Full product description

Tinycontrol spliter RJ12 for controller lan

Splitter designed for v3.5. Splitter enables connecting up to 4 DS18B20 temperature sensors.

The sensors are connected to the screw terminals on the splitter board. Optionally, a cable tie can be passed through the holes in the PCB and firmly clamped to protect the cable against accidental tearing. The splitter is connected to the controller lanes via an optional cable with RJ12 connectors.
