Manufacturer: EXTRALINK

Referention number: DNXGGOQMGRMMNM

Information:

Extralink Smart Life S780 is a portable set of three 14-inch monitors that significantly increases your laptop's workspace. The 1920x1200 displays, in a 16:10 aspect ratio, with an IPS panel and full sRGB coverage, offer a sharp image, vivid colours and wide 178° viewing angles. Rotating panels and an adjustable stand let you adapt the layout for work, presentations and entertainment. Simple connection with a single USB-C cable or the included USB-A adapter makes the set convenient to use. Compatible with Windows and MacOS and 12-17-inch laptops.

Full product description

Three screens, complete freedom to work

Extralink Smart Life S780 is a set of **three 14-inch monitors** that expand your laptop's capabilities, providing convenience and efficiency wherever you are. Thanks to the **high 1920x1200 resolution**, **IPS panel** and **full sRGB colour coverage**, this set is ideal for both office work and entertainment.

Three screens - more space, better organisation

The set of **three 14-inch monitors** allows several applications to be displayed at the same time, eliminating the need to switch between windows. The **1920x1200 resolution** guarantees clear detail, and the **16:10** aspect ratio provides more working space than standard 16:9 screens. Whether you are working on spreadsheets, programming, or creating graphic content, **more space means greater comfort**.

IPS technology - faithful colour reproduction and wide viewing angles

The **IPS panel** provides **full sRGB gamut coverage**, resulting in realistic and vivid colours. The **178° viewing angles** help maintain image quality regardless of the user's position, which is especially important when working in a team or presenting content. This means images look sharp and consistent from every perspective.

Górny ekran można odchylać
w górę i w dół o 180 stopni

Flexible settings - adjust the screens to your needs

Both side monitors can be rotated through **0°-360°**, and the middle one up to 180°, allowing the layout to be adapted to different scenarios. The **adjustable stand** further stabilises the device, regardless of the screen angle.

Przeznaczone do laptopów o przekątnej 12" - 17"

Zintegrowana tylna podstawa, umieszczana na biurku.
Kompatybilne z laptopami o różnych rozmiarach.

Simple installation and wide compatibility

Connection is extremely intuitive - all you need is **one USB-C cable** for video transmission and power. If your laptop does not support USB-C, the set includes a **dual USB-A to USB-C cable**. The device works with Windows and MacOS (M1, M2, M3) as well as laptops sized **from 12 to 17 inches**, so it fits most modern models.
