort and work efficiency, providing more screen space for handling multiple applications at the same time. The IPS panel with a 178° viewing angle, 1920x1200 resolution, 16:10 aspect ratio and 100% sRGB coverage guarantees a sharp image and natural, accurate colours. The monitors are lightweight, slim and compatible with 13-17" laptops, and connection via a single USB-C cable makes quick setup easy without unnecessary wires. 360° rotation and an adjustable stand allow the position to be tailored to individual needs.

Full product description

Two monitors for greater work efficiency

Extralink Smart Life S688 14" is a set of **two portable monitors** that will make work organisation easier and provide greater user comfort. The **IPS** panel, **1920x1200** resolution and **100% sRGB coverage** guarantee a clear and detailed image, making content look natural and readable from every angle.

Two monitors - greater convenience and better work organisation

Extralink Smart Life S688 14" is a solution for people who need more screen space to work freely with several applications at the same time. Thanks to the **two monitors**, it is **easier to manage multiple tasks**, edit documents, analyse data or hold video conferences without having to switch between windows. It is especially useful for graphic designers, programmers, analysts or people working with spreadsheets.

IPS panel - wide viewing angles and natural colours

The **IPS panel** used provides viewing angles of **178°**, which means the image remains readable regardless of the user's position. **100% coverage of the sRGB colour space** guarantees accurate colour reproduction, which is important when editing photos and videos. The **1920x1200** resolution and **16:10** format allow for more efficient work by providing additional screen space.

Obrót o 360 stopni Wyświetlanie w wielu trybach

Mobility - easy carrying and quick connection

The monitors are **lightweight (1.43 kg)** and have a **slim design (2.82 cm thick)**, making them easy to **take on the go** and quickly attach to a laptop. Support for **laptops from 13 to 17 inches** means they can be matched to different devices. **Power and data transmission via a single USB-C cable** eliminates the need for additional cables and adapters.
