The Smartest Network Device

Referention number: DNXXGIPKIRMMJL

Full product description

The dual-band Internet available with the **A702R router** brings you even more convenience and faster data speeds. With **1167 Mbps** of throughput and **802.11ac**, it's the way to go if you're working from home.

One-button connection to all

With one click, you are able to connect wirelessly to any device without having to enter complicated logins and passwords every time. The **WPS button** saves you time and trouble.

Separate area for guests

With **Multi SSID**, you can create a guest zone, providing you with a stable and smooth bandwidth not depending on the number of other users.

Don't miss your favorite show

You will no longer miss any of the episodes of your favorite shows or have to wait for a series to load. You will be able to enjoy seamless internet and TV at the same time - **IPTV**.

Safety first

With **WPA, WEP, WPA2 and WPA/WPA2 (TKIP AES)** security, there will be no leakage of your sensitive data or unauthorized access to your network. Moreover, thanks to **QoS**, you will have bandwidth control over IP/MAC.

Enjoy Your IPTV

Simply set up IPTV related information on A702R's Easy Setup page, you can enjoy smooth IPTV and fast Wi-Fi at the same time.

Parental controls

With this feature, you have full freedom to **block url** sites **that are harmful** to your child . You can also **set the amount of time** your kid spends on the internet, which will definitely benefit you.
